

New York, N. Y. The intention of these inventors is to provide a price-tag for merchandise which is simple in construction, cheap to manufacture, easily applied, and arranged to prevent injury to the merchandise, especially when using the tag on handkerchiefs, lace goods, and like frail articles.

BOTTLE-CAP.—A. L. BERNARDIN, Evansville, Ind. The improvement relates to that class of caps which are made of hard metal and comprise an inner corrugated section to screw on the bottle-neck and an outer unthreaded section which is held to and from rotary movement upon the inner threaded section; and relates to the construction of the cap with the inner and outer sections fitted together, the inner being rather a tight fit within the outer shell, so that when the inner shell is pressed into the outer the latter will be held to and from rotary movement upon the inner threaded section.

TROUSERS-PRESS.—E. GRAHAM, Orangeburg, S. C. In this apparatus legs of trousers are creased and pressed without the aid of a hot iron. It is an improvement upon a former device for which Mr. Graham obtained Letters Patent. The present invention relates particularly to means for hinging the two frames together and providing for vertical adjustment of the upper one relative to the lower for the purpose of adapting the apparatus for pressing trousers of varying thickness or pressing two or more simultaneously.

NOTE.—Copies of any of these patents will be furnished by Munn & Co. for ten cents each. Please state the name of the patentee, title of the invention, and date of this paper.

Business and Personal Wants.

READ THIS COLUMN CAREFULLY.—You will find inquiries for certain classes of articles numbered in consecutive order. If you manufacture these goods write us at once and we will send you the name and address of the party desiring the information. In every case it is necessary to give the number of the inquiry. MUNN & CO.

- Marine Iron Works. Chicago. Catalogue free.
Inquiry No. 5575.—For a machine for preparing Spanish moss to be used in stuffing furniture and mattresses, instead of hair.
AUTOS.—Duryea Power Co., Reading, Pa.
Inquiry No. 5576.—For the present address of the Farmers Mfg. Co.
"U. S." Metal Polish. Indianapolis. Samples free.
Inquiry No. 5577.—For machinery for extracting turpentine from pine stumps.
Handle & Spoke Mch. Ober Mfg. Co., 10 Bell St., Chagrin Falls, O.
Inquiry No. 5578.—For makers of small German silver spring wire.
Sawmill machinery and outfits manufactured by the Lane Mfg. Co., Box 13, Montpelier, Vt.
Inquiry No. 5579.—For manufacturers of oil-making machinery.
American inventions negotiated in Europe. Wenzel & Hamburger. Equitable Building, Berlin, Germany.
Inquiry No. 5580.—For makers of machinery patented by M. M. Lyall, for making seamless bags.
Patent rights for driving chain for sale. German invention. Fully protected in America. Address inquiries to J. J. Kirberg, 114 Broadway, Paterson, N. J.
Inquiry No. 5581.—For parties to manufacture a display card for lace trimmings, dress goods, etc.
The largest manufacturer in the world of merry-go-rounds, shooting galleries and hand organs. For prices and terms write to C. W. Parker, Abilene, Kan.
Inquiry No. 5582.—For makers of a dust protector for the eyes and nose.
We manufacture anything in metal. Patented articles, metal stamping, dies, screw mach. work, etc., Metal Novelty Works, 43 Canal Street, Chicago.
Inquiry No. 5583.—For information regarding the lockout system in telephones.
The celebrated "Hornsbly-Akroyd" Patent Safety Oil Engine is built by the De La Vergne Machine Company, Foot of East 138th Street, New York.
Inquiry No. 5584.—For parties dealing in the seeds of catalpa trees or the trees themselves.
Partners for Foreign Patents Wanted.—Incubator-brooder, a money-making combination. Entirely new principle. Half interest. Chas. H. Sperle, Bound Brook, New Jersey.
Inquiry No. 5585.—For manufacturers of steel collar springs.
Manufacturers of patent articles, dies, metal stamping, screw machine work, hardware specialties, machinery and tools. Quadriga Manufacturing Company, 18 South Canal Street, Chicago.
Inquiry No. 5586.—For manufacturers of a pocket lighter or lamp, shaped like a pencil.
Inquiry No. 5587.—For manufacturers of souvenir novelties made from photos.
Inquiry No. 5588.—Formakers of glass bottles with a cork and metal screw top.
Inquiry No. 5589.—For manufacturers of punches and dies for lamp burners.
Inquiry No. 5590.—For the manufacturers of the "Gem Egg Separator."
Inquiry No. 5591.—For the manufacturers of Cole's patent geared crank lift for drop stamp.
Inquiry No. 5592.—For a gun for testing the breech pressure of gunpowder.
Inquiry No. 5593.—For manufacturers of coin-counting and wrapping machines.
Inquiry No. 5594.—For an apparatus for heating furnaces with liquid fuel.
Inquiry No. 5595.—For a brass, nickel or aluminum case, constructed similar to a match box, opening near top of case, but must be a trifle larger than a match safe, about 3 inches long, 2 inches wide and 3/4 inch through.
Inquiry No. 5596.—For parties engaged in metal stamping and forming, cut with dies.
Inquiry No. 5597.—For machines for weaving hats of straw or palm leaves.
Inquiry No. 5598.—For a small rock crusher
Inquiry No. 5599.—For manufacturers of leather catches, such as upholstered tool bags, 20 inches long.

