

## RECENTLY PATENTED INVENTIONS.

## Plumbing Improvements.

**FILTER ATTACHMENT.**—W. T. ERICKSON, New York, N. Y. An improved filter is herein provided in which means are employed for reversing the flow of the water so that impure matter lodged in the filter may, from time to time, be washed out therefrom. The invention prevents the indiscriminate changing of the direction of the waterflow and at the same time provides means for effecting the change at the proper time.

**FLOAT-VALVE.**—J. L. MAYFIELD, Sonora, Texas. This float-valve is especially designed for troughs in which it is desirable to maintain a constant level of water. The valve will automatically operate to re-supply the tank with water when it is withdrawn to a certain lower level and will also operate to cut off the inflow when the water shall have reached a certain predetermined height in the trough, such as will be within easy reach of animals for drinking purposes, or the maintaining of a desired quantity of stored water.

## Mechanical Devices.

**BOTTLE-FILLING MACHINE.**—S. C. MILLER, Louisville, Ky. In this invention a filling tank is employed and tubes depending therefrom enter the necks of a number of bottles. Means are provided for the escape of the air from the bottles as the liquid in graduated quantity is introduced within the bottles. The present invention is an improvement on a previous invention of Mr. Miller's, whereby the construction is rendered more efficient in service.

**PNEUMATIC TOOL.**—W. M. HOLDEN, Barre, Vt. Mr. Holden's pneumatic tool is arranged without a valve and the construction is such as to insure a uniform pressure on all sides of the piston and produce a free reciprocation with practically no friction. The tool is composed of but few parts not liable to get out of order and readily accessible to permit convenient cleaning or repairing whenever necessary.

**DEVICE FOR WATERMARKING PAPER.**—E. R. and O. F. BEHREND, Erie, Pa. By the use of this machine these inventors are able to secure a genuine water-mark by compression of the paper fibres in a paper-web while it is yet in a damp condition. Such compression of the fibres makes the water-mark take place after the paper-web has passed the couch rolls and before it enters the calendars.

**BALING-PRESS.**—M. CURRY, Killeen, Texas. Mr. Curry provides an improvement in that class of automatic presses adapted for baling hay, cotton, excelsior and similar materials. The materials are packed and compressed in the press box by means of a reciprocating plunger and wires are applied to the bale while being formed and subsequently twisted, knotted, and severed successively, after which the bale is ejected by the new one being formed.

## Medical Apparatus.

**THERMOMETER ATTACHMENT FOR FOUNTAIN-SYRINGES.**—F. KING, New York, N. Y. The purpose of the invention is to provide a means for applying a thermometer to fountain syringes and similar containers in such manner that the scale of the thermometer may be conveniently read and the thermometer applied independent of the body of the receptacle, and yet in communication with its contents.

## Railway Improvements.

**DRAFT RIGGING.**—P. M. CANTY, Altoona, Pa. Mr. Canty's invention is an improvement in draft rigging for railway cars, and particularly in the means whereby the draw-bar is yieldingly connected with the car so it can yield longitudinally to a limited extent in both directions, and thus cushion the longitudinal strains on the bar.

## Miscellaneous Inventions.

**FLOATING FISH-TRAP.**—A. C. BURDICK, Portland, Ore. The purpose of the invention is to provide a novel construction of floating fish-trap made especially to fish with the tide and further to provide a novel construction of the pot and first heart and means for flexibly and removably connecting them with supporting scows.

**TUCK-COMB.**—J. A. STILES, Wichita, Kans. The comb comprises two members having peculiar hinged-like connection. One member may be in the shape of an ordinary comb, and the other member having ornamental configuration. The main feature of the invention resides in so connecting the two members that after the comb-like member is introduced in the hair the two members will clamp it, and at the same time afford means whereby straggling hair may be secured.

**FOLDING SATCHEL.**—J. TREVETHAN, Berkeley, Cal. This metallic satchel or holder is designed especially for carrying books and is constructed to fold compactly when empty and to fold in close engagement at its sides with the outer side surfaces of the book covers when the device is carried or held in the hand.

**NOTE.**—Copies of any of these patents will be furnished by Munn & Co. for ten cents each. Please state the name of the patentee, title of the invention, and date of this paper.

## Business and Personal Wants.

**READ THIS COLUMN CAREFULLY.**—You will find inquiries for certain classes of articles numbered in consecutive order. If you manufacture these goods write us at once and we will send you the name and address of the party desiring the information. **In every case it is necessary to give the number of the inquiry.**  
MUNN & CO.

Marine Iron Works. Chicago. Catalogue free.

**Inquiry No. 3402.**—For a producer gas plant.

AUTOS.—Duryea Power Co., Reading, Pa.

**Inquiry No. 3403.**—For manufacturers of automatic boot-cleaning machines.

Small Steam Motors. F. G. Grove, Luray, Va.

**Inquiry No. 3404.**—For machinery for pressing peat to be used as fuel.

"U. S." Metal Polish. Indianapolis. Samples free.

