

Business and Personal Wants.

READ THIS COLUMN CAREFULLY.—You will find inquiries for certain classes of articles numbered in consecutive order. If you manufacture these goods write us at once and we will send you the name and address of the party desiring the information. In every case it is necessary to give the number of the inquiry. MUNN & CO.

Marine Iron Works. Chicago. Catalogue free.

Inquiry No. 6105.—For an air cleaning apparatus for removing dirt and dust from automobile floors, cushions, tonnages, etc.

AUTOS.—Duryea Power Co., Reading, Pa.

Inquiry No. 6106.—For makers of electrical floor sanders or floor cleaners.

For hoisting engines. J. S. Mundy, Newark, N. J.

Inquiry No. 6107.—For manufacturers of modern steam heated enameling ovens.

"U. S." Metal Polish. Indianapolis. Samples free.

Inquiry No. 6108.—For a machine for making locust pins for electric or telephone work.

Perforated Metals, Harrington & King Perforating Co., Chicago.

Inquiry No. 6109.—For parties to put up a still for extracting ammonia from gas liquor and other products.

Handle & Spoke Mch. Ober Mfg. Co., 10 Bell St., Chagrin Falls, O.

Inquiry No. 6110.—For parties to manufacture a small lace rolling machine.

If it is a paper tube we can supply it. Textile Tube Company, Fall River, Mass.

Inquiry No. 6111.—For manufacturers of wire-working machinery, also parties to make wire covered with chenille.

Sawmill machinery and outfits manufactured by the Lane Mfg. Co., Box 13, Montpelier, Vt.

Inquiry No. 6112.—For manufacturers of a typewriter selling for \$50 or \$75.

American inventions negotiated in Europe. Wenzel & Hamburger, Equitable Building, Berlin, Germany.

Inquiry No. 6113.—For information concerning a school of instruction in engraving.

DRY BATTERIES.—How to make and use them. Practical, with original drawings. Mailed for 25 cents. Spon & Chamberlain, 1238 Liberty Street, New York.

Inquiry No. 6114.—Wanted, the agency of any good-selling specialty, samples and full particulars.

Patented inventions of brass, bronze, composition or aluminum construction placed on market. Write to American Brass Foundry Co., Hyde Park, Mass.

Inquiry No. 6115.—For manufacturers of sulphuric acid.

The celebrated "Hornsey-Akroyd" Patent Safety Oil Engine is built by the De La Vergne Machine Company, Foot of East 138th Street, New York.

Inquiry No. 6116.—For makers of wooden dowels and balls, also gray iron toy castings.

Any metal, sheet, band, rod, bar, wire; cut, bent, crimped punched, stamped, shaped, embossed, lettered. Dies made. Metal Stamping Co., Niagara Falls, N. Y.

Inquiry No. 6117.—For a ring buoy life preserver which, when thrown into the water, emits light from several candles.

We manufacture gasoline motor and high-grade machinery, castings best quality gray iron. Select patterns, and let us quote prices. Frontier Iron Works, Buffalo, N. Y.

Inquiry No. 6118.—For makers of water tube steam boilers.

Damper regulator patent for sale, cash or royalty. Just out. Small but powerful, cheap, neat. Also suited for governor for pumps and compressors. Regulator, 529 18th Street, Denver, Colo.

Inquiry No. 6119.—For a small, cheap, portable saw mill, for use with traction engine.

Manufacturers of patent articles, dies, metal stamping, screw machine work, hardware specialties, machinery and tools. Quadriga Manufacturing Company, 18 South Canal Street, Chicago.

Inquiry No. 6120.—For manufacturers of luminous paint.

PATENTS FOR SALE.—Cantwell & Co., patent agents, Calcutta, India, has now for sale several valuable patents, principally for railway improvements. Full particulars on application.

Inquiry No. 6121.—For automatic table fans worked by clock principle.

FOR SALE.—Canadian patent No. 83,867, dated Nov. 10, 1903. Covering vital points in telephone development. Important subsequent improvements free to purchaser. Address Dennis O'Brien, Limestone, New York.

Inquiry No. 6122.—For makers of pocket novelties, such as match safes, etc.

Adding, multiplying and dividing machine, all in one. Felt & Tarrant Mfg. Co., Chicago.

Inquiry No. 6123.—For makers of drop forgings, such as dental forceps, etc.

PATENT FOR SALE.—Improved fire escape, simple in construction and operation, and especially well adapted to its purpose. A modern, practical fire escape. Plans can be seen. Answer by letter to E. E. Johnson, 220 Madison Avenue, New York City.

Inquiry No. 6124.—For parties to manufacture a "basin holder."

Send for new and complete catalogue of Scientific and other Books for sale by Munn & Co. 361 Broadway, New York. Free on application.