HINTS TO CORRESPONDENTS.

Names and Address must accompany all letters or no attention will be paid thereto. This is for our information and not for publication.
References to former articles or answers should give date of paper and page or number of question.
Inquiries not answered in reasonable time should be repeated; correspondents will bear in mind that some answers require not a little research, and, though we endeavor to reply to all either by letter or in this department, each must take his turn.
Buyers wishing to purchase any article not advertised in our columns will be furnished with addresses of houses manufacturing or carrying the same.
Special Written Information on matters of personal rather than general interest cannot be expected without remuneration.
Scientific American Supplements referred to may be had at the office. Price 10 cents each.
Books referred to promptly supplied on receipt of price.
Minerals sent for examination should be distinctly marked or labeled.

(9401) E. G. says: I am perplexed with the following problems, and so take advantage of your notes and query column. 1. In photo-trichromatic printing: (a) Kindly explain what Koenig's diagrams (corrected by Capt. Abney) of the three primary color sensations really try to show. How are the curves constructed? (b) Images that we look at are formed inverted on the retina. How is it then, that we see them correctly? A. We have not at hand any description of Koenig's "Diagram Corrected by Captain Abney, of the Three Primary Color Sensations," and so are unable to give you the information concerning it which you ask. (b) It is true, as you say, that the images formed upon the retina in the eye are inverted with reference to the objects from which they are derived, but no person has ever come to the knowledge of that fact except by instruction. He could never have found it out by himself alone, from his own sensations or experience. The explanation commonly given to this curious phenomenon is that we are conscious of our own erect attitude and call the directions up and down as they seem to us, and therefore we consider up and down with reference to other objects the same as up and down with reference to our own person. 2. In physics: Why is it that a pendulum will not describe a plane surface but a conical one in its oscillations? A. The reason why a pendulum ball hung by a cord usually changes its swing into a conical surface, is that the place of the suspension of the cord in some way acts upon the pendulum unequally. Thus, if we could drill a perfectly round hole in a plate, equally smooth on all its edges, and pass through it a cord or wire which exactly filled and fitted the hole, so that the pendulum in all parts of its swing would bear equally upon the hole, it is not at all likely that the pendulum would change from swinging back and forth in a true plane. We should answer your question then, "Why is it that a pendulum will not describe a plane surface but a conical one in its oscillations?" by saying that it will, if you will give it a chance to do so. Of course, a pendulum hung by a rigid rod is forced to describe a plane surface in its oscillations. Only a pendulum hung by a flexible cord or wire can change to a conical swing. 3. If a resistance box be introduced in an electrical circuit, how will the potential of the current before entering and after leaving the resistance box be effected? A. The introduction of the resistance box into an electric circuit does not change the potential of a current in any way. It does, however, change the resistance between the two poles of the circuit, so that the drop of potential along that portion of the circuit in which the box is placed is changed. Thus, if the resistance of the piece of apparatus were 50 ohms, and the circuit is one of 110 volts, in order that 1 ampere should flow, we must have a total resistance of 110 ohms, and as there are but 50 in the apparatus there must be 60 ohms, added from the resistance box to produce this effect. The principles upon which this acts are, first, that the drop of potential in any part of an electric circuit is proportional to the resistance of that part of the circuit, and second that the current depends upon the ratio of the voltage to the resistance, according to Ohm's law. Now to answer your question: The resistance box forms a part of the circuit. Its resistance, plus the resistance of the rest of the circuit, constitutes the total resistance over which the drop of potential is to be distributed, and according to the first principle stated, the drop of potential in each of these two portions is proportional to the resistance of each portion of the circuit. As an illustration, if a circuit has its resistance in two parts 20 ohms and 30 ohms, there will be 50 ohms in the total circuit, and two-fifths of the drop will be in the 20 ohms and three-fifths in the 30 ohms. If, now, the voltage is 100, the drop in the 20 ohms will be two-fifths of 100, or 40 volts, and the drop in the 30 ohms will be three-fifths of 100 or 60 volts. 4. When a wire on the armature of a dynamo makes an angle of 0 deg. with the lines of force of the magnets, is the induced current in the wire at its maximum or minimum? A. The induced E. M. F. of a coil of the armature of a dynamo is at its minimum when the coil is under the brushes

of the commutator. It is at a maximum at 90 deg. from this position, since there the number of lines of force are changing most rapidly. This coil makes an angle 0 deg. with the lines of force between the pole pieces. As the E. M. F. is at a maximum, so also, the current may be said to be at a maximum in a coil at 0 deg. with the lines of force.

