DARKENING CLOUDS

To the Widow and Children, the future is dark with clouds, if the bread-winner dies without making provision for his family. A Life Policy in the Travelers Insurance Company provides support and shelter, and is frequently the means of taking care of the mortgage on the house.

You cannot afford to neglect the safeguards of the Travelers Insurance Company's Life Policies.

The Accident Policies of the Travelers guarantee a weekly income in case of disability from accident. There are other important benefits.

NEW BOOKS, ETC.

FOREIGN TRADE REQUIREMENTS. Published annually with quarterly supplements. New York: Lewis, Scribner & Company. 1902. Pp. 532.

Our present industrial expansion renders the publication of a work such as "Foreign Trade Requirements," timely. In order to pass a critical opinion upon the work, it would be necessary to use it some time as a reference book. But a careful examination convinces us that its pages are replete with matter which should be of extreme value to the exporter. The information contained in the book is carefully classified, condensed and arranged in the following sections: Trade Conditions, Traveling Salesmen, Credit Customs, Commercial Law, Trade-Marks and Patents, Patent Laws, Transportation Facilities of the World, Coins and Currencies of the World, Miscellaneous, Cable Rates to all Countries, Weights and Measures of Foreign Countries, and Commercial Cities of the World.

DIAGNOSIS BY MEANS OF THE BLOOD. By Robert Lincoln Watkins, M.D. New York and London: The Physicians Book Publishing Co. 1902. 8vo. Pp. 388. Price \$5.

Physicians are apt to look rather askance on examinations of the blood in diagnosing cases. Nevertheless it must be admitted that a work of the character such as Dr. Watkins has written should refute all doubts of the efficacy of blood diagnosis. The system which Dr. Watkins describes is one which he has evolved himself. The work is, therefore, eminently original in its character, and for that reason extremely valuable. So far as we know, no similar work has appeared in medical literature. In order to elucidate his text, the author has introduced a very full series of reproductions from photographs taken by himself.

TRADES WASTE: ITS TREATMENT AND UTILIZATION. By W. Naylor. London: Charles Griffin & Co., Ltd. Philadelphia: J. B. Lippincott Co. 1902. 8vo. Pp. xv, 267. Price \$6.50.

This is the first publication of any length which is devoted to the subject of trades waste, as a whole. Although the work bears more the character of a compilation than of original research, it is, nevertheless, of rare merit. The fact that it contains almost everything that is worth knowing on trades waste is in itself sufficient commendation.

LIST OF REFERENCES ON RECIPROCIITY. Books, Articles in Periodicals, Congressional Documents. Compiled under the direction of A. P. C. Griffin. Washington: Government Printing Office. 1902. Pp. 38.

PATENTS THE WEALTH OF NATIONS PATENTS

A PATENT GIVES you an exclusive right to your invention for a term of seventeen years. You can sell, lease, mortgage it, assign portions of it, and grant licenses to manufacture under it. Our Patent system is responsible for much of our industrial progress and our success in competing in the markets of the world. The value of a successful Patent is in no degree commensurate with the almost nominal cost of obtaining it. In order to obtain a Patent it is necessary to employ a Patent Attorney to prepare the specifications and draw the claims. This is a special branch of the legal profession which can only be conducted successfully by experts. For nearly sixty years we have acted as solicitors for thousands of clients in all parts of the world. Our vast experience enables us to prepare and prosecute Patent cases and Trade Marks at a minimum of expense. Our work is of one quality and the rates are the same to rich and poor. Our unbiased opinion freely given. We are happy to consult with you in person or by letter as to the probable patentability of your invention.
