THE WHITE
STEAM CARRIAGE
THE RELIABILITY OF THE WHITE
HAS BEEN PROVED BEYOND QUESTION.
In the 500-mile Reliability Contest from New York to Boston and return, arranged by the Automobile Club of America, three White Steam Stanhopes covered the distance without stop or trouble of any kind, a perfect performance.
Two White Delivery Wagons (the only delivery wagons ever completing an endurance contest) also proved their reliability by coming through without misadventure.
These remarkable results immediately following the English endurance run—in which the White was one of the two machines out of seventy to make a perfect record—prove beyond a shadow of doubt the perfection and trustworthiness of the White motive power. It can be depended upon at all times and under all conditions.
Write for full particulars, including Prof. Thurston's report on our steam generator, and the official reports of important endurance contests.