Inquiry No. 6125.—For a lamp that burns kerosene oil and uses a mantle, similar to the Welsbach mantle.

INDEX OF INVENTIONS

For which Letters Patent of the

United States were issued

for the Week Ending

October 18, 1904

AND EACH BEARING THAT DATE
[See note at end of list about copies of these patents.]

Accounting appliance, credit, Ellett & Vick. 772,407
Aerated or carbonated liquids, means for manufacturing, H. G. Watson 772,484
Air, apparatus for separating dust from, W. E. Arlington 772,685
Air brake, automatic, W. E. Delancy 772,702
Air brake coupling, automatic, F. A. Shively 772,539

\$1,200 a Year for Life

SECURED BY SMALL MONTHLY PAYMENTS

The Mutual Rubber Production Company offers to the readers of this magazine an opportunity to become associated in an enterprise of immense profit, which will yield you or your heirs a sure and certain income, and on terms that are within the reach of everybody. The shares in this investment are selling above par right now, and they are selling fast. In fact, there are only a few hundred left in the present series. Fifteen hundred satisfied shareholders, scattered all over this country, testify to the splendid conservatism of this enterprise. It is not unlikely that among these fortunate ones may be some of your friends. If you act at once you will have the opportunity of joining this new and immensely profitable investment, at the present price, before the series is exhausted. The enterprise is so popular with these readers that we are reserving a few shares in anticipation of their orders—but this block is not so large as we would like to make it. Indications are that it will be largely over-subscribed. If you have been procrastinating—if you have been putting it off "until to-morrow," or "until next week," it behoves you, now, to

SECURE YOUR SHARES AT ONCE

The Mutual Rubber Production Company is divided into only 6,000 shares, each one representing an undivided interest equivalent to an acre in our great commercial rubber orchard. These 6,000 acres are in the State of Chiapas, Mexico—the finest rubber land in all the world. In this orchard we are changing the production of crude rubber from the uncertain method heretofore employed—that of reckless and destructive tapping by improvident natives—to the most solid and permanent basis known to modern scientific forestry, and under Anglo-Saxon supervision. No industry ever underwent so radical a development as we are now engaged in, without making immensely wealthy all those interested in the change. The enormous fortunes made in the past, by gathering crude rubber from virgin trees scattered here and there in the tropical jungle, are as nothing compared to the sure and permanent incomes to be derived from this new industry.

Five Acres, or Shares, in our Rubber Orchard, planted to 1,000 Rubber trees, will at maturity yield you a sure and certain income of \$100 a month for more years than you can possibly live. Your dividends average 25 per cent. during the period of small monthly payments.

No large cash down payment is required to secure these shares, as they are paid for in small monthly installments, as the work of development progresses. For \$20, as the first monthly payment, you can secure five shares. Then you pay \$20 a month for 11 more months, then \$15 for 12 months, then \$10 a month for a limited period, until you have paid \$1,410, the full price for five shares (\$282 each in the present series). But, meantime, you will have received dividends amounting to \$1,050, or \$210 per share, so that the actual net cost of the five shares in this remarkably safe and profitable investment will be only \$360 of your own money, or \$72 per share. Then, from the maturity period onward, your five shares, or acres, will yield you or your heirs \$1,200 a year for more years than you can possibly live.

Early dividends are provided by "tapping to death" 400 of the 600 trees we originally plant to each acre, and the 200 trees remaining for permanent yield will produce every year at least two pounds of rubber each, at a net profit of 60 cents a pound. These statistics are vouched for by the Government reports of the United States and Great Britain—the most reliable sources of information in the world.

This means, on your five-share investment, a permanent and certain income of \$1,200 a year, or \$2,400 a year on ten shares, or better still, twenty-five shares will yield you \$6,000 a year. Of course, a single share can be secured on the same advantageous basis. Here is the opportunity for people of moderate means to secure an investment in a new and immensely profitable industry, that is already attracting the attention of great capitalists.

Already over 4,000 shares in this Company have been sold, and remember, there are but 6,000 shares altogether. The work at the plantation, owing to the even and unchanging climate of the semi-tropics, is progressing rapidly. Shares will positively not be sold at the present price after those in the present series are closed out. Then a sharp rise in price will be made without further notice.

Every possible safeguard surrounds this investment. The State Street Trust Co. of Boston holds the title to our property in Mexico as trustee. We agree to deposit with them the money paid in for shares, and we file with them sworn statements as to the development of the property. This company also acts as registrar of our stock. You are fully protected from loss in case of death or in case of lapse of payment, and we grant you a suspension of payments for 90 days any time you may wish. Furthermore, we agree to loan you money on your shares.

