A printed copy of the specification and drawing of any patent in the foregoing list, or any patent in print issued since 1863, will be furnished from this office for 10 cents, provided the name and number of the patent desired and the date be given. Address Munn & Co., 361 Broadway, New York.

Canadian patents may now be obtained by the inventors for any of the inventions named in the foregoing list. For terms and further particulars address Munn & Co., 361 Broadway, New York.

NEW BOOKS ETC.

JOHNS HOPKINS UNIVERSITY STUDIES IN HISTORICAL AND POLITICAL SCIENCE. J. M. Vincent, J. H. Hollander, W. W. Willoughby, Editors. State Banking in the United States Since the Passage of the National Bank Act. By Geo. E. Barnett, Ph.D. Baltimore: The Johns Hopkins Press. 1902. Pp. 117.

NOTES ON THE CONSTRUCTION OF THE VIOLIN. By W. B. Coventry, M. I. C. E. London: Dulau & Co. 1902. Pp. xi-80. 32mo. Price 75 cents.

Mr. Coventry has written a book which it is a pleasure to read. He tells us in a very entertaining way what elements must enter into the construction of violins, and something about the work of the old Italian and French violin-makers. The publishers have brought the book out in a very neat dress.

UNCLE SAM TRUSTEE. By John Kendrick Bangs. New York: Riggs Publishing Company. 1902. Pp. ix-342.

To the reader who knows Mr. Bangs only as a writer of very humorous tales, the present book will come almost with a shock of surprise. Many will hardly recognize the hand of the man who wrote the "House Boat on the Styx" and "Mr. Napoleon Bonaparte of Corsica." "Uncle Sam Trustee" is a brief sketch of the history of Cuba, comprising a consideration of relations which for a century or more have existed between the people of that island and our own country, a statement of the results of the Spanish war, in so far as it involved Cuba alone, and a general statement of the conditions prevailing at the beginning of the American campaign. Mr. Bangs' connection with Harper's Weekly naturally placed at his disposal a vast amount of material, which he has used in the writing of his book. The text is accompanied by many illustrations.

THEORIE DE LA LUNE. Par H. Andoyer. Paris: C. Naud. 1902. 16mo. Pp. 86. Price 50 cents.

Prof. Andoyer has presented in this monograph of his all that we know of the mechanics of the moon. His book is simply packed with information. In the comparatively small number of 86 pages he has managed to tell us everything that the modern astronomer knows of the motions of the heavenly body which is nearest us.

NOTES ON LEAD ORES. Their Distribution and Properties. By James Fairie, F. G. S. London: Scott, Greenwood & Co. New York: D. Van Nostrand Company. 1901. 16mo. Pp. 64. Price \$1.

The late James Fairie some years ago prepared a series of technical articles on lead ores, which proved of unusual value and interest. These articles have now been collected and published in book form. Coming as they do from a painstaking and practical geologist, they should be welcomed all the more so since the literature on the subject of lead ores is only too limited.

GEOMETROGRAPHIE OU ART DES CONSTRUCTIONS GEOMETRIQUES. C. Naud. 1902. 16mo. Pp. 87. Price 50 cents.

Geometry is but a mere detail in the science of geometry; but that detail is of such importance and interest that a discussion of its various phases should prove of interest. Furthermore, the comparative novelty of the topic renders a treatise in which it is discussed particularly valuable at this time.

The first part of this present book comprises a very short theory, which is nothing more nor less than the indication of notations with adopted conventionalities. The second part is a development of the preceding studies, and treats of various relative constructions well known and of exceeding importance in geometry.

Watch Accidents

will happen! That's why your watch works should be protected by a strong case. Gold alone is soft and bends easily. It's used for show only. The JAS. BOSS STIFFENED GOLD WATCH CASE resists jar and jolt. Keeps out the dust. Reduces the expense of repair. Adds many years to the life of your watch. Every JAS. BOSS CASE is guaranteed for 25 years by a Keystone Trade-mark stamped inside. You must look for this trade-mark.

Consult the jeweler. Write us for booklet.

THE KEYSTONE WATCH CASE COMPANY, Philadelphia.

THE THOUSAND ISLANDS.

There may be somewhere on earth, a more delightful region than that of the Thousand Islands, but if there is, it has not been discovered. It is the Venice of America, but also has good hotels that can be kept warm if there shall happen to be a cold, rainy evening. It is as fine as the Bay of Naples, with 2,000 picturesque islands scattered along the twenty-five miles of one of the most beautiful rivers in the world. You can find out a great deal regarding it in No. 10 of the "Four-Track Series," "The Thousand Islands." Copy will be mailed free on receipt of a 2-cent stamp by George H. Daniels, General Passenger Agent, New York Central & Hudson River Railroad, Grand Central Station, New York.

THE STEAM TURBINE; THE STEAM Engine of Maximum Simplicity and of Highest Thermal Efficiency. By Prof. R. H. Thurston. A valuable series of articles having cuts of some of the more efficient engines of this type—the Parsons, DeLaval, Dow, etc.; with exhaustive tables giving the result of tests and much general data on the subject. Contained in SUPPLEMENT Nos. 1306, 1307 and 1308. Price 10 cents each. For sale by Munn & Co. and all newsdealers.

Scientific American Building Monthly

VOL. 33.
JANUARY--JUNE, 1902.

278 Illustrations. 120 Pages, 6 Tint-Blocks.

The Thirty-Third Volume of this beautifully illustrated and finely printed Monthly Magazine, comprising the numbers January to June, 1902, is now ready.

... SPECIAL FEATURES ...

ILLUSTRATIONS.

The volume contains 6 tinted cover pages and 278 illustrations, including many fine examples of recent dwellings, gardens, views of groups and estates, interiors, exteriors and plans. Photographs of agricultural details, porches, doorways, mantels, etc., are especially helpful and suggestive. The illustrations of the Building Monthly are made from specially taken photographs and are not obtainable elsewhere. Most of the houses are accompanied with full sets of plans.

TALKS WITH ARCHITECTS.

This interesting series of conversations with eminent architects by Mr. Barr Ferree comprises important talks with Mr. Thomas Hastings on "Some Suggestions for New York"; Mr. William J. Fryer on "The New Tenement House Law of New York"; Mr. Charles A. Rich on "The Development of the Small Cottage"; Mr. John Galen Howard on "The Beaux-Arts Architects"; Mr. J. Monroe Hewlett on "The Architect and the Municipality"; and Mr. George L. Morse on "The Durability of Steel Construction."

EDITORIAL ARTICLES.

Suggestive discussions on timely subjects for the home-builder: "Municipal Art"; "Roads and Houses"; "Washington the Magnificent"; "The House and the Terrace"; "The Art of Home-Building"; "Kitchen Ends and Back Yards?"

DEPARTMENTS.

The Departments of the Monthly cover a wide range of topics and summarize the latest advance in current architectural thought and practice: "Monthly Comment"; "The Household"; "The Garden"; "Legal Decisions"; "New Books"; "Country Life"; "The Country House"; "Fire Protection"; "Sanitation"; "Civic Betterment"; "New Building Patents"; "Publishers' Department."

The SCIENTIFIC AMERICAN BUILDING MONTHLY is a national magazine of architecture conducted with special reference to domestic architecture. Its text abounds with practical suggestions and its illustrations cover a wide range of subjects selected with scrupulous care and printed in the most artistic manner.

Price, Express Paid, \$2.00.

MUNN & CO., Publishers, 361 Broadway, New York