(9402) E. L. A. says: Will you, through your inquiry column of the SCIENTIFIC AMERICAN, give me the easiest and best process for dissolving flower of sulphur? A. Sulphur dissolves easily in carbon bisulphide and readily in chloroform, benzole, and turpentine.

NEW BOOKS, ETC.

THE MANUFACTURE OF IRON AND STEEL TUBES. By Edward C. R. Marks, Associate Member of the Institution of Civil Engineers, etc. Manchester, England: The Technical Publishing Company, Ltd., 1903. 12mo.; pp. 156. Price, \$2.

The writer confines his discussion to butt and lap welded tubes of iron, open or close jointed and consolidated tubes, and processes and appliances for the production of seamless steel tubing. The many illustrations appearing throughout the work were prepared from the drawings attached to the printed patent specifications. In addition to the table of contents there is a comprehensive index which makes any desired information readily accessible. The work is an outgrowth of a series of lectures delivered by the author before the Birmingham Municipal Technical School. It should prove a useful handbook for manufacturers and others interested in the subject of iron and steel tubes.

ELEMENTE DES WASSERBAUES. Fuer studierende an hoeherer Lehranstalten und juengere Techniker. Bearbeitet von Eduard Sonne und Karl Esselborn. With 226 illustrations. Leipzig: Wilhelm Engelmann, 1904. 8vo.; pp. 337.

DER WASSERBAU. Nach den Vortraegen gehalten am Finnlaendischen Polytechnischen Institute in Helsingfors. Von M. Strukel. IV. (letzter) Teil. Leipzig: A. Twietmeyer, 1904. Sq. 8vo.; pp. 200 and 37 plates.

Both of these works cover pretty much the same field and are written quite in the same vein. Both are intended for post-graduate students and young engineers. We are unable to judge of the relative merits of the two works, for the reason that we have before us only the fourth part of Prof. Strukel's papers, discussing dikes, harbors, and the like. The work of Prof. Sonne and Prof. Esselborn seems to us in every way a most excellent text book, prepared with characteristic German thoroughness and in every way adapted for the purpose for which it was written. Prof. Strukel's discussion is considerably fuller and will for that reason probably find no slight appreciation among practising engineers.

INDEX OF INVENTIONS

For which Letters Patent of the United States were Issued for the Week Ending May 24, 1904.

AND EACH BEARING THAT DATE

[See note at end of list about copies of these patents.]

- Accordion, R. Carbonari ..... 760,730
Aerial navigation apparatus, C. F. Morrison. 761,053
Air brake hose coupling, Allan & Lenhoff. 761,024
Alarm mechanism, A. T. Cunningham. 760,526
Alcohol, making S. J. Vance ..... 760,939
Alkaline silicate solutions, evaporating, C. Reim ..... 760,563
Aluminum sulfid and alloys, manufacture of M. Onda ..... 760,554
Amusement apparatus, A. F. Mueller. 760,469
Animal trap A. E. Huguley ..... 760,738
Annealing apparatus, E. A. Uehling. 760,825
Ashes or garbage receptacle, M. A. Donohue 760,434
Automatic brake, L. F. Weeber. 760,940
Automatic gate, R. Bolinger. 760,950
Axle, car, J. M. Wilcox ..... 760,505
Bag frame handle, E. B. Bartholomew. 760,605
Bag frame handle, E. E. Witte ..... 760,717
Bag holder, A. M. Harris. 760,690
Basket making machine, E. Horton. 760,791
Bath, E. W. Lancaster. 760,540
Bathing apparatus, electrical, R. S. Lawrence ..... 760,794
Battery plate, storage, E. W. Smith. 760,712
Battery plate, storage, A. Meygret. 760,897
Bead loom, F. C. Poole ..... 760,919
Bearing, roller, Wood & Douglass. 760,598
Bed bottom, spring, Logan & Brown. 760,746
Bed, invalid, C. G. Radcliff. 760,755
Bed, spring, L. P. Norton. 760,552
Beer or water cooler, E. S. Wiesenfeld. 760,716
Beet topper, digger, and screener, sugar, I. Bentley ..... 760,414
Belt, rubber, J. W. Blodgett. 760,054
Belt sanding machine dust hood, C. S. Yarnell ..... 760,834
Belts, automatic gripper for conveyor, J. J. Ridgway ..... 760,702
Binder, loose leaf, C. R. Nelson. 760,799
Biscuit stamping and cutting machine, T. & J. Vicars, Jr. 760,827
Block, negotiable instrument, P. S. Nagle. 760,850
Block. See building block.
Blow-out chute, F. B. Corey. 760,550
Bobbin and spindle connector, F. W. Saworski ..... 760,704
Boiler, J. C. Beckley ..... 760,840
Boiler tube, J. A. Nielausse. 760,475
Bolster spring crank plate, G. B. Freeman. 760,977
Bolt and nut lock, W. H. Smith. 760,812
Bolt turning head, B. D. Jackson. 760,933
Bomb, G. Supnick ..... 760,820
Bottle corking machine, J. F. Schneider. 760,925
Bottle, non-refillable, S. N. Sparks. 760,496
Bottle, non-refillable, G. Zister. 760,836
Bottle, non-refillable, E. C. Luks. 760,887
Boxes, etc., corner stay for, Dyarman & Perrin ..... 760,974
Brake, J. D. De Pew. 760,968
Brake beam, C. F. Huntoon. 760,868

