LEARN BUSINESS SYSTEM

Shippers Clerks Salesmen Buyers Managers Bookkeepers Superintendents Foremen Stenographers

The development within ten years of Scientific BUSINESS SYSTEM marks a new vocation for bright young men; many are now employed by the several firms of high reputation who make it a business (not of auditing) but of systematizing factories and stores from receipt of goods or raw material to output. Others who have learned the principles of Modern Business System are filling lucrative positions in factories or stores. The demand for men so trained greatly exceeds the supply. We teach nothing taught in commercial colleges but something entirely different that will command the attention of any employer. For full particulars address

A Difference in Steel Castings

All the stuff that purports to be cast steel is not so by any means. Our raw material is all below .03 in phosphorus and sulphur, we cast in fully dried moulds and not in green sand, and our metal averages 76,000 tensile. Our castings are true to pattern and reliable.
