Remington Typewriters

are used by the heavy users

This is the supreme test of a typewriter. Good work on a brand new machine proves little or nothing. But it takes a first-class typewriter to keep doing good work, year after year, under the heaviest kind of service.

This is the secret of Remington supremacy. It accounts for the universal preference shown for the Remington by experienced users.

A NEW ENGLAND TRIO.

For years New England north from Boston has been frequented by the vacationists and health seekers. The first and most important feature which has made the region famous is the health-giving atmosphere; and this with delightful scenic surroundings, comfortable abiding places, an abundance of methods for diversion, coupled with unexcelled traveling facilities, suffice to make the territory a most superior and much sought-outing place.

Northern New England is really divided into three principal resort regions, viz.: Mountains, Sea Shore and Lakes; and for six cents in stamps the General Passenger and Ticket Agent of the Boston & Maine system, Boston, will send you a trio of booklets known as "Among the Mountains," "Lakes and Streams," and "All Along shore," and with them you will get a tour book which is overflowing with information of benefit to travelers in Maine, New Hampshire and Vermont. This company issues a variety of illustrated descriptive books which are listed in a readable index, and if you want to know about them, drop a postal to the above address.

Town Topics says:

"THE NEW YORK CENTRAL"

IS THE

"National Railroad of America."

In its Issue of May 9, 1901, this item appears

"In the special issue of postage stamps to advertise the Buffalo Exposition the Post Office Department has done honor to the New York Central Railroad, the greatest mail carrier in the world. The one-cent stamp represents the lake navigation with which the Central Railroad connects; the two-cent stamp, the famous Empire State Express train; the four-cent stamp, the automobiles used in the Central Railroad cab service; the five-cent stamp, the Niagara Falls bridge, past which the Central trains dash; the eight-cent stamp, the locks at Sault Ste. Marie, through which the Central Road steamers pass, and the ten-cent stamp, the ocean steamers with which the New York Central Lines connect and ticket passengers to every part of the globe. This unprecedented recognition by the Government establishes the New York Central as the National railroad of America."
