SENSITIVE LABORATORY BALANCE By N. Monroe Hopkins. This "built-up" laboratory | balance will weigh up to one pound and will turn with quarter of a postage stamp. The balance can be made by any amateur skilled in the use of tools, and it will work as well as a \$125 balance. The article is accompanied by detailed working drawings showing various stages of the work. This article is contained in SCIEN-TIFIC AMERICAN SUPPLEMENT, No. 1184. Price 10 cents For sale by Munn & Co., 361 Broadway, New

York City, or any bookseller or newsdealer.

Belfast Mesh

Linen Underwear—that Wears

The sales of woolen underwear are growing smaller every year, because

If You Wear Wool You Catch Cold

It seems unreasonable to some that a mesh of linen is as warm and protecting as a closely woven wool undergarment, but it is so-thousands have proven it so, and have found constant health, unknown before wearing "Belfast Mesh." Even a loosely woven wool garment (such as a muffler) is warmer than the same weight of wool in tight weave, because a quiet layer of air is almost a non-conductor of the heat.

SEND FOR OUR FREE BOOK

It is handsome and convincing. It goes into the subject thoroughly and explodes the wool for warmth? theory in short order. It is designed for thinking people who desire comfort with health. The only forceful objection to the other mesh underwears bas been that they "ween out too quickly." We guarantee that Belfast Mesh will wear to the satisfaction of the purchaser or will cheerfully retund your money. For sale by the best dealers everywhere. If your dealer cannot supply you, we Do not accept substitutes offered. Write us, we will tell you how to get
