#### TWENTY-THIRD EDITION EXPERIMENTAL SCIENCE.

By GEORGE M. HOPKINS Revised and Greatly Enlarged. 2 Octavo Volumes. 1,100
Pages. 900 Illustrations. Cloth Bound, Postpaid,
\$5.00. Half Morocco, Postpaid, \$7.00. •r

Volumes Sole Separately: Cloth, \$3.00
per Volume; Half Morocco,
\$4.00 per Volume.

EXPERIMENTAL SCIENCE is so well known to many of our readers that it is hardly necessary now to

he is so well known to hardly necessary now to give a description of this work. Mr. Hopkins decided some months ago that it would be recessary to prepare a new edition of this work in order that the many wonderful discoveries of modern times might be fully described in its pages. Since the last edition was published, wonderful developments in wireless telegraphy for example, that a good deal of new dealer was received to the work in order to make it thoroughly up-to-date, and with this phieft in view. order to make it thoroughly upto-date, and with this object in view some 200 pares have been added. On account of the increased size of the work, it has been necessary to divide it into two volumes, handsomely bound in buckram.

### Work With Us 5 Years and You'll be Independent

The headline of this advertisement sounds extravagant, but it comes to you from the largest real estate tirm in the world—a firm whose inancial standing is respected and appreciated by the largest banks and financial institutions of this country—a firm whose sales of New York property throughout the United States amounted to over four and a half million dollars during the past fourteen months.

The offer which will make you independent is the selling of our New York City lots in your community. Ours is a proposition which stands absolutely alone. As an investment it simply has no equal in the count y, and every one who has ever taken hold of it with the energy required to successfully carry on any business has made for himself thousands of dollars. A representative, way down in Alabama, whose name will be furnished on application, made over \$10,000 in less than six months; another distant one made over \$5.000 in a little town of 3.500 inhabitants, and we have dozens who are now earning at the rate of \$2.000 a year without interfering with their regular business.

This offer should in terest any man of ability and character. User Alabama agent is one of the most prominent lawyers in his State, and he did not unde takethe selling of our properties until he had been to New York and satisfied himself beyond peradventure that all we claimed for our proposition was true and more than true. Several very successful agents are clergymen. We want hish-class, expable and energetic representatives in every community—we do not want canvassers. Our business is conducted on a high plane so that it appeals to the best class of investors. An opportunity such as this is rareindeed. It enables you to associate yourself with a growing business—as toun to associate yourself with a growing business—a business that is sure to develop into practically a national institution—just as large, just as strong and just as desirable as the great insurance companies.

Your name and address will bring further particulars. References will be req