**Inquiry No. 3405.**—For machinery and supplies for a canning factory.

Dies, tools, models. Am. Hardware Co., Ottawa, Ill.

**Inquiry No. 3406.**—For machinery for removing the skin of animals after slaughtering.

Coin-operated machines. Willard, 284 Clarkson St., Brooklyn.

**Inquiry No. 3407.**—For makers of thermometers with circular dial faces.

Dies, stampings, specialties. L. B. Baker Mfg. Co., Racine, Wis.

**Inquiry No. 3408.**—For 3-inch steel tubing 1/4 inch thick, finished on the inside, suitable for gas engine cylinders.

Handle & Spoke Mch. Ober Mfg. Co., 10 Bell St., Chagrin Falls, O.

**Inquiry No. 3409.**—For information concerning wireless telegraphy.

Sawmill machinery and outfits manufactured by the Lane Mfg. Co., Box 13, Montpelier, Vt.

**Inquiry No. 3410.**—For machinery for plaiting rotted poplar or wab-hoo bark for making bark horse collars.

Let me sell your patent. I have buyers waiting. Charles A. Scott, Granite Building, Rochester, N. Y.

**Inquiry No. 3411.**—For machinery for making scales on boxwood rulers.

Parties to manufacture on royalty the latest improved cooking range. Mrs. Eleanor Clarke, Emlenton, Pa.

**Inquiry No. 3412.**—For machinery and appliances for a cold storage room.

We make anything in sheet metal, any shape. Estimates free. Metal Stamping Co., Niagara Falls, N. Y.

**Inquiry No. 3413.**—For sheet metal model makers in New York and Philadelphia.

Inventions developed and perfected. Designing and machine work. Garvin Machine Co., 149 Varick, cor. Spring Sts., N. Y.

**Inquiry No. 3414.**—For manufacturers of machinery for making pressed brick.

Manufacturers of patent articles, dies, stamping tools, light machinery. Quadriga Manufacturing Company, 18 South Canal Street, Chicago.

**Inquiry No. 3415.**—For machines for affixing stamps to envelopes or cards.

The largest manufacturer in the world of merry-go-rounds, shooting galleries and hand organs. For prices and terms write to C. W. Parker, Abilene, Kan.

**Inquiry No. 3416.**—For makers of malleable iron to do novelty work.

We manufacture anything in metal. Patented articles, metal stamping, dies, screw mach. work, etc. Metal Novelty Works, 43 Canal Street, Chicago.

**Inquiry No. 3417.**—For parties engaged in cutting small cones to order.

The celebrated "Hornby-Akroyd" Patent Safety Oil Engine is built by the De La Vergne Refrigerating Machine Company. Foot of East 138th Street, New York.

**Inquiry No. 3418.**—For makers of beaded wire pins (tempered) for perforating machines.

The best book for electricians and beginners in electricity is "Experimental Science," by Geo. M. Hopkins. By mail, \$5. Munn & Co., publishers, 361 Broadway, N. Y.

**Inquiry No. 3419.**—For manufacturers of axle cutters.

We manufacture on contract: patented hardware specialties, tools, dies, metal stampings, special machinery, etc. Edmonds-Metzel Mfg. Co., 778 West Lake Street, Chicago.

**Inquiry No. 3420.**—For manufacturers of glass bottles holding 5 quarts to the gallon, for carbonated spring water.

Gasoline Automobile Batteries. William Roche's "Autogas" used properly will carry vehicle twice as far as any other battery of same weight. William Roche, inventor and manufacturer, 42 Vesey Street, New York, N. Y., U. S. A.

**Inquiry No. 3421.**—For dealers in old rubber.

**MONEY MADE EASY.**—If you are employed in any branch of the electrical business, and want to increase your income in an easy and pleasant way, don't fail to write us at once. Our proposition is positively a necessity to all interested in the science of electricity. Address Frederick J. Drake & Co., 356 Dearborn Street, Chicago, Ill.

**Inquiry No. 3422.**—For makers of heaters using wood for fuel.

## To Ambitious Persons.

A prominent business man of New York City writes that he would like to come in touch immediately with a few well-recommended persons who are desirous of a higher education. This party has at his disposal a limited number of Free Tuition Contracts in the following courses: Electrical Engineering (including Interior Wiring and Lighting, Electric Railways and Telephone and Telegraph Engineering), Practical Electricity, Illustrating, Caricature, Ad-writing, Journalism, Proof-reading, Bookkeeping and Stenography. There is absolutely no immediate expense for tuition, if you are awarded one of these contracts, the only cost to you being postage, etc., and you can pay these during the first four months. We would strongly recommend that you write to this gentleman, if you are ambitious to get ahead. Address W. L. B., Box 53 Madison Square, New York City, and enclose your references, and be sure and mention Scientific American.

**Inquiry No. 3423.**—For photographic nickel-in-the-slot machines.

Send for new and complete catalogue of Scientific and other Books for sale by Munn & Co., 361 Broadway, New York. Free on application.

