## "The LIGHT That NEVER FAILS"

Is a phrase which sums up in a few words the remarkable qualities of

### The Angle Lamp

This lamp is rapidly replacing all other systems of illumination wherever good light, ease of operation and economy are desired. While it is more brilliant than gas or electricity, it never wastes energy or gets out of order, is lighted and extinguished as easily as gas, may be filled while lighted and without being moved and burns for eighteen months per month. Thousands are in use in houses, stores, churches, schools, factories, churches, etc., and demonstrate the wonderful value and beauty of it when used under proper conditions. If you are interested in progressive illumination, you should send for our catalogue M.M. which shows all styles from \$1.50 up. Prompt request. THE ANGLE LAMP COMPANY, 26 Park Place, New York.

## No Orders Expected

during the holiday season, but we have found it good business policy to advertise in all seasons, for through our advertising we find investors who desire to secure the unusual profits realized by investments in legitimate working mines, and by continuous advertising they find us.

### The New Year's Dividends

disbursed by our house as financial agents for the several mining companies we represent and whose stock we have recommended to our customers, required the drawing and mailing of over 1,500 separate drafts and money orders, distributed in every State of the Union, and we have never yet had a single dissatisfied investor or customer.

### Our Combination Order Plan

divides the investment among several companies, dividend payers and first issues, at the ground-floor inaugural prices, thus obviating risk of loss and insuring regular interest, maximum profits and security of principal to the investor.

If interested in large and unusual profits—regular interest and security of principal—send for our Booklets of paying mines, combination order blank, latest Reports and full particulars that will give you interesting and profitable information on your investments for the coming year.
