**The Science of the LINDSAY LIGHT**

Here it is, so plainly illustrated that anyone can readily see why the **Lindsay Light** produces more light and better light from a less amount of gas than would be burned in the same time by an ordinary incandescent gas burner.

Note the taper tube burner; the heated air chamber; the air draft which heats the gas before it strikes the flame, causing perfect combustion.

The Lindsay Light gives a forced pressure that sends the flame clear out to the end of the mantle, making it all incandescent—all light giving. It regulates the pressure of any gas system, allowing no waste from over pressure. The Lindsay Light mantle gives out a strong, white, brilliant light of 300 candle power.

**In two months and six days one Lindsay Light will save its cost in gas.**

Best dealers everywhere sell them. If not obtainable at dealers, sent prepaid \$1.25. The installation of Lindsay Lights will not only save money, but eye-sight, as the light is soothing and restful. Write for FREE Illustrated Book and Full Particulars. **LINDSAY LIGHT COMPANY CHICAGO**