**Inquiry No. 3424.**—For makers of molds for making soap.

**Inquiry No. 3425.**—For manufacturers of engraving machinery for button making.

**Inquiry No. 3426.**—For makers of portable saw-mills.

**Inquiry No. 3427.**—For makers of small clamps for paper.

**Inquiry No. 3428.**—For steel framing, girders, etc., for the construction of buildings.

**Inquiry No. 3429.**—For makers of appliances for distributing a dry powder fire extinguisher on fires.

**Inquiry No. 3430.**—For an ice machine, capacity 300 pounds per day.

**Inquiry No. 3431.**—For Parties to manufacture patent cutlery.

**Inquiry No. 3432.**—For makers of band and steam laundry machinery.

**Inquiry No. 3433.**—For information relative to the use of compressed air for elevating water from deep wells.

## HINTS TO CORRESPONDENTS.

**Names and Address** must accompany all letters or no attention will be paid thereto. This is for our information and not for publication.

**References** to former articles or answers should give date of paper and page or number of question.

**Inquiries** not answered in reasonable time should be repeated; correspondents will bear in mind that some answers require not a little research, and, though we endeavor to reply to all either by letter or in this department, each must take his turn.

**Buyers** wishing to purchase any article not advertised in our columns will be furnished with addresses of houses manufacturing or carrying the same.

**Special Written Information** on matters of personal rather than general interest cannot be expected without remuneration.

**Scientific American Supplements** referred to may be had at the office. Price 10 cents each.

**Books** referred to promptly supplied on receipt of price.

**Minerals** sent for examination should be distinctly marked or labeled.

(8747) F. A. S. asks for a strong glue that can be held over a flame and then be applied. A. Some of the so-called marine glues are used in this way: (A) Naptha, 1 pint; pure rubber, cut into shreds, 1 ounce. Macerate for 10 to 12 days and then rub out smooth on a plate. Then mix 2 parts of shellac with 1 part of this solution. Melt at about 250 deg. F. for use. (B) Dissolve 10 parts of caoutchouc in 12 parts of refined petroleum, by digesting for 10 days to 2 weeks. Then carefully melt 20 parts asphalt and when melted, pour in the other solution. Keep warm (in hot water), and stir until uniform. Pour into greased molds and allow to harden. These marine glues are very strong.

(8748) G. H. M. asks: Can a battery be made where one of the electrodes used is gold? If so, what is the other electrode, and what is the exciting fluid used? A. We can see no reason why a battery may not be made with gold for a negative element, and any metal which will be acted upon by the liquid used for the positive element, if one wished to do so. Platinum was used in this way in some of the older forms of cell. It was replaced by carbon as a cheaper material. And the carbon of almost any cell may be replaced by gold.

(8749) J. M. C. asks: How many watts are required to 16 candle power incandescent lamp per hour? Also, about the average price per thousand watts of electricity. A. Incandescent lamps for best service are made for about 3 1/2 watts per candle, or 55 watts for a 16 candle power lamp. The price for service is differently rated in different places. In large cities it is about 2 cents per ampere hour at 110 volts; in small places the rate is often so much a lamp-month, the time of lighting not being considered.

(8750) C. B. says: I want a magnetic coil capable of attracting an armature a distance of 1/4 of an inch. The circuit will have a pressure of 110 volts at 10 amperes. What size coil will I need, and also size wire? A. We do not advise you to make a magnet as you propose to carry 10 amperes at 110 volts pressure for the purpose of attracting an armature 1/4 of an inch. It would require a large wire and be very heavy. It is far better to use one ampere and have a pair of 100-volt lamps in parallel as a resistance. The coil will require to be wound to 10 ohms resistance and No. 24 wire may be used. Of this about 400 feet will be required.

(8751) C. S. N. writes: 1. Having noticed in your Notes and Queries column a short time ago that borax and good management are the best for welding steel, I wish to state that while both are indispensable, I find that an ounce of carbonate of iron to the pound of borax is a very good addition. Can you inform me whether aluminium can be soldered with lead-and-tin solder, and in what proportions? Also, what kind of acid to use? A. Lead-and-tin solder alone is not suitable for soldering aluminium. A solder made of 1 part aluminium, 1 part of 10 per cent phosphor tin, 8 parts zinc, 32 parts tin, by weight, makes a good-flowing solder. Canada balsam is used for flux. 2. What is the voltage of an Edison-Lalande battery cell, such as is used on gasoline engines, and will it be either temporarily or permanently exhausted by running a small motor for an hour or more? A. The voltage of an Edison-Lalande cell is about 7-10 volt. Their small internal resistance greatly increases their amperage and capacity to from 100 to 300 hours. They are not exhausted on short runs.

## INDEX OF INVENTIONS

For which Letters Patent of the United States were Issued for the Week Ending

November 11, 1902,

AND EACH BEARING THAT DATE.

[See note at end of list about copies of these patents.]

