575,000 LINDSAY LIGHTS

Sold Since January 1, 1904

LINDSAY LIGHTS are intended for use on manufacturing, factory and gasolene engine gas. They burn about four feet of gas per hour and deliver up to 300 candle power, equaling the candle power of three ordinary incandescent gas burners on one-third the consumption.

Fastest selling article now on the market. One Lindsay Light sells another.

Reliable representation wanted in all parts of the world where gas is used. Very special inducements for foreign representation.

Has a complete illustrated book and full particulars for the asking.

The Man Who Knows

never lets anything come between him and the game but a Marlin. He finds Marlin accuracy a pretty good thing to depend on.

Marlin repeaters are made to get the game. They take heavy loads and stand hard service. They never fail.

The Marlins with the "Special Smokeless Steel" barrels—using powerful, smokeless loads—are the rifles for big game. From the light .30-30 to the heavy .45-70—every calibre has proved its wonderful accuracy and value a thousand times.

Hundreds of vivid tales of Marlin prowess are told by "The Men Who Know" in our Experience Book. It's worth reading. Sent with our catalogue for 3 stamps postage.
