ARCHITECTURAL DRAWING. By R. Phené Spiers, F.S.A., Architect. Cassell & Co., Ltd., New York, London, Paris and Melbourne. 1892. 8vo. Pp. 67.

This book is the outcome of a paper read by the author at a meeting of the Architectural Association in 1874. The author has endeavored to place himself in relation with the requirements of English office training of the present day, and to point how, concurrently with office work, the architectural pupil may turn to the best account opportunities for private study. The book tells what it has to tell in a lucid style. The illustrations are numerous and serviceable.