- Brake beam fulcrum post, W. D. Sharp. 760,709
Brake slack adjuster, F. L. Clark. 760,778
Brick drier, J. W. Argood. 761,025
Brick or stone mold, solid, J. P. Oosting. 760,803
Broiler, C. B. Daniel. 760,430
Brush handle, H. A. Hayden. 760,451
Brushes of loose bristles, machine for freeing, Tuttle & Fairman. 760,938
Buckle and cockeye, combined, F. W. Hawes 760,887
Building block, F. W. Bakeslee. 760,774
Building block, mid, L. O. Burnham. 760,678
Building construction, A. Haag ..... 760,688
Burial apparatus, W. J. Barrett. 760,529
Burnishing machine, P. Duplessis. 760,529
Button carding machine, A. J. Meetz. 760,893
Calipers or dividers, F. H. Cawley. 760,956
Call box, J. C. Barclay. 761,026
Camera, photographic, J. E. Thornton. 760,584
Car coupling knuckle, D. W. Alderman. 760,946
Car door, R. Mobley ..... 760,902
Car draft gear, railway, W. F. Richards. 760,757
Car fender, Sullivan & Taylor. 760,662
Car fender, J. C. Cooper. 760,781
Car fender, J. Derr. 760,969
Car friction draft rigging, railway, F. B. Townsen. 760,824
Car gate, automatic, W. N. H. 760,536
Car heating system, E. H. Gold, reissue. 12,224
Car loading mechanism, F. R. Willson, Jr. 760,597
Car, motor, A. Palmros. 760,556
Car, railway, J. H. Bruce. 760,847
Car running board, railway, M. S. Nolan. 760,916
Car stanchion, F. J. Buzbee. 760,618
Car step folding extension, C. K. Turley. 760,663
Car step, supplemental, E. Howe. 760,990
Car ventilator, R. S. Lawrence. 760,795
Car wheel, J. E. Downer. 760,857
Car wheels, manufacturing, Connolly & Weidman. 760,960
Car wheels, trucks, etc., apparatus for removing, W. A. Haller. 760,622
Card clothing to cylinders, machine for applying, C. Mills. 760,696
Carriage top, L. C. Shipley. 760,928
Carrier. See Pneumatic carrier.
Cart, tank, T. D. Ulrich. 760,588
Cash indicator and register, F. M. Boring. 760,415
Cash register attachment, J. Schinneller. 760,705
Cash register signal, W. F. Bockhoff. 760,724
Casting machine, metal, E. Crossley. 760,523
Cement brick machine, Luttrell & Cantrell. 760,888
Chain, J. M. Dodge. 761,034
Checks, lock stub for sale, R. Woodman. 760,715
Chimney canopy top, G. H. Huse. 760,992
Churn, J. W. Newton. 760,689
Churn vent, Lancaster & Andrews. 760,693
Chute and bag support for vehicles, C. W. Lanpher ..... 760,834
Cigarette mouthpiece blanks, mechanism for attaching fibrous material to, A. A. Drutschenkow ..... 760,436
Circuit breaker, C. F. Stoddard. 760,658
Circuit breaker, J. Barry. 760,679
Circuit breaker, C. Miller. 760,798
Cistern forming device, W. M. McNeill. 760,912
Clock striking mechanism, electric, E. Meyer 760,895
Closet connection, D. Keohane. 760,874
Closet joint, W. E. Hinsdale. 760,863
Clothes line reel and stretcher, A. E. Hall. 760,450
Clutch, W. S. Timmis ..... 760,822
Clutch, friction, Baumgartner & Ziegler. 760,516
Clutch mechanism, S. D. Sprong. 760,577
Coaling apparatus, boat, H. D. Stearns. 760,934
Coaster brake, J. Zimmerman. 760,720
Cock, bib, H. F. Schroeder. 760,705
Coin actuating mechanism, S. 760,722
Coin controlled apparatus, A. E. Wells. 760,502
Collapsible box, C. H. Stonebridge. 760,660
Collar fastener, horse, Sheldon & Butterfuss 760,492
Collar, horse, J. H. Miller. 760,544
Collar, horse, A. G. Couch, reissue. 12,221
Comb, A. F. Mott. 760,906
Compound fabric, F. B. Uebel. 761,051
Concrete molding apparatus, G. M. Graham 760,446
Conveyer, T. S. Miller. 760,468
Conveyer, W. J. Patterson. 760,479
Conveyer, E. Crossley ..... 760,524
Conveying apparatus clamy, G. A. Amsden. 760,711
