ELECTRIC LAUNCH MOTOR. — THE design in this paper is for a motor of unusual simplicity of construction, which can easily be built by an amateur at small cost. It is intended for a boat of about 24 feet over all and 4 feet 6 inches beam, drawing 18 inches, and is capable of propelling such craft at a speed of 7 miles per hour. Illustrated with 21 cuts. See SCIENTIFIC AMERICAN SUPPLEMENT, No. 1202. Price 10 cents by mail, from this office, and from all newsdealers.

knowledge of the law and of the practice usually followed in incorporating companies. The book is by no means a comprehensive work on the subject of corporation organization, but it does contain chapters on the principal subjects which are of interest to the incorporators of companies, and as the chapters are concise and logical, the book, as a manual, should, in its own field of usefulness, although perhaps a limited one, be of service to the busy lawyer. The author has in many places made suggestions for the protection of different interests; a chapter being devoted to the protection of minority interests, and another to the protection of inventors at the time of the assignment of their patents to the corporation.

BRENNAN MOTOR CO., Syracuse, N. Y.

Gentlemen—The writer has been operating one of your motors, a double cylinder 8 horse power, for the past two seasons and wishes to state that the motor has given excellent satisfaction and the repairs on same has been nothing whatever. Would state that with the exception of twice I do not know of the motor stopping of its own accord during the season. I am satisfied that I have had excellent good luck and wish to recommend the Brennan Motor to anyone wishing a motor for an automobile. Yours truly,

When Is Paint Dead?

"Linseed Oil is the life of paint." When the oil departs, the paint is dead. Dead paint—a lustreless, dry, chalky coating—has no protective qualities, and disintegrates rapidly because the pigments have no cohesive attraction after the departure of the oil.

Patton's Sun-Proof paints are long lived because they are made of the right materials—Zinc, Lead and Silica, Linseed Oil and Turpentine driers—in the right proportions, ground again and again by powerful machinery. Paints lacking any of these materials, or hand-mixed paints (a mere padding together of the pigments and liquids), are short-lived—they chalk, crack, peel and blister, and, besides, lack beauty and covering capacity.

But the oil must be pure, and nothing should be added to the paint that will injure the oil and shorten its life. White Lead, used alone, "burns up" the oil, and the addition of an alkali, to unite the oil and water used in some paints, is equally disastrous. Paint containing water is, therefore, not good paint.

Our booklet, "Paint Queries," contains interesting information about paints, their colors and when and how to use them. Write for it.

Catch Fish by Electricity

\$1.00 Complete OUTFIT

The Electricure
Any kind of fish may be caught by this new method at will. No State in the Union has passed any law against this practice; it's sure every time and great sport, without danger to operator (it fools the big fish). The original sample cost us \$5,000. Only a limited number of these outfits can be made this year, so order early. Outfit complete only \$1.00 with full instructions. Can be carried in the fisherman's ordinary tackle box. By express prepaid, 20 cents extra. Dealers and agents make big money selling these. Send for catalogue of fishing tackle, etc. The VIM CO., Dept. 19, 68 E. Lake St., Chicago, Ill.

Build Your Own Boat

By the Brooks System.

You can build your own Launch—Sailboat—Rowboat or Canoe—in your leisure time—evenings—and the work will be a source of profit and pleasure. It's easy when we show you how.

\$12 covers the cost of a \$60 boat. Cheaper boats cost less in proportion. Write us—we'll tell you how.

The Brooks System consists of exact size Printed Patterns of every piece, with Detailed Instructions, a complete set of Working Illustrations, showing each step of the work, an itemized bill of Material required and how to secure it.

Our systems so plain you cannot fail. A full sized pattern of each piece with instructions that not only TELL, but SHOW you, by illustrations, every detail.

Over six thousand amateurs successfully built boats by the Brooks System last year. Fifty per cent. of them have built their second boat. Many have established themselves in the boat manufacturing business.

Patterns of all kinds and sizes from 19 to 66 ft. Price from \$2 up. Catalogue and particulars FREE. For 250, 100 page catalogue containing valuable information for the amateur yachtsman, showing several working illustrations of each boat, and a full set for one boat. Full line of knock-down and completed boats. When so ordered—Patterns are expressed, charges prepaid, C. O. D. to add examination.

Shaw Stocking

Accept No Substitute

The word of an impostor is as unreliable as a misrepresented article. No hosiery unless stamped *Shaw* on the toe has the right to be sold as such. **ASSERT YOUR RIGHTS!** Refuse substitutes, no matter under what conditions offered, and remember that we, as manufacturers of *Shaw* Half-hose for men, and misses' cotton ribbed stockings, stand back of every pair sold and will make good if, through any fault of ours, goods bearing our trade-mark are found imperfect.

ORDER FROM YOUR DEALER

A New Creation Style 40SW.

The upper portion is made from **Fast Black Lisle Yarn**, the sole of **Pure Irish Linen**, combining style with wear, 50c. per pair, or \$3.00 for 6 pairs in attractive box.

ASK YOUR DEALER

In case he will not supply you, do not accept a substitute, but order from us direct. The goods will be promptly shipped to you express or postpaid to any point in United States upon receipt of above price.

Our Art Catalogue is free, beautifully illustrated, and will be of great assistance to you in selecting the latest and most popular styles in men's hosiery. Send for it, and we will keep you posted on the latest effects, as we are constantly adding new styles to our already large assortment.

Makes everyone your neighbor—the

OLDSMOBILE

has endeared itself to the feminine heart just as it has established itself in the business world, by the universality of its merit. Its ease of control and freedom from getting out of order make every woman its friend. John Lothrop Motley said, "Give us the luxuries of life, and we will dispense with its necessities"—the *Oldsmobile* is both.

Our line of light cars is the most complete ever built. Satisfactory to your ideas of style, your requirements for comfort, and to your pocketbook.

The New Trade Mark Act of April 1, 1905

The new law which goes into effect on April 1 renders it desirable for owners of trade marks to re-register their marks in order to secure the benefit of its liberal provisions.

The old law under which trade marks have been registered does not give protection for infringement in interstate commerce. The new law does.

Many trade marks that could not be registered under the old law can now be registered and thereby fully protected.

Infringers can now be more easily prosecuted under the new law than under the old, and treble the amount of damages for infringement may be obtained.

Register your unprotected marks and re-register those recorded under the old law. The fees are low. The protection is full.

Write to us for our booklet giving full information about the new law.
