

Valuable Books!

REVISED and ENLARGED EDITION of 1901

The Scientific American Cyclopedia Of Receipts, Notes and Queries.

15,000 Receipts. 734 Pages.
Price, \$5.00 in Cloth. \$6.00 in Sheep. \$6.50
in Half Morocco. Post Free.

This work has been revised and enlarged.

900 New Formulas.

The work is so arranged as to be of use not only to the specialist, but to the general reader. It should have a place in every home and workshop. A circular containing full Table of Contents will be sent on application. Those who already have the Cyclopedia may obtain the

1901 APPENDIX. Price, bound in cloth, \$1.00 postpaid.

The Progress of Invention In the Nineteenth Century

By EDWARD W. BYRN, A.M.

Large Octavo. 490 Pages.
300 Illustrations. Price \$3.00
by Mail, Postpaid. Half Red
Morocco, Gilt Top \$4.00.

THE most important book ever published on invention and discovery. It is as readable as a novel, being written in popular style.

The book gives a most comprehensive and coherent account of the progress which distinguishes this as the "golden age of invention," resulting in industrial and commercial development which is without precedent. A chronological calendar of the leading inventions is one of the most important features of the book, enabling the reader to refer at a glance to important inventions and discoveries of any particular year. The book is printed with large type, on fine paper, and is elaborately illustrated by 300 engravings and is attractively bound.

EXPERIMENTAL SCIENCE.

By GEORGE M. HOPKINS.

THIS is a book full of interest and value for Teachers, Students, and others who desire to impart or obtain a practical knowledge of Physics. This splendid work gives young and old something worthy of thought. It has influenced thousands of men in the choice of a career. It will give anyone, young or old, information that will enable him to comprehend the great improvements of the day. It furnishes suggestions for hours of instructive recreation.

20th edition. Revised and enlarged. 314 pages. 320 illus. Elegantly bound in cloth. Price, by mail, postpaid, \$4.00; Half Morocco, \$5.00.

MAGIC Stage Illusions and Scientific Diversions, including Trick Photography.

This work appeals to old and young alike, and it is one of the most attractive holiday books of the year. The illusions are illustrated by the highest class of engravings, and the exposures of the tricks are, in many cases, furnished by the prestidigitateurs themselves. Conjuring, large stage illusions, fire-eating, sword-swallowing, ventriloquism, mental magic, ancient magic, automata, curious toys, stage effects, photographic tricks, and the projection of moving photographs are all well described and illustrated, making a handsome volume. It is tastefully printed and bound. Acknowledged by the profession to be the Standard Work on Magic.

By A. A. HOPKINS. 568 pages. 420 illus. Price \$2.50.

A Complete Electrical Library.

By PROF. T. O'CONOR SLOANE.

An inexpensive library of the best books on Electricity. Put up in a neat folding box, as shown in cut. For the student, the amateur, the workshop, the electrical engineer, schools and colleges. Comprising five books, as follows:

Arithmetic of Electricity 128 pages, \$1.00
Electric Toy Making, 140 pages, \$1.00
How to Become a Successful Electrician, 128 pages, \$1.00
Standard Electrical Dictionary, 682 pages, \$3.00
Electricity Simplified, 158 pages, \$1.00

Five volumes, 1,300 pages, and over 450 illustrations. A valuable and indispensable addition to every library. Our Great Special Offer.—We will send prepaid the above five volumes, handsomely bound in blue cloth with silver lettering, and inclosed in a neat folding box, as shown in the illustration, at the Special Reduced Price of \$5.00 for the complete set. The regular price of the five volumes is \$7.00.

Full descriptive circulars of above books will be mailed free upon application.

MUNN & CO., Publishers,
361 BROADWAY NEW YORK.

Smith Premier Typewriter Co., Syracuse, N. Y.

It enables us to get in touch with a class which it is very desirable to reach.

Hercules Float Works, Springfield, Mass.

Have always considered a card in the Scientific American as one of the very best investments in advertising we have ever made.

V. W. Mason & Co., Providence, R. I.

Some of our largest orders from this country have resulted, and most of our foreign trade, on account of its being consulted by the largest and most important concerns abroad.

B. A. Stevens, Toledo, O.

My advertisements in the Scientific American always count.

Automatic Reducing Valve Co., Chicago, Ill.