Acids, making polyamidoanthraquinone sulfo, E. Hepp.....	713,432
Addressing and assorting newspapers, magazines, etc., machine for, L. A. Agnew.....	713,272
Adjusting compound wound generator, C. P. F. Steinmetz.....	713,523
Alcohol, making wood, Brandt & Root.....	713,552
Animal trap, H. Sargent.....	713,502
Automobile, A. S. Krotz.....	713,313
Awnings, means for hanging, C. J. Graf.....	713,299
Axle support, G. W. Kramer.....	713,455
Bag frame catch, T. E. Grimm.....	712,429
Bag holder, O. G. Nosker.....	713,139
Bale band fastening, D. M. Campbell.....	713,203
Bandages, suspensory, H. C. Lovis.....	713,318
Batteries, non-active metal for use in storage, H. H. Lloyd.....	713,568
Beading and turning machine, G. S. Hill.....	713,566
Bearing, roller, R. D. Camp.....	713,058
Bearing, side, J. C. Wands.....	713,183
Bed and commode, invalid, W. C. Feely.....	713,416
Bed, sofa, T. G. Weaver.....	713,260
Bedstead table attachment, C. Swindell, Sr.....	713,529
Bedstead, J. Arn.....	713,374
Bicycle driving mechanism, M. Schmidt.....	713,350
Binder, H. E. Dade.....	713,160
Bit, E. A. Cowley.....	713,067
Blackboard trough, T. R. Baker.....	713,377
Blotter holder, L. W. Willson.....	713,266
Blowpipe, E. Fouché.....	713,421
Blowpipe, M. M. Kerr.....	713,451
Boat, swing, J. White.....	713,263
Boller, Cowley & Cooper.....	713,068
Book, check, F. Vandeven.....	713,538
Book cover, Thomas & Lynch.....	713,176
Boat and shoe tree, A. C. McKnight.....	713,482
Bottle, V. D. White.....	713,548
Bottle holder, A. Schneider.....	713,160
Bottle holding case, F. W. Molitor.....	713,130
Bottle, non-refillable, W. S. McCrea.....	713,136
Bottle, non-refillable, T. J. F. Muller.....	713,236
Box, H. F. Henning.....	713,216
Box fastener, C. L. Mellinger.....	713,233
Box filling and closing machine, paper, C. de Quilfeldt.....	713,491
Box making machine, J. W. Denmead.....	713,074
Bracket hook, H. C. M. Sæberghagen.....	713,156
Brake adjuster, Paxton & Driscoll.....	713,339
Bread cutting machine, C. J. Vann.....	713,539
Brick making machinery, C. R. Monroe.....	713,561
Bridge, collapsible or folding, D. Doyen.....	713,570
Broom or analogous instrument, M. Young.....	713,549
Brush, rotary, F. G. Farnham.....	713,080
Bucket handle, J. Schaffer.....	713,505
Bucket, well, C. P. Jackson.....	713,442
Buckle, J. F. Molloy.....	713,569
Buffer, hand, O. L. Brainard.....	713,199
Buffing wheel, E. R. Burns.....	713,201
Burial apparatus, C. W. Wellman.....	713,187
Button, badge, J. A. Doran.....	713,076
Camera attachment, J. K. L. Thomsen.....	713,177
Can filling machine, J. R. Brown.....	713,554
Can opener, W. Maxwell.....	713,472
Cane and seat, E. La Force.....	713,114
Capo tasto, E. R. Kappeler.....	713,310
Car brake, J. Runnoe.....	713,499
Car coupling, F. S. Putnam.....	713,240
Car door, grain, Steine & Jones.....	713,167
Car door, grain, J. Montgomery.....	713,168
Car fender, E. Sherwood.....	713,163
Car grain door, S. E. McKenney.....	713,481
Car, ore, W. C. Matteson.....	713,321
Car replacer, G. I. Krieger.....	713,456
Car window, J. Stewart.....	713,525
Cars, automatic latch for dump, J. H. Hendy.....	713,302
Carbureter, vaporizing, W. M. Power.....	713,146
Carousal, cyclodial, W. D. Cronin.....	713,070
Carpet or floor covering, interlocking, A. L. Flood.....	713,420
Cash carrier, W. L. Churchill.....	713,059, 713,060, 713,557
Cash register, J. Schneller.....	713,159
Cash register, R. J. Cary.....	713,205
Cash register, J. L. Roberts.....	713,243
Cash register, Bickford & Lock.....	713,387
Cash register, Pottin & Moussier.....	713,490
Caster, M. Fishel.....	713,082
Chafing dish heater and support, L. M. Taylor.....	713,531
Chain, C. W. Levalley.....	713,120
Chain, drive, C. W. Hunt.....	713,102
Chaplet, McCoy & Lukens.....	713,571
Cheese cutter, W. G. Templeton.....	713,532
Chimney top, R. C. Dugan.....	713,409
Chocolate cutter, J. F. Wynkoop.....	713,270
Chuck, drill and lathe, O. M. Mowat.....	713,478
Churn, A. C. Enoch.....	713,293
Clay press, W. D. Frerichs.....	713,562
Clothes pins, machine for scoring, riveting, and printing, C. Carr.....	713,285
Clutch, friction, T. S. Casner.....	713,556
Clutch, shaft and pulley, A. C. Pessano.....	713,341
Coat hanger, I. F. Baer.....	713,376
Coating composition, insoluble, J. A. Just.....	713,309
Cock, ball, D. W. Gorman.....	713,426
Cock, plug, Dordo & Schutte.....	713,052
Coke oven charging device, A. Ernst.....	713,413
Collar and necktie fastener, W. Ferguson.....	713,418
Collar blanks, etc., machine for folding, C. H. Knapp.....	713,112
Collar blanks, etc., machine for folding, Maitland & Beattie.....	713,230
Collars, etc., machine for reinforcing, J. H. Shepherd.....	713,247
Coloring matter. Compound suitable for producing, Julius & Gunther.....	713,447
Comb, J. A. Clinton.....	713,402
Conduit outlet box. Interior. Betts & Thomas.....	713,386
Cooker, S. W. Richardson.....	713,154
Cork extractor, W. T. Fox.....	713,422
Cork puller bottle neck clamping mechanism, E. Walker.....	713,540
Cotton chepper, A. R. Johnson.....	713,224
Cotton stalk cutter, W. Qualls.....	713,241
Crib, infant's, T. H. Churchill.....	713,398
Culinary utensil, H. von Uffel.....	713,575
Current meters, starting alternating, T. J. Johnston.....	713,445
Currying device, H. J. Bretzel.....	713,281
Cut off, drain pipe, F. J. Louis.....	713,466
Cycle driving gear, motor, D. Macdonald.....	713,467
Cycle, motor, F. Thourout.....	713,533
Damper mechanism, F. G. Cooper.....	713,066
Dental chair, A. W. Browne.....	713,282
Dental engine, F. Hurlbut.....	713,103
Dental forceps, W. T. Martin.....	713,470
Dental matrix crown, I. H. Alexander.....	713,273
Dental tool holder, C. A. Lundberg.....	713,319
Dentistry, G. G. Martin.....	713,469
Desk lock, detachable cylinder, J. Roche.....	713,244
Display rack, Feldmann & Haas.....	713,417
Distilling apparatus, W. F. M. Goss.....	713,297
Distilling liquids, W. F. M. Goss.....	713,298
Door hanger, E. F. Lawrence.....	713,115
Door hanger, Lane & Jones.....	713,315
Door spring and check, combined, J. Wolf.....	713,267
Draft gear, friction, H. C. Buhoup.....	713,392
Dress shields to waists, means for attaching, D. Basch.....	713,193
Drum, beating, W. J. Burton.....	713,055
Dumping device, C. W. Hewbert.....	713,220
Dye and making same, red diazo, Schraube & Voigtlaender, Tetzner.....	713,507
Edge, straight, W. Paschall.....	713,141
Educational appliance, J. Flindall.....	713,085
Egg filler, C. E. Staats.....	713,355
Electric conduit, A. M. Lougee.....	713,123
Electric conduits, making, A. M. Lougee.....	713,122
Electric machines, maintaining synchronous rotation of dynamo, E. W. Mix.....	713,320