Cooler. See Beer or water cooler.
Copy holder, M. L. McAloney. 760,910
Copying press, H. F. Seales. 760,652
Cord adjuster, H. E. E. Strunk. 760,819
Cord making machine, covered, W. Meyer. 760,896
Core molding apparatus, sand, J. E. Price. 760,806
Cork extractor, M. D. Pollock. 760,918
Corn popping apparatus, J. B. Bartholomew 760,604
Corn shredding machine self feeder, E. McAdams ..... 760,909
Corn stripper and husker, combined, E. W. Miller ..... 760,899
Cotton ball wipers, machine for destroying, F. Riewe ..... 760,486
Cotton bundle tie, G. L. Edgerton. 761,038
Cotton elevator and gin feeder, B. D. Sory. 760,494
Cotton picker, W. Bennie. 760,413
Coupling pins, etc., machine for making, J. F. Lober ..... 760,883
Cover, pot, C. H. Pickett ..... 760,753
Crackers, machine for separating and assembling, W. H. Budd, Jr. 760,417
Grate or box, folding, W. H. Beckett. 760,517
Cultivator, single row, J. E. Bieler. 761,027
Curved transformation, alternating, Hutin & Leblanc, reissue. 12,223
Curtain fixture, Ziegler & Brandan. 760,825
Cuspidor, car, Cummins & Ivie. 760,964
Cutting board, C. H. Farmer. 760,618
Cyanids, apparatus for manufacturing, J. A. Kendall ..... 760,997
Decoy duck, J. Coudon ..... 760,683
Dental manikin, E. P. Wright ..... 760,943
Derrick, A. E. Parker. 760,577
Dish washing machine, C. S. Chamberlain. 760,777
Display box, neckwear, W. R. Delaney. 760,431
Display rack for umbrellas, etc., F. H. Hoff. 760,866
Door check, sliding, W. H. Taylor. 760,583
Door fastener, W. Box ..... 760,951
Door or gate opening or closing device, J. F. Connell ..... 760,780
Door securer, W. Stamp ..... 760,933
Door stop, C. C. Davies. 760,528
Drawing press, J. J. Rigby. 760,921
Drier, L. Gathmann. 761,041, 761,042
Drill, C. W. Crossman ..... 760,525
Driving mechanism, F. D. Howe. 760,628
Drop light, E. E. Grove. 760,533, 760,534
Dumping rack, E. Walrath. 760,866
Dust pan, C. Michaud. 760,467
Egg case tray or filler, F. F. Bischoff. 760,842
Electric apparatus, gas or vapor, M. von Recklinghausen ..... 760,483
Electric circuits, controlling means for, J. K. Lux ..... 761,003
Electric currents, means for controlling, I. Deutsch ..... 760,970
Electric currents, means for safely conducting, E. A. Jarvis. 760,740
Electric generators, automatic regulators for, W. A. Turbayne. 760,713
Electric generators, automatic regulator for, M. R. Shedd ..... 761,012
Electric indicator, E. Sadler. 760,568
Electric pole changer, C. E. Scribner. 760,574
Electric switch, H. P. Ball. 760,603
Electric switch, F. Stevens. 760,815
Electrical distribution system, Peck & Farley ..... 760,480
Electrical distribution system, W. A. Turbayne ..... 760,714
Electrically controlled switch, W. H. Hillier. 760,988
Electrodes for batteries, manufacturing hard porous, Forseeck & Wedekind ..... 760,561
Elevator, J. J. Schwob. 761,011
Embroidering machine, Bourquin & Loeb. 761,028
Emery wheel, J. W. Clarke. 760,957
Engine cooling device, internal combustion, A. J. Fisher ..... 760,531
Engine mixer and governor, gas, L. H. Nash 760,750
Engine speed regulator, explosive, C. O. Lucas ..... 760,462
Engine vaporizer, explosive, White & Durvea ..... 760,673
Envelop, C. A. Meadows ..... 761,004
Evaporating or distilling apparatus, J. S. Forbes ..... 760,440
Excavator, V. P. Keller ..... 760,996
Exhibition of series of objects, device for the automatic, L. Strumpf. 760,581
Explosive engine, quadruple four cycle, F. E. Schoonmaker ..... 760,649
Extension table, D. F. Oliver. 760,553