Has brought us more inquiries than any other medium used.

Chicago Form Co., Chicago, Ill.

It has proven one of the best mediums of its class.

Book-Keeper Publishing Co., Detroit, Mich.

A valuable advertising medium. Will use it liberally the coming year.

Gripping Mfg. Co., Newark, N. Y.

Of twenty-odd publications used, the Scientific American brought the best returns for the amount invested.

Windsor Collar & Cuff Co., Windsor, Conn.

We carefully check returns, and those from your paper are from people who mean business and are not from curiosity seekers. Have also had numerous foreign orders as a direct result of this advertisement.

Wm. G. Willard, St. Louis, Mo.

Have had no end of returns from all sections of the country. A large number of orders accompanied by cash, proving that your readers have enough confidence in your publication to know that anything advertised therein must be all right, or it would not be there; they simply clip out the advertisement, and enclose their money with the order, not wasting time for descriptive circulars.

F. G. Fowler & Co., Bridgeport, Conn.

Have received inquiries and orders from nearly every country upon the face of the earth and from most intelligent classes. Nearly overwhelmed with orders as a direct result.

Moran Flexible Steam Joint Co., Louisville, Ky.

Consider it one of the best all-round publications issued.

Queen & Co., Philadelphia, Pa.

Have had perhaps more direct results from the Scientific American than from any other medium in which we have advertised. Many actual sales in distant foreign countries.

C. E. Locke Mfg. Co., Kensett, Ia.

Inquiries and orders from all over the world. We have been greatly surprised at the wide extent of territory from which responses have been received.

Rudolph Wurlitzer Co., Cincinnati, O.

Up to date, the results are far ahead of our expectations and better than other similar magazines.

Sebastian Lath Co., Cincinnati, O.

We feel that we could not do business without being represented in its columns.

Thompson Mfg. Co., Troy, N. Y.

Out of about twenty of the leading magazines, it is conspicuous for having given us the best results for a large percentage.

Pen-Carbon Manifold Co., New York City.

Brought answers from every quarter of the globe. It covers a field entirely of its own.

Business and Personal Wants.

READ THIS COLUMN CAREFULLY.—You will find inquiries for certain classes of articles numbered in consecutive order. If you manufacture these goods write us at once and we will send you the name and address of the party desiring the information. In every case it is necessary to give the number of the inquiry.

MUNN & CO.

Marine Iron Works, Chicago. Catalogue free.

Inquiry No. 1693.—For manufacturers or dealers in gum copal.

"C. S." Metal Polish. Indianapolis. Samples free.

Inquiry No. 1694.—For iron or hardware exporters quoting lowest rates for 10 tons 14 gage soft baling wire, and 10 tons of 3/4 or 5/8 best hoop iron 19 gage.

WATER WHEELS. Alcott & Co., Mt. Holly, N. J.

Inquiry No. 1695.—For manufacturers of penny-in-the-slot machines.

Stencil Machines.—A. J. Bradley, 101 Beekman St. N.Y.

Inquiry No. 1696.—For slot machines for wax matches.

For bridge erecting engines. J. S. Mundy, Newark, N. J.

Inquiry No. 1697.—For manufacturers of forges for small commutators.

Gasoline Lamps and Systems. Turner Brass Works, Chicago.

Inquiry No. 1698.—For manufacturers of excelsior machines.

Foot presses and dies. Amer. Hdw. Mfg. Co., Ottawa, Ill.

Inquiry No. 1699.—For manufacturers of planing mills, stationary saws, lathes, etc.

Machine chain of all kinds. A. H. Bliss & Co. North Attleboro, Mass.

Inquiry No. 1700.—Wanted an interest in a good patented article of general use which can be manufactured in a small way.

Reflecting telescope 12 in. ap. 6 ft. long, \$90. T. Box 74, Camden, N. J.

Inquiry No. 1701.—For manufacturers of billiard and pool balls and cues.

Sawmill machinery and outfits manufactured by the Lane Mfg. Co., Box 13, Montpelier, Vt.

Inquiry No. 1702.—For manufacturers of rubber, such as is used on billiard and pool tables.

Rigs that Run. Hydrocarbon system. Write St. Louis Motor Carriage Co., St. Louis, Mo.