Electric machines, operating dynamo, F. H. Jeannin	713,307
Electric meter, J. Harris	713,564
Electric switch, T. Muller	713,133
Electric time switch, M. Rush	713,500
Electric wave forms, recording, E. J. Murphy	713,479
Electrical distribution system, C. P. Steinmetz	713,356
Electromagnetic brake, W. T. Pember	713,340
Electromagnetic tool, R. R. Nicely	713,486
Elevator hatchways, safety doorway for, J. H. Johnson	713,225
Emergency brake, A. L. von Steuben	713,357
End gate, J. F. White	713,262
Endless carrier, T. X. Jones	713,446
Engine, J. P. Magney	713,320
Engine brake, traction, E. Boerschlein	713,408
Engine coupling, traction, J. W. Buller	713,393
Engine sparking mechanism, gas or gasoline, J. E. Bean (by judicial change of name now E. B. Parkhurst)	713,194
Engines, exhaust pipe muffler for gas or other, J. L. & C. J. Tobias	713,536
Envelop, H. A. Graham	713,428
Eyeglasses, R. B. Finch, reissue	713,428
Eyeflet, F. Quarmby	713,149
Faucet holder and solder retainer, combined, J. G. Porch	713,344
Faucet, hot or cold water, Pierce & Hanson	713,144
Feed regulator, G. Hoepner	713,099
Fence making machine, W. C. Kincaid	713,452
Fiber, treating vegetable, C. T. Lee	713,116
File, document, F. Trambly	713,363
File wrapper, F. L. Danforth	713,071
Filter and cooler, combined, J. E. Bimm	713,197
Filter, coffee, R. Aubry	713,182
Filter, oil, J. Edwards	713,292
Fire alarm, automatic, E. Bernheim	713,050
Firearm, magazine, S. H. Barton	713,276
Fire door lock, G. Albrecht	713,372
Fireproof grain bin, E. V. Johnson	713,104
Fireproof structure, prismatic, F. L. O. Wadsworth	713,182
Fish hook, W. H. Jacoby	713,306
Fish nets, illuminating buoy for, W. L. Uhlenhart	713,364
Fishing reel, J. H. Adams	713,371
Fishing tackle spoon carrier, J. J. Hildebrandt	713,435
Flue cutter, adjustable, W. H. Kaufman	713,108
Flushing device, W. Scott	713,161
Fly trap, H. A. Bierley	713,388
Food, cereal, H. D. Winton	713,581
Fruit assorting table, C. D. Nelson	713,484
Fuel briquet, J. Simons	713,512
Furnace, G. W. Meacher	713,473
Furnace doors, device for connecting, M. Cummings	713,288
Fuse carrier, H. Sargent	713,505
Gage, J. A. Traut	713,179
Game, C. M. Atkins	713,275
Game register, E. J. Wells	713,576
Games, counter for pinocle or similar, L. V. Johnson	713,444
Garment clasp or hose supporter, J. Stanley	713,252
Garment hanger, M. A. Willer	713,188
Garment supporter, L. M. Jones	713,449
Gas burner, W. F. H. Taylor	713,223
Gas burner of Bunsen type for illuminating purposes and for heating, Lamure & Yege	713,314
Gas engine, J. McCoy	713,332
Gas generator, acetylene, F. L. Irish	713,223
Gas generator, acetylene, T. H. Duncombe	713,291