**"Star" Lathes**  
Foot and Power Screw Cutting  
Automatic Cross Feed  
FOR FINE, ACCURATE WORK  
Send for Catalogue B.  
SENECA FALLS MFG. CO.  
695 Water Street,  
Seneca Falls, N. Y., U. S. A.

**ENGINE & FOOT LATHES**  
MACHINE SHOP OUTFITS  
TOOLS & SUPPLIES  
SEBASTIAN LATHE CO. CINCINNATI, O.

Foot and Power and Turret Lathes, Planers, Shapers, and Drill Presses.  
SHEPARD LATHE CO., 138 W. 2d St., Cincinnati, O.

**GIANT STEAM SHOVELS**  
Toledo Ohio, U.S.A.  
The Vulcan Iron Works Co.

**HIGHEST GRADE GREY IRON CASTINGS**  
For Gasoline Engines and Cylinders  
All kinds of Automobile Castings.  
FRONTIER IRON WORKS, 2 Auburn Ave., Buffalo, N. Y.

**NOISELESS Bevel Pinions**  
We can furnish our New Process Noiseless Pinions in bevels as well as spurs of any size wanted and to transmit any required horse power. Write for catalogue.  
THE NEW PROCESS RAWHIDE CO.  
Syracuse, N. Y.

**MATCH MACHINERY.**  
BIG MONEY IN MATCHES.  
We manufacture everything pertaining to the business. The Very Latest Process. We will furnish a manager or teach any purchaser the business.  
E. W. MURPHY & CO.,  
118 Asoland Block, Chicago, Ill., U. S. A.

**Niagara Hydraulic Ram**  
A perpetual answer to the question of water supply. Continuous service wherever there is a running stream. Nothing to blow down, blow up, or require attention. Requires less head of water to operate than any other ram. Never needs repairs.  
Catalogue free.  
Niagara Hydraulic Engine Co.,  
CHESTER, PENNA.

**TAKE THE NICKEL PLATE ROAD FOR THE ST. LOUIS FAIR.**  
Lowest Rates and many unusual privileges. Special \$15.00 rate on certain dates. Full information on application to local Agents, or R. E. Payne, General Agent, 291 Main St., Buffalo, N. Y., or A. W. Ecclestone, D.P.A., 385 Broadway, New York.

**For PIPE-THREADING OR CUTTING**  
There is no machine on the market that can compare for ease of operation and excellence of work with  
**FORBES PATENT DIE STOCK**  
Use is self-centering and dies are adjustable to any variation of the fittings. Parts can be duplicated at slight cost when worn out. Will thread and cut up to 1 1/2 in. pipe.  
CATALOGUE FREE.  
CURTIS & CURTIS CO.,  
6 Garden St., Bridgeport, Conn.

**THE CLIPPER CLIP**  
Its triangular shape prevents entangling and gives three times the capacity of any other Clip for attaching papers together.  
Best & Cheapest. All Stationers.  
CLIPPER MFG. CO.,  
401 West 124th St., New York, U.S.A.  
For free samples and information write to us.

To economize time is to save expense. The Burr Index furnishes the short cut to profits in any business. A sample sent on request for examination without any charge whatever. Can be returned if not satisfactory. Try it and be convinced.

**SIMPLICITY**  
combined with **HIGH POWER**  
and **DURABILITY**  
"One Lever Drive"  
For particulars write  
Monroe Engine Co., 19 Harvard Place  
BOSTON, MASS.

**Warwick Ton-  
neau Motor  
CAR.**  
DIRECT-DRIVE.  
Price \$1,250  
Many new features. Side entrance. Tip seat; also tip body.  
Send for catalog  
Warwick Cycle and Automobile Co., Springfield, Mass.

**KENT POCKET METERS**  
Automatic Volt-Ammeter  
Is designed and calibrated especially for testing batteries on gas oil-line automobiles and launches and for any other use of like capacity. Accurate and substantial. Amperes reading made simply by pressing button. The most convenient and complete battery tester on the market.  
Volt-Ammeter \$6.00. Amperemeter \$5.00.  
Atwater Kent Mfg. Works, 110 N. 6th St., Philadelphia, Pa.