Inquiry No. 1703.—For manufacturers of spring tongues, such as are used in harness snaps.

Ten days' trial given on Daus' Tip Top Duplicator. Felix Daus Duplicator Co., 5 Hanover St., N. Y. city.

Inquiry No. 1704.—For manufacturers of acetylene gas machines.

Gear Cutting of every description accurately done. The Garvin Machine Co., 149 Varick, cor. Spring Sts., N. Y.

Inquiry No. 1705.—For manufacturers of ice machinery.

New Book, Electric Gas Lighting. 50c. Send for full descriptive circulars free. Spou & Chamberlain, 12 Cortlandt Street, New York, U. S. A.

(Continued on page 401.)

Why Don't You

refer to an authority on engineering for a solution of the many knotty problems that daily confront the average engineer?

Tulley's Handbook on Engineering

will not only solve the difficulty but will make a better engineer of you. Treats on all branches. Endorsed by the foremost practical men in the engineering field.

If you don't want the book, send for a pamphlet which briefly describes it and is sent for the asking.

Wasteful Office Work

Merchants who buy with discretion and sell largely at fair advances over cost, at the end of the year find that their individual profits are small—that they hardly have made the interest on their invested capital and moderate salaries for the selves. They feel that there is an immense amount of d-tail connected with their business, making the office work cumbersome, intricate and expensive, which might be lessened, but how to simplify it they do not know.

Baker-Vawter Business Systems

are the result of examination of office work in almost every line of trade and can be adapted to any business, saving both time and money.

Baker-Vawter Company's accountants, guided by practical experience and common sense, will analyze your business, devise and install a simple and perfect system at a reasonable charge, which will save its cost many times. As often as required competent auditors will make examinations and reports.

Please write for pamphlet, "The Outcome of of Unintelligent Competition," containing pertinent and wholesome truths.

We are the originators of the Perpetual Ledger and many other labor-saving loose-leaf systems.

Address all communications to

Inquiry No. 1706.—For manufacturers of punchings for armatures.

Manufacturers of patent articles, dies, stamping, tools, light machinery. Quadriga Manufacturing Company, 18 South Canal Street, Chicago.

Inquiry No. 1707.—For manufacturers of water pumps for drilled wells.

Designers and builders of automatic and special machines of all kinds. Inventions perfected. The W. A. Wilson Machine Company, Rochester, N. Y.

Inquiry No. 1708.—For dealers in stamped articles of sheet iron.

Wanted to manufacture machinery or anything for the southern trade. Correspondence solicited. Stevenson Machine and Repair Company, Bryan, Texas.

Inquiry No. 1709.—For makers or dealers in 24-inch mill rocks.

The celebrated "Hornby-Akroyd" Patent Safety Oil Engine is built by the De La Vergne Refrigerating Machine Company. Foot of East 138th Street, New York.

Inquiry No. 1710.—For manufacturers of appliances for burning crude petroleum in cook stoves.

The best book for electricians and beginners in electricity is "Experimental Science," by Geo. M. Hopkins. By mail, \$4. Munn & Co., publishers, 361 Broadway, N. Y.

Inquiry No. 1711.—For manufacturers of traction engines for transportation purposes and for automobiles for handling heavy freights.

WANTED—Patent articles of merit to manufacture and place on the market. Will buy or pay royalty. Give full particulars. Address Sidney Folder Co., Sidney, Ohio.

Inquiry No. 1712.—For dealers in cheap novelties.

EXPERIMENTAL MACHINE SHOP.—We are not using our shop at present. Well equipped with lathes, shaper, woodworking machinery, etc. Will rent use and power very low. Fine place for automobile work. Billings Clapp Co., Boston, Mass.

Inquiry No. 1713.—For dealers in imitation gold jewelry, such as watches, etc.

Send for new and complete catalogue of Scientific and other Books for sale by Munn & Co., 361 Broadway, New York. Free on application.

Inquiry No. 1714.—For manufacturers of articles for the mail order trade.

The subscribers have invented a rotary engine utilizing expansion of steam—thoroughly steam tight—with an adjustable cut-off; and investors and practical engine builders are invited to correspond, as the engine will be shown them in actual operation. Expansion Rotary Engine, P. O. Box 1936, Boston.

Inquiry No. 1715.—For manufacturers of hand power machines for domestic use and for textile fabrics, etc.