### WOOD or METAL Workers

Without Steam Power should use our Foot and Hand Power Machinery. Send for Catalogues.

A - Wood-working Machinery, B - Lathes, etc.

SENECA FALLS MFG. CO.  
69½ Water St., Seneca Falls, N.Y.

### ENGINE & FOOT LATHES

MACHINE SHOP OUTFITS  
TOOLS & SUPPLIES  
SEBASTIAN LATHE CO. CINCINNATI

Foot and Power and Turret Lathes, Planers, Shapers, and Drill Presses.  
SHEPARD LATHE CO. 131 W. 24 St., Cincinnati, O.

### WALWORTH PIPE VISES

are the Heaviest and Strongest vises made.

RENEWABLE STEEL JAWS.

WALWORTH MFG. CO.,  
128 TO 136 FEDERAL STREET, BOSTON, MASS.

### THE EUREKA CLIP

The most useful article ever invented for the purpose. Indispensable to Lawyers, Editors, Students, Bankers, Insurance Companies and business men generally. Hook marker and paper clip. Does not mutilate the paper. Can be used repeatedly. In boxes of 100 for 25c. To be had of all booksellers, stationers and notion dealers, or by mail on receipt of price. Sample card, by mail, free. Manufactured by Consolidated Safety Pin Co., Box 21, Bloomfield, N.J.

### "WOLVERINE" Gas and Gasoline Engines

STATIONARY and MARINE.

The "Wolverine" is the only reversible Marine Gas Engine on the market. It is the lightest engine for its power. Requires no licensed engineer. Absolutely safe. Mfd. by WOLVERINE MOTOR WORKS, 12 Huron Street, Grand Rapids, Mich.

### Second Hand Gas and Gasoline Engines

at a saving of 50 per cent, always in stock from 1 to 30 h. p., all makes. Stationary only. In thorough order and guaranteed. Your needs in Gas or Gasoline Engines we keep.

CALLESON MOTOR CO., 271 West St., New York.

### BOGART GAS ENGINES

Double Cylinder, 50 h. p. and upward to 500.

FARRAR & TREFFS, Steam Engine & Boiler Works, 54 to 56 Perry Street, Buffalo, N.Y.

Catalogue on Application

### GASOLINE ENGINES

Marine & Stationary from 1-4 to 16 H. P.

A thoroughly satisfactory engine at a moderate price. Write for catalogue.

THE CLIFTON MOTOR WORKS, 283 E. Clifton Ave., Cincinnati, O.

### FOR EXTRA HEAVY WORK

the best wire rope on the market, for any purpose, is undoubtedly our "POWER" wire rope. The wire used in its construction is drawn from a special steel and tempered by a patent process, producing the strongest, toughest, and most reliable rope in existence. Each and every wire in it is separately tested to insure perfection.

BRODERICK & BASCOM ROPE CO., 809 N. Main St., ST. LOUIS, MO., U. S. A.

### THE BRIGHT WHITE LIGHT FOR MAGIC LANTERNS

Also for Bromide Enlarging, Copying, Photo-Engraving. Intensely brilliant, very portable, burns kerosene, costs 1 cent per hour. Send for copy of Franklin Institute award and lists of Stereopticons, Movi Pictures and Slides.

WILLIAMS, BROWN & EARLE, Dept. 6, 918 Chestnut St., Philadelphia.

### A GOOD INVESTMENT

For \$1.75 we will send by express (not prepaid), complete N. D. Outfit with full instructions for learning OPERATING. A fascinating study that will enable you to earn good wages. Send 25 cents for universal dating stamp, by mail, postpaid. Send for our catalog. Established 1879.