We can prove to you that the five shares in this investment, paid for in small monthly installments, will bring you **an average return of twenty-five per cent. on your money during the period of payment**, and will then bring you **\$100 a month for more than a lifetime**. This opens the door for yourself, not to wealth, but to what is far better, a competency for future years, when perhaps you will not be able to earn it. Payments of \$4.00 per month the first year and smaller payments thereafter will secure you one share.

If you will write us at once, full and concise information proving every statement will be promptly furnished at our expense. This information will quickly put you in close touch with every detail of our plan. Your every request will receive immediate attention. Write us now.

Mutual Rubber Production Company

88 Milk Street, Boston, Mass.

Air humidifying and cleansing apparatus, J. W. Fries	772,655
Air moistening apparatus, Q. N. Evans.....	772,347

**OUR CIGAR BOOK****Send for it to-day****E**VERY man who has seen it says it is the most valuable publication on Smokes and Smoking ever produced.

It is magazine size, handsomely printed in colors, and costs us 50 cents to produce and mail each copy—but comes to you FREE for the asking.

This book in fact, might justly be called the Smoker's Encyclopedia and will often save you the annoyance of buying cigars you do not like, as a cigar affords a satisfactory smoke only when it suits your individual taste.

Our new Cigar Book is full of information about all kinds of cigars—Imported, Clear Havana, Domestic; about tobacco growing, treating and manufacturing; about cigarettes, pipes and smoking tobacco.

It tells you how and why we can assure you cigars better in quality by 30 to 50 per cent, than the same money can possibly buy in any other way, and enables you to prove this at our expense, without the risk of a single penny.

Our Cigar Book will bring to you all the advantages of our great chain of over 300 retail stores—you have the same stock to select from, and the cigars are delivered, prepaid, at your door at exactly the same prices as sold over our counters.

Send your name and address and the Cigar Book will reach you by return mail, postpaid.

United Cigar Stores Co.**MAIL-ORDER SYSTEM****284 Flatiron Building, New York****ADVERTISE Your inventions and manufacturers.****CONSULT US** in regard to Booklets, Catalogues, Bulletins, Circulars, &c.**C. L. WRIGHT & CO.****Illustrators : Engravers : Printers****Writers : Compilers****132-4-6 WEST 14TH ST., NEW YORK**

We own and direct all departments.

Send for samples, enclosing 8c. for postage, and we will send them, free of charge, with a hand-some engraver's proof of the most beautiful view of the St. Louis Exposition, size 14 x 20, paper 20 x 24, ready to frame.

**IDEAL STEAM STAMP**

Will pulverize all kinds of milling ore. It is economical in the use of power; will reduce to forty mesh 10 to 15 tons per day; operated by steam or compressed air. Can be installed at small cost. Is equally efficient for large or small plant.

Prospects can quickly be made paying properties by the use of The Ideal Stamp and suitable concentrating table.

THE IDEAL COMPANY
89 State St., Boston, Mass.

The Hendrie & Bolthoff
Mfg. and Supply Co.
Denver, Col., General Agents

STEAM TURBINES.—THEIR CONSTRUCTION, OPERATION, and COMMERCIAL APPLICATION. SCIENTIFIC AMERICAN SUPPLEMENTS 1306, 1307, 1308, 1442, 1443, 1447, 1370, 1372. The articles have all been prepared by experts in steam engineering. Price 10 cents each, by mail. Munn & Co., 361 Broadway, New York City, and all newsdealers.

Don't Waste Fuel!

Let us prove to you by loaning for a free trial a

Dean Boiler Tube Cleaner

that the compounds you use do not remove scale from your boilers. We have taken hundreds of pounds of scale from boilers thought clean and have reduced coal consumption one-half.

THE WM. B. PIERCE CO.
319 Washington Street, Buffalo, N. Y.

DYNAMO CASTINGS
Parts of the Franklin Dynamo with output of 5 amperes and 10 volts, furnished for amateurs to put together. Will drive small lathe or light six candle lamps. Rough castings, \$3.50; partly machined, \$6.00; fully machined, ready to assemble, \$8.50. Full directions. Send for booklet No. 9.

PARSELL & WEED, 129-131 W. 31st St., New York

FORD'S WEATHER STRIP**YOU SEE AT A GLANCE**

that Ford's Weather Strip is different from all others. Its peculiar construction renders it absolutely air-tight. It is made entirely of Southern pine, treated with oil, and will neither wear out nor rust out. It is inexpensive and easily applied to all doors and windows. Will not warp, shrink or bind. Send for FREE sample and prices.

**LINDSAY LIGHTS**

equal in candle-power three ordinary incandescent gas lights on one-third the consumption. They MUST have merit. 600,000 sold since January 1st, 1904, all over the world where gas is used surely indicates MERIT. Their sale presents an opportunity for profit which should be investigated immediately. A postal will bring full particulars together with a copy of our book "SOME ILLUSTRATED SUGGESTIONS." Energetic people (the kind we want) will write NOW.
