

DIAMONDS ON CREDIT

See How Easy It is to Own One; There is No Better Investment.

Establish your credit by opening a charge account for a beautiful Genuine Diamond Ring, Brooch, Stud, Locket, Earrings, Cuff Buttons or other article to be selected from our half million dollar stock of Diamonds, Watches and Fine Jewelry. Catalogue sent free.

Diamonds will pay at least 20 per cent. in increased values this year. Your local jeweler, if he is posted, will tell you so. They are the best investment in sight at the present time.

You can establish a credit with us that you can use as long as you live, wherever you live, and with any other house in any line of business. Good Credit is Capital and a Diamond paid for is ready money the world over. Your credit is good with us. If your intentions are good. Honesty and good faith are the only requisites. If you have any doubt about your credit, write us and we will easily settle the question in advance. Ask yourself this question:

Will I do as I agree and can I spare from \$3 to \$10 monthly to invest in a Diamond?

If you can answer in the affirmative your credit is as good with us as though you were worth millions.

How We Do Business.

You select a diamond from our catalogue, we send it to you for examination. If you like the diamond, the mounting, the price and terms you make a small first payment and wear the diamond. The balance we arrange in a series of small, easy payments to be made monthly. We give a Guarantee Certificate of value and quality, and the option of exchanging at full price paid for any other article or a larger diamond at any time.

There are no disagreeable features about our Liberal Credit System, no publicity, no security, no guarantee, no endorsement—in fact it's nothing but a personal business transaction based on mutual confidence and good faith.

We are the largest house in our line of business and one of the oldest. Established in 1888. We originated the system of selling diamonds on easy payments, and do the largest diamond credit business in the world. There is half a million dollars back of our guarantee, and if you will ask your local banks how we stand in the business world, they will refer to their Dun's and Bradstreet's book of commercial ratings and tell you that our rating is the highest possible to have for responsibility, good credit and reliable performance of all agreements and promises.

We pay all expenses of placing our diamonds before you for your examination, it costs you nothing whether you buy or not—you get the diamond at once and every dollar you pay on it is a dollar saved. Diamonds are instantly convertible into cash the world over at full value.

Write today for our illustrated booklet which shows goods, prices, terms and full particulars of our liberal credit system.

JUST PUBLISHED

Practical Pointers For Patentees

Containing Valuable Information and Advice on THE SALE OF PATENTS.

An Elucidation of the Best Methods Employed by the Most Successful Inventors in Handling Their Inventions.

By F. A. CRESEE, M. E.

152 Pages. Cloth. Price, \$1.00.

THIS is the most practical, up-to-date book published in the interest of Patentees, setting forth the best methods employed by the most successful inventors in handling their patents. It is written expressly for Patentees by a practical inventor, and is based upon the experience of some of the most successful inventors of the day.

It gives exactly that information and advice about handling patents that should be possessed by every inventor who would achieve success by his ingenuity, and will save the cost of many expensive experiments as well as much valuable time in realizing from your inventions. It contains no advertisements of any description and is published in the interests of the Patentee alone, and its only object is to give him such practical information and advice as will enable him to intelligently handle his patent successfully, economically and profitably.

It gives a vast amount of valuable information along this line that can only be acquired by long, expensive experience in realizing from the monopoly afforded by a patent.

A printed copy of the specification and drawing of any patent in the foregoing list, or any patent in print issued since 1863, will be furnished from this office for 10 cents, provided the name and number of the patent desired and the date be given. Address Munn & Co., 361 Broadway, New York.

Canadian patents may now be obtained by the inventors for any of the inventions named in the foregoing list. For terms and further particulars address Munn & Co., 361 Broadway, New York.

NEW BOOKS, ETC.

SEWAGE AND BACTERIAL PURIFICATION OF SEWAGE. By Samuel Rideal, Sc.D. London: The Sanitary Publishing Company, Ltd. New York: John Wiley & Sons. 1901. 8vo. Pp. 308.

Dr. Rideal's book is a very good explanation of modern sewage purification by bacteriological processes. As may well be imagined, the work conducted in America plays no unimportant part in the development of water purification. The book is well printed and well illustrated.

"The Cow Pea" is the title of the latest publication issued by the Experiment Farm of the North Carolina State Horticultural Society at Southern Pines, N. C. This book, neatly bound and illustrated, discusses in plain and concise manner the value and uses of this important crop, the cow pea. Every reader can get a copy free by writing to the superintendent of Experiment Farm, Southern Pines, N. C.