Inquiry No. 1716.—For manufacturers of automatic stencil cutters.

Inquiry No. 1717.—For parties engaged in erecting electrical power plants.

Inquiry No. 1718.—For manufacturers of electrical novelties.

Inquiry No. 1719.—For manufacturers of marine gasoline motors.

Inquiry No. 1720.—For dealers in high-pressure gages.

Inquiry No. 1721.—For manufacturers of tubing capable of withstanding high pressure.

Inquiry No. 1722.—For manufacturers of steel springs for clocks.

Inquiry No. 1723.—For manufacturers of wire rope machinery.

Inquiry No. 1724.—For machinery for making cement mosaic tile, as hydraulic presses, etc.

Inquiry No. 1725.—For manufacturers of color which will stand the action of Portland cement.

Inquiry No. 1726.—For manufacturers of mineral wool.

Inquiry No. 1727.—For appliance for making paper cigarettes by hand.

Inquiry No. 1728.—For marine engines operated by gasoline or petroleum.

Inquiry No. 1729.—For small tin strips or fasteners for holding cards for display in stores.

Inquiry No. 1730.—For dealers in small gears, chains, taps, dies, general model machinery, etc.

Inquiry No. 1731.—For manufacturers of gas engines for electric generators of 15 or 18 h. p.

Inquiry No. 1732.—For manufacturers or dealers in aluminum gas and steam fittings.

Inquiry No. 1733.—For manufacturers of aluminum tubing.

Inquiry No. 1734.—For manufacturers of compressed air plants for cleaning carpets, furniture, etc.

Inquiry No. 1735.—For manufacturers of unplated jewelry, trinkets, etc.

Inquiry No. 1736.—For manufacturers of brass and aluminum castings for small model engines.

Inquiry No. 1737.—For manufacturers of iron and wire fencing.

Inquiry No. 1738.—For manufacturers of the "School Boy's Pride" shoe.

Inquiry No. 1739.—For manufacturers of brush-making machinery.

Inquiry No. 1740.—For a system for furnishing water to dwellings, where there are no water works.

Inquiry No. 1741.—For a machine on the style of a "nickel-in-the-slot" for turning off a certain quantity of water.

Inquiry No. 1742.—For manufacturers of the "Grisson Speed Reducer."

Inquiry No. 1743.—For manufacturers of aluminum goods.

Inquiry No. 1744.—For a small outfit for casting type.

Inquiry No. 1745.—For a manufacturer, in Canada, of small malleable castings.

Inquiry No. 1746.—For address of parties making rotary brushes.

Inquiry No. 1747.—For the latest improved burglar alarm.

Inquiry No. 1748.—For manufacturers of household novelties.

Inquiry No. 1749.—For manufacturers of novelties.

Inquiry No. 1750.—For manufacturers of coal-heading machines.

Inquiry No. 1751.—For manufacturers of labor-saving devices.

Inquiry No. 1752.—For a 15 h. p. traction gasoline or kerosene engine for use on a dry level farm.

Inquiry No. 1753.—For a machine for cutting, shredding or grinding straw.

Inquiry No. 1754.—For manufacturers of nails.

Inquiry No. 1755.—For manufacturers of rubber weather strips.

Inquiry No. 1756.—For parties to make a machine for the manufacture of carbon paper.

Inquiry No. 1757.—For the manufacturers of an automatic postage stamp machine.

\$10,000**Donated to Hypnotism**

Dr. X. La Motte Sage, a Noted Scientist, Donates \$10,000 To Be Used for the Publication and Free Distribution of a Valuable Work on Personal Magnetism and Hypnotic Influence.

Wants to Demonstrate the Practical Value and Power of this New Science in Business, in Society, in the Home, in Politics, and as a Factor in Influencing and Swaying the Minds of People.

Prominent Business and Professional Men, Ministers of the Gospel and Others Heartily Endorse the Movement—A Noted College Undertakes the Work of Free Distribution.

Any One May Get a Book Absolutely Free so long as the Edition Lasts and Master the Hidden Mysteries of this Marvelous Power at His Own Home—Many Jealously-Guarded Secrets Made Public.