**The NEW BRISTOL Counter**  
Registers an accurate account of work done on printing presses, grain talls, weighing, measuring and other automatic machines. Counts up to 1,000,000 and repeats automatically. Simple, accurate, durable. Special counters to order. Send for circular. C. J. ROOT, Bristol, Conn.

**ARMSTRONG'S No. 0 THREADING MACHINE**  
Can be attached to bench or post. Designed for threading the smaller sizes of pipe, iron or brass, also bolts. Has two speeds, one for pipe 1/4 to 1 inch; the other for pipe 1 1/2 to 2 inches, inclusive. Uses the regular Armstrong adjustable dies. Other attractive features. Send for particulars. The Armstrong Mfg. Co., 135 Centre Street, New York. Bridgeport, Conn.

**Our Specialty:**  
Knock-Down  
Boats of any description  
AMERICAN BOAT & MACHINE CO.,  
ROW, SAIL AND PLEASURE BOATS,  
Marine Station. ST. LOUIS, MO.

**Four-Cycle Motor**  
Single and double cylinders. Simple and reliable. Best materials and workmanship. Not how cheap but how good. They are moderate in price. Write us. Catalogue Free.  
Grant-Ferris Co., Troy, N.Y.

**Reversible 4-Cycle Marine Engines**  
Simple Durable Economical  
Send for Catalogue

## APPLETON'S Cyclopaedia of Applied Mechanics

A Magnificent Set in Three Vols.

Handsomely bound in half morocco, each volume containing over 900 pages, with nearly 8,000 engravings, with full explanatory details.

**Special Offer!**

Heretofore the publishers' price of this work has never been less than \$22.50 and sold only by subscription. We have secured a special edition of this valuable work, and will box and ship, prepaid, the three volumes to any address in the United States or Canada on receipt of **\$12.00**

By purchasing now from us you save half the original price and have in return a technical cyclopaedia and dictionary of the great usefulness of which has been testified to by nearly 100,000 purchasers of this valuable work—technicians and mechanics who refuse to estimate its value to them in their work by mere dollars and cents.

Add \$1 extra for expressage to England and the Continent, or \$2 extra to Australia and other countries.

Special circular of contents of these volumes sent free. Our 40-page catalogue sent FREE on request.

The best of its kind on the market. Furnished mounted on a column if desired.

Special machinery built to order. Inventions Developed. Send for Catalogue.

**L. E. RHODES**  
HARTFORD, - CONN., U. S. A.

## The OLDS GAS and ENGINES.

The safest engine in the world. When gasoline is used the supply can only be pumped up as it is used, and air cannot mix with it until it reaches the mixer. Stationary engines 2 to 100 H. P. Portable engines 2 to 12 H. P. Write for full information and illustrated catalogue.

**Olds Gasoline Engine Works, 216 River St., Lansing, Mich.**

## Kerosene Oil Engine

Nothing but Kerosene Oil to run it

Simple, Safe and Efficient. Needs little attention, is less likely to get out of order, and is cheaper to run than any other engine manufactured. Economical and Easily Operated.

**International Power Vehicle Co.**  
Stamford, Conn.

## Gas Engine IGNITER

Complete with spark coil, \$12.00. The Best Thing on the market. Latest and most improved model. Send for Circular.

**Carlisle & Finch Co., 233 E. Clifton Av., Cincinnati, O.**

## 98c USE GRINDSTONES?

If so we can supply you. All sizes mounted and unmounted, always kept in stock. Remember, we make a specialty of selecting stones for all special purposes. Ask for catalogue.

**The CLEVELAND STONE CO.**  
2d Floor, Wilshire, Cleveland, O.

# Jaeger UNDERWEAR

POROUS

## The Best Way

to keep well is to be prepared against ill. Half the enjoyment of summer time is lost to many through over-heating and excessive perspiration—too often resulting in chills, or worse. In the light, airy Woollens of the Jaeger System there can be neither over-heating or chill, as they effectually protect against both. No vacation outfit complete without them.

Booklets and Samples Free.

**Dr. Jaeger Co.'s Own Stores:**

New York: 305 Fifth Ave., 157 Broadway  
Brooklyn: 504 Fulton St.  
Boston: 230-232 Boylston St.  
Phila.: 1510 Chestnut St.  
Chicago: 82 State St.

Agents in all Principal Cities.

