

Rambler

Delivery Wagons

are fitted with 31 inch wheel-base and four full elliptic springs, insuring safe conveyance for delicate packages; carry one and one-quarter cubic yards of merchandise, packages accessible from front and rear of wagon.

All adjustments of engine made from front of wagon; no need to remove packages to get at the mechanism. Delivery top can be easily detached from body, leaving one seat runabout; or tonneau can be attached in place of top.

Price of Rambler Delivery Wagon, with brass side lamps and horn, \$850.00 at the factory. Tonneau to attach in place of delivery top, \$100.00 additional.

Rambler Cars are made in six different models, \$750.00 to \$1,350.00. Our new catalogue tells why you should buy a Rambler.

Valuable Books Home Mechanics for Amateurs

This book has achieved an unparalleled success in one week, and a Special Edition of 4,000 copies has been ordered. It is by far the largest and best book on the subject ever offered at such a low price. It tells how to make things the right way—the "only" way—at small expense. It will prove of value to you—much more than you realize. Do things with your hands. Send for a circular giving contents—the circulars cost only a cent—the book \$1.50 postpaid. If the book could meet you face to face you would be the first to purchase. The first large edition is almost gone, order to-day.

TWENTY-THIRD EDITION EXPERIMENTAL SCIENCE.

By GEORGE H. HOPKINS
Revised and Greatly Enlarged. 2 Octavo Volumes. 1,100 Pages. 300 Illustrations. Cloth Bound, Postpaid, \$7.00. \$5.00. Half Morocco, Postpaid, \$7.00. Or Volumes Sold Separately: Cloth, \$3.00 per Volume; Half Morocco, \$4.00 per Volume.

EXPERIMENTAL SCIENCE is so well known to many of our readers that it is hardly necessary now to give a description of this work. Mr. Hopkins decided some months ago that it would be necessary to prepare a new edition of this work in order that the many wonderful discoveries of modern times might be fully described in its pages. Since the last edition was published, wonderful developments in wireless telegraphy, for example, have been made. It was necessary therefore, that a good deal of new matter should be added to the work in order to make it thoroughly up-to-date, and with this object in view some 200 pages have been added. On account of the increased size of the work, it has been necessary to divide it into two volumes handsomely bound in buckram.

A Complete Electrical Library.

By PROF. T. O'CONNOR SLOANE.
An inexpensive library of the best books on Electricity. Put up in a neat folding box, as shown in cut. For the student, the amateur, the workshop, the electrical engineer, schools and colleges. Comprising five books, as follows:
Arithmetic of Electricity 138 pages, \$1.00
Electric Toy Making 140 pages, \$1.00
How to Become a Successful Electrician 189 pages, \$1.00
Standard Electrical Dictionary, 682 pages, \$3.00
Electricity Simplified, 158 pages, \$1.00
Five volumes, 1,500 pages and over 450 illustrations. A valuable and indispensable addition to every library.
Our Great Special Offer.—We will send prepaid the above five volumes, handsomely bound in cloth with silver lettering, and inclosed in a neat folding box, as shown in the illustration, at the Special Reduced Price of \$5.00 for the complete set. The regular price of the five volumes is \$7.00.

MAGIC Stage Illusions and Scientific Diversions, Including Trick Photography.

This work appeals to old and young alike, and it is one of the most attractive holiday books of the year. The illusions are illustrated by the highest class of engravings, and the exposes of the tricks are in many cases furnished by the prestidigitators themselves. Conjuring, large stage illusions, fire-eating, sword-swallowing, ventriloquism, mental magic, ancient magic, automata, curious toys, stage effects, photographic tricks, and the projection of moving photographs are all well described and illustrated, making a handsome volume. It is tastefully printed and bound. Acknowledged by the profession to be the standard work on the subject.
By A. A. HOPKINS. 588 pages, 420 illus. Price \$2.50. Full descriptive circulars of above books will be mailed free upon application.