Carnegie is giving away his fortune for libraries. Dr. X. La Motte Sage proposes to put the most useful book in all libraries free of charge right into the homes of the people. For this purpose he has just donated \$10,000 and a big publishing house is busy day and night turning out the books for free distribution. The book Dr. Sage wishes to distribute free of charge is entitled "The Philosophy of Personal Influence." It is heartily endorsed by the ablest business men, ministers, doctors and lawyers of two continents. It is beautifully illustrated with the finest half-tone engravings, and every page is brimful of intensely interesting and practical information. It is a book which should be in every home. It is by far the most remarkable work of the kind that has ever been written, and it has truly created a sensation in the book world.

It explains numerous instances in which people have been secretly and instantaneously controlled by hypnotic influence. It teaches you how to protect yourselves from the use of hypnotic power over you. It tells you how to develop and use your magnetic power so as to wield a wonderful influence over those with whom you come in contact.

Men like Vanderbilt, Morgan, Rockefeller and other millionaires have studied the very methods explained in this book and have used them in their business to pile up millions. This book lays bare secrets in the lives of rich men of which you have never dreamed. It reveals all the hidden mysteries of personal magnetism, hypnotism, etc., and discloses the real source of power and influence in every walk of life. It contains secret information of inestimable value to every person who wants to succeed in life. Many of the most prominent public men in this country have obtained this book and read every line, and they are daily using its teachings to their own profit and gain.

It tells of a secret, instantaneous method by which you may produce a state of insensibility to pain in any parts of the body, so that the teeth may be extracted and surgical operations performed without the use of cocaine, ether or anaesthetics of any kind. It gives you the power to induce sleep in yourself or others at any time of the day or night you may desire. It enables you to develop your mental faculties, improve your memory, eradicate disagreeable tempers in children, and to develop within yourself a marvelous magnetic will power so strong and so subtle as to make you practically irresistible. It will give you a force of character of which you have little dreamed, and will truly make you a leader of men. No matter how strong this description may seem, it is not one-half as strong as the marvelous power explained in this wonderful work.

If you have not achieved the success to which your abilities and talents justly entitle you, if you would like to secure a good paying position, obtain an increase in salary, if you care to rise higher

in your accepted business or calling, if you desire to wield a greater influence over others, if you care to win the friendship of someone you know, or if you long for fame or renown, you should write for a copy of this remarkable book at once.

The following extracts from a few of the letters received from some of the people who have read the book give an idea of its unusual character and great value:

Mrs. Mary Milner, 312 D Street, Pueblo, Col., in a recent letter says: "I was so worried I could not eat or sleep. I wrote you for your free book. I used the methods on myself with wonderful success. To-day I am perfectly well. I would not part with the information you gave me for any money."

Mr. T. L. Linderstruth, 30 East South Street, Wilkesbarre, Pa., says: "Your work on personal magnetism is a fortune to any one starting in life. It is absolutely sure to bring success."

A. J. McGinnis, 60 Ohio Street, Allegheny, Pa., says: "When I wrote for your book I was laboring by the day. Now I am managing a business. This is certainly the best proof that could be offered of its great value. I advise every man who wishes to succeed in life to get a copy at once."

G. S. Lincoln, M.D., 101 Crutchfield Street, Dallas, Tex., writes: "Your methods of personal influence are marvelous. I have used them on my patients with wonderful results."

S. R. King, M.D., Gillam, Ind., writes: "You have sent me the most remarkable book I have truly ever read. Your instruction in personal magnetism is simply grand. It gives one a power and an influence over others which I did not dream it was possible for the average man to acquire. Your book is worth more than gold to any one starting in life. Its value cannot be estimated. My only regret is that it was not in my hands when I was a young man."

The New York Institute of Science has undertaken the free distribution of the book referred to. Big roller presses are running day and night to supply the demand until the \$10,000 worth of books are distributed free. On account of the great expense incurred in preparing and printing this book, only those are requested to write for free copies who are especially interested and really and truly desire to achieve greater success, obtain more happiness, or in some way better their condition in life. Please do not write through mere curiosity, as the free edition is limited. If you want a book, write to-day, as the copies are going very fast. Never before in the history of the publishing business has there been such a great demand for any book as to-day exists for "The Philosophy of Personal Magnetism."

Remember, at the present time it will be sent to your address absolutely free, postage prepaid. Address New York Institute of Science, Department P T 7, 1935 Broadway, New York.