J. H. BENNETT & Co. Inc. 20 Park Place New York.

### 5hp TANDEM Gas Engine

For Gas or Gasoline

10, 15, 20, 25 and 50 H. P. sizes in stock at bargain prices. Stationary use only.

Northern Engineering Works, 641 Water St., Detroit, Mich.

### THE "QUEEN" DRAWING PENS.

SCIENTIFICALLY SHARPENED.

All Queen Pens are sharpened by experts who have had many years' experience in making and sharpening Drawing Pens. Only the finest English Steel is used in the Queen Pens, and they are hand-made and carefully tempered by our improved process. QUEEN & CO., Inc., Mathematical, Engineering and Scientific Instrument Makers, 1010 Chestnut St., Philadelphia.

### University Shoe

(Trade-Mark)

Heaviest only grain leather-tan colored or black. Watertight construction. Comfortable and nearly indestructible. Send for pamphlet.

### Apple Economical Gas Engine Igniters

Are positively the best built for Stationary, Automobile and Marine Gas Engines, either in the form of a jump spark system. We are the leaders in the manufacture of Igniting Dynamos, Magnets, Governors, Coils, Plugs, etc. Write for printed matter. **The Dayton Electrical Manufacturing Company**, No. 80 South St. Clair St., Dayton, Ohio, U. S. A.

New York stock carried by Chas. E. Miller, 97 Reade Street, N. Y.; Philadelphia Office, The Bourse; Chicago Office, 19-21 La Salle Street; St. Louis stock carried by A. L. Dvle, Linmar Building; Boston Stock carried by Electric Gas Lighting Co., 195 Devonshire Street, Boston, Mass.; Dunham, Carrigan & Hayden Co., San Francisco, Distributing Agents for Pacific Coast.

### WORK SHOPS

of Wood and Metal Workers, with steam power, equipped with **BARNES' FOOT POWER MACHINERY** allow lower bids on jobs, and give greater profit on the work. Machines sent on trial if desired. Catalogue Free.

W. F. & JOHN BARNES CO.  
Established 1872.  
1999 RUBY ST., ROCKFORD, ILL.

### MAXIMUM POWER-MINIMUM COST.

If you use a pump for beer, lard, acids, starch, petroleum, brewer's mash, tanner's liquor, cottonseed oil or fluids, hot or cold, thick or thin you want to get the **TABER ROTARY PUMP** which does the most work at the least expense. Simply constructed. Can be run at any desired speed. Perfectly durable. All parts are interchangeable. Needs no skilled workman. Defects guaranteed. Catalogue free.

TABER PUMP CO., 32 Wells St., Buffalo, N.Y., U. S. A.

### WELL DRILLING Machines

Over 70 sizes and styles, for drilling either

## RESTFUL SLEEP In Camp, on the Yacht and at Home. "Perfection" Air Mattresses, CUSHIONS and PILLOWS.

Style 61. Camp Mattress with Pillow attached.  
Also showing Mattress deflated.

Clean and Odorless, will not absorb moisture.  
Can be packed in small space when not in use.

See ad for Illustrated Catalogue.

PLEMENT 1113. Price 10 cents. For sale by Munn &  
Co. and all newsdealers.

## THE COUNTRY GENTLEMAN

ESTABLISHED  
1831

The ONLY Agricultural Newspaper,  
AND ADMITTEDLY THE  
Leading Agricultural Journal of the World.

Every department written by specialists, the  
highest authorities in their respective lines.

No other paper pretends to compare with it  
in qualifications of editorial staff.

Gives the agricultural NEWS with a degree  
of completeness not even attempted by others.

INDISPENSABLE TO  
ALL COUNTRY RESIDENTS  
WHO WISH TO  
KEEP UP WITH THE TIMES.

Single Subscription, \$1.50;  
Two Subscriptions, \$2.50;  
Five Subscriptions, \$5.50.

SPECIAL INDUCEMENTS TO RAIS-  
ERS OF LARGER CLUBS.

Four Months' Trial Trip 50 cents.

SPECIMEN COPIES  
will be mailed free on request. It will pay any-  
body interested in any way in country life to  
send for them. Address the publishers:

LUTHER TUCKER & SON,  
Albany, N. Y.

Subscriptions taken at this office.

DO YOU USE GRINDSTONES?  
If so we can supply you. All sizes  
mounted and unmounted, always  
kept in stock. Remember, we make a  
specialty of selecting stones for all special  
purposes. Ask for catalogue.

The CLEVELAND STONE CO.  
2d Floor, Wilshire, Cleveland, O.

JUST READY.

## DIES THEIR CONSTRUCTION AND USE For the Modern Working of Sheet Metals.

By JOSEPH V. WOODWORTH

This book will be a complete treatise on the subject  
and the most comprehensive and exhaustive one in  
existence. A book written by a practical man for  
practical men, and one that no die-maker, machinist,  
toolmaker or metal-working mechanic can afford to be  
without.