## WONDER Acetylene Burners

Price ARE THE BEST 40c. each. Sold by good dealers or write

**THE STATE LINE MFG. CO.**  
8th & 10th Sts., Chattanooga, Tenn., U. S. A.

## Vacation Resorts in New England

WAITING FOR HOT WEATHER

After the severe and protracted siege of winter weather, predictions are rife for a very warm summer; and the thousands of vacationists who annually migrate to the seashore, the country and the mountains are perhaps planning, at any rate thinking of their haunts for 1904. New England is the stamping ground. Here hordes of summer visitors flock every year. The farm houses are prepared for company after the middle of May; the shore resorts get ready in June, and by the last of June, or the first of July, the mountains are welcoming their guests. Maine has both coast and inland lake resorts of supreme beauty. New Hampshire has a short but scenic section of sea coast; but the famous White Mountains and Lakes Winnepesaukee and Sunapee are within her borders. Vermont contains the renowned Champlain, Memphremagog and Willoughby; and Massachusetts asks no favors with her pleasant valleys and impressive mountain ranges.

All of this vacation territory is described and pictured in the literature published by the Boston & Maine Railroad's Passenger Department, Boston. The six beautiful portfolios, Lakes, Rivers, Seashore, Mountains, Picturesque, and the Charles River to the Hudson, contain beautiful half-tone reproductions, and any of these books will be mailed upon receipt of six cents, or the entire set for thirty-six cents.

The "Vacation Booklets," thirteen in number, containing interesting and instructive reading matter concerning the various sections will be mailed upon receipt of two cents for each book, or twenty-six cents for the entire set. They comprise "Lakes and Streams," "All Along Shore," "Valley of the Connecticut & Northern Vermont," "Lake Sunapee," "Southwest New Hampshire," "Southwest New Hampshire," "Monadnock Region," "Hoosac Country and Deerfield Valley," "Morrisnock Valley," "Central Massachusetts," "Lake Memphremagog," "Among the Mountains," and "Fishing and Hunting," with an additional booklet giving the fish and game laws of Northern New England and Canada. The "Bird's Eye View of the White Mountains," a handsome colored map, showing the numerous ravines and peaks as viewed from the summit of Mount Washington, will be mailed upon receipt of six cents in stamps.

## Engineering

TAUGHT BY CORRESPONDENCE

Our system of training has been the subject of many articles in your papers, and is now being better understood and appreciated. Your chance to rise is just as good as others. Write for our free illustrated book, "Can I Become An Electrical Engineer?" We teach by mail, Electrical Engineering, Mechanical Engineering, Steam Engineering, Mechanical Drawing, Electric Lighting, Electric Railways, ELECTRICAL ENGINEER INSTITUTE, Dept. A, 240 West 2nd St., New York.

## The ROSE POLYTECHNIC INSTITUTE

Devoted to all branches of Engineering Science, Mechanical, Electrical and Civil, Architecture and Chemistry. Thorough instruction, practical work. Courses under direction of specialists. 2 1/2 years. Send for catalogue. C. L. MEYER, Pres., Box M, Terre Haute, Ind.

## BLISS ELECTRICAL SCHOOL

214 G Street, N. W., Washington, D. C.

Offers a theoretical and practical course in ELECTRICITY complete in one year. Students actually construct Dynamos, Motors, etc. Twelfth year opens September 28. Send for Catalogue.

READY May 15th

## Spangenberg's Steam and Electrical Engineering

By E. SPANGENBERG, M. E. former Superintendent of the St. Louis School of Engineering.

Containing 1,035 Questions and Answers, with 618 Illustrations.

Price, \$3.50.

The best book on the subject ever published.

**GEO. A. ZEILEN, Publisher, Estab. 1870.**  
68 S. Fourth St. St. Louis, Mo.

## ELECTRO MOTOR. SIMPLE, HOW TO MAKE.

By G. M. Hopkins. Description of a small electric motor devised and constructed with a view to assisting amateurs to make a motor which might be driven with advantage by a current derived from a battery, and which would have sufficient power to operate a foot lathe or any machine requiring not over one man power. With 11 figures. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 641. Price 10 cents. To be had at this office and from all newsdealers.

## MILLS FOR ALL MATERIALS.

OUR BUSINESS IS TO MAKE MACHINERY FOR GRINDING GRAIN, CRUSHING ROCKS AND DRIVING ALL HARD SUBSTANCES. WE HANDLE ALL KINDS OF MATERIALS FROM COTTON-SEED TO ROOTS AND HERBS. BY AN UNEXCELLED PROCESS, IF YOU WANT ANY KIND OF A MILL OR GRINDING MACHINE, COME TO US AND YOU WILL GET THE BEST AND STILL SAVE MONEY.

DEAL WITH US ONCE AND YOU WON'T CHANGE. ESTIMATES FREELY FURNISHED.