Dies, press fixtures and devices from the simplest  
to the most intricate in modern use, will in this book  
be shown, and their construction and use described in a  
clear, practical manner, so that all grades of metal-  
working mechanics will be able to understand and thor-  
oughly how to design, construct and use them, for the pro-  
duction of the endless variety of sheet-metal articles  
now in daily use.

Many of the dies, to be shown and described in this  
book, were designed and constructed by the author  
personally, others under his personal supervision,  
while others were constructed and used in the press  
rooms of some of the largest sheet-metal goods estab-  
lishments and machine shops in the United States. A  
number of the dies, press fixtures and devices, which  
will form a part of this book, have been selected from  
over 150 published articles, which were contributed by  
the author to the columns of the "American Machinist,"  
"Machinery" and the "Age of Steel," under his own  
name.

No obsolete die, press fixture or device will find a  
place in this book; every engraving between its covers  
will represent the highest that has been attained in the  
development of each type described. The descriptions  
of their construction and use will enable the practical  
man to adapt them for facilitating, duplicating and ex-  
pediting the production of sheet-metal articles at the  
minimum of cost and labor.

Every Manager, Superintendent, Designer,  
Draftsman, Foreman, Die-maker, Machin-  
ist, Toolmaker or Apprentice, should have  
this book.

Octavo. Cloth. Very Fully Illustrated.  
Price \$3.00 Postpaid.

**EVANS**  
VacuumCap  
This appliance will massage  
the scalp and increase circula-  
tion without rubbing or irrita-  
tion. It will stop hair from fall-  
ing out, encourages a beautiful  
growth and is guaranteed to give  
satisfaction. Address  
**EVANS VACUUM CAP CO.,**  
Fullerton Bldg. St. Louis, Mo.

## Your Cigars FREE for a Year

A simple, business proposition. What you ordinarily spend over  
the retail counter for cigars in one year will, if spent with us, the manu-  
facturers, furnish you with another year's smoking FREE.  
A cigar as good as you now smoke—perhaps even better—for  
ONE-HALF what you ordinarily pay at retail.  
We have turned our backs on the wholesaler, to whom for years  
we have been selling millions of our celebrated brands and now go to  
you DIRECT, offering them by the box at precisely the same prices.  
This means one-half the price you have been paying at retail.  
Your taste exactly suited, our statements positively guaranteed, or  
**YOUR MONEY BACK**  
Send for our illustrated catalogue explaining everything, or send  
\$1.00 for a trial box of 25 assorted cigars, showing various grades, or  
75 cents for a box of twelve 10 cent and two for a quarter values;  
or 50 cents for twelve 5 and 10 cent values, each separately wrapped  
and described, showing how two for a quarter and 10 cent cigars  
can be bought in boxes of 25, 50 and 100 for from 4 to 6 cents each;  
others from 2 to 3 cents each.  
**TRANSPORTATION ALWAYS PREPAID.**  
REFERENCES—Any bank, any agency or our customers in  
every portion of the United States.  
**JOHN B. ROGERS & CO., 422 Water Street, Binghamton, N. Y.**

**ATWATER KENT MFG. WORKS,**  
110 N. 6th St., Philadelphia, Pa.

## PATENTS THE WEALTH OF NATIONS PATENTS

A PATENT GIVES you an exclusive right to your invention for a term of seventeen years. You can sell, lease, mortgage it, assign portions of it, and grant licenses to manufacture under it. Our Patent system is responsible for much of our industrial progress and our success in competing in the markets of the world. The value of a successful Patent is in no degree commensurate with the almost nominal cost of obtaining it. In order to obtain a Patent it is necessary to employ a Patent Attorney to prepare the specifications and draw the claims. This is a special branch of the legal profession which can only be conducted successfully by experts. For nearly sixty years we have acted as solicitors for thousands of clients in all parts of the world. Our vast experience enables us to prepare and prosecute Patent cases and Trade Marks at a minimum of expense. Our work is of one quality and the rates are the same to rich and poor. Our unbiased opinion freely given. We are happy to consult with you in person or by letter as to the probable patentability of your invention.

Hand Book on Patents, Trade Marks, Etc., Sent Free on Application.

## ENGINEER'S POCKET-BOOK

By **CHARLES H. HASWELL**

A pocket-book of tables, rules and formulas pertaining to mechanics, mathematics, and physics, including areas, squares, cubes and roots, etc.; logarithms, hydraulics, hydrodynamics, steam and the steam-engine, naval architecture, masonry, steam-vessels, mills, etc.; limes, mortars, cements, etc.; orthography of technical words and terms, etc., etc. Sixty-fourth edition. xlvii, 982 pages.

To the mechanic and the engineer it is simply indispensable: like their tools, it is something they need to have always at hand for use.

I cannot find words to express my admiration of the skill and industry displayed in producing the same. To you belongs the honor of having presented to the world a book containing more positive information than was ever before published.—Extract from a Letter from CAPT. J. ERICSSON, the celebrated Engineer.

12mo Leather Pocket-Book Form \$4.00

**HARPER & BROTHERS,** Franklin Square, New York.
