

SEND \$1.25 FOR FIFTY Delicious Short Smokes

IF THEY FAIL TO PLEASE YOU, RETURN THEM AT OUR EXPENSE
AND WE WILL REFUND ALL YOUR MONEY. NO IF'S OR BUTS.

This little cigar has proved so tremendously popular, we have decided to extend our offer to DELIVER PREPAID A BOX OF 50 until May 31st.

EVERY smoker should have a choice little cigar to fill in the odd moments when he wants to smoke but has not the time or inclination for the larger and heavier cigars. In the Isle of Pines (Minuet Size) we have a fine little smoke, strictly high class and distinctive in character, really superior to anything of the kind on the market. It is made from the cuttings of the leaf used in making High Grade Havana Cigars and it is made well; it differs from 10c. and 15c. cigars only in size; the tobacco is rich and yields a smooth, mellow, delightful little smoke that will fill a vacant place and find a welcome in the home or office of most smokers.

Isle of Pines (Minuet). Exact size and shape. \$1.25 box of 50; \$2.50 per 100.

ORDER TO-DAY. We send these cigars, prepaid, upon receipt of \$1.25. If they don't suit your taste exactly, we want you to send back the broken box. Drop us a postal and we will send you an addressed label and stamps to pay return postage on package.

We want smokers everywhere to know that our Mail-Order Service delivers cigars of all kinds AT LEAST ONE-THIRD better in quality than the same money will buy any other way.

SEND FOR OUR CIGAR BOOK

We send it FREE, postpaid. You need it if you smoke. It is magazine size, fully illustrated, and printed in colors. It costs us 50c. a copy to produce and mail. It tells you about all kinds of cigars, about cigar making, tobacco growing, treating and manufacturing—it brings one of our Cigar Stores to your door and makes it easy to find the cigar you like the best. It tells you how and why we can guarantee at least one-third better cigars for the money. It will often save you the annoyance of buying cigars you do not like. SEND FOR IT TO-DAY.

United Cigar Stores Co.

LARGEST CIGAR RETAILERS IN THE WORLD, OPERATING
OVER 300 STORES. CAPITAL, \$2,000,000

Mail-Order Service, 322 Flatiron Building, New York

system is correct, but for a very different reason. The great difficulty with steam-heating systems is that air gets into the pipes and radiators, and is difficult to dislodge by the circulation of steam under pressure. By means of an air pump, producing a slight vacuum in the entire system, however, there is no difficulty in keeping the system free from air, and having every part of the heating surface effective.

INDEX OF INVENTIONS

For which Letters Patent of the
United States were Issued

for the Week Ending

April 25, 1905

AND EACH BEARING THAT DATE

[See note at end of list about copies of these patents.]

Accounting appliance, credit, P. A. Mc-Caskey	788,164
Adjustable wrench, M. C. Wilson	788,300
Air brake, D. F. Snyder	788,149
Air coupling, C. A. Sells	788,172
Animal trap, C. W. Howe	788,406
Anvil for making tanks, cisterns, boxes, etc., Leech & Lane	787,927
Apron, E. C. Moore	788,489
Armature, Johnson & Cooper	788,473
Article holder and forming same, multiple, H. H. Cummings	788,304
Automobile drive gear, H. Ford	787,908
Automobile frame, E. Huber	788,407
Automobile front, movable, C. E. Chamberlin	788,188
Automobile spare tire receptacle, G. E. Mitchell	788,215
Axle boxes, device for removing oil cellars from locomotive, P. Swanson	788,287
Baby holder, J. W. Winn	788,150
Bait moving device, Holz & Haerry	788,047
Baling press, J. M. Wilson	788,009
Ballast spreader, A. Torrey	787,964
Balls, manufacturing golf, R. Hodgkins	788,468
Band brake, L. S. Chadwick	787,892
Bathing apparatus splash guard, E. J. Bissell	788,237
Bearing, adjustable, E. G. Reed	788,184
Bearing, anti-friction, C. H. Christianson	788,020
Bearing, anti-friction, J. Bevington	788,347
Bed bottom, spring, F. S. Sprague	788,224
Bedstead, extension, R. H. Bradley	788,392
Bedsteads or the like, adjustable support for sofa, Starr & Luppino	788,075
Belt, machinery driving, J. A. & M. A. Hendry	787,919
Bill holder, H. Y. Otto	788,060
Billiard cue tip, E. L. Robinson	788,069
Binder attachment, A. Williams	788,299
Binder, flexible elastic, C. T. Whitsett	788,298
Binder, temporary, J. Miller	788,488
Block, See Building block	
Boiler, W. T. Fox	787,909
Boiler blowing-off apparatus, W. L. Miller	788,323
Boiler superheater, Hue, W. Schmidt	788,170
Boiler superheater, tube, W. Schmidt	788,169
Boilers to service condition, plant for cleaning and restoring, A. R. Raymer	788,376
Book binding or cover, G. D. Emerson	788,033
Bottle, non-refillable, F. A. Muller	788,115
Bottle or other vessel with ground stopper, J. Andersson	788,128
Bottle stopper retaining device, J. J. O'Neill	788,369
Bottles, etc., fastening means for, M. A. Lazareff	788,158
Box blank mitering and cornering machine, E. H. Taylor	788,288
Bracelet, H. B. Richardson	788,221
Brake beam fulcrum block, C. E. Bauer	787,888
Brick compound, paving, T. S. Pierce	787,942
Bridge track end adjustment, draw, J. Har- sen	788,400
Broiler, C. C. Messmer	788,415
Broom, F. R. Lay	788,157
Brush reciprocating device, C. W. Johnson	788,049
Buckle, bale tie, J. C. Jenkins	788,471
Buckle, separable, W. L. Dudley	788,194
Building block, J. Schall	788,283
Building block, interlocking, J. Schall	788,430
Bunsen burner for lighting and heating, J. Moeller	788,216
Burglar trap, G. W. Wright	788,181
Buttonhole, H. Walden	788,078
Cable head and pole house, combined, F. B. Cook	788,130
Cake icing machine, Scott & Curtis	788,222
Calendar, E. J. Brandt	788,241
Camera, G. H. Deor	788,307
Can capping tool, S. B. Townsend	788,121
Candy or biscuit cutting machine, Zimmer- man & Fowler	787,970
Car coupling, J. Snyder	787,954
Car coupling, W. MacConway, Jr.	787,991
Car coupling, J. Snyder	788,173
Car door, E. F. Martin	788,321
Car double friction gear, meter, H. C. Fredericksen	787,910
Car draft rigging, railway, W. H. Miner	787,933
Car, dumping, A. W. Dahmer	788,096
Car roller side bearing, railway, J. F. O'Connor	787,938
Car structure and bolster, H. H. Vaughan	788,125
Car, tank, W. P. Bettendorf	788,016
Car vestibules, combined door and gate keep- er for street, E. T. Robinson	788,428
Cartridge, short-range or gallery, King & Bell	788,266
Cash register, Cleal & Macaulay	788,453
Cash-register apparatus, for printing table for, Frydman & Chabon	788,462
Casting apparatus, metal, J. Scott	788,334
Cattle loading or unloading device, C. P. Ochs	788,424
Celery trimmer, L. B. Keller	788,474
Cement block mold, H. F. Lightner	788,481
Cement kiln, C. Ellis	788,503
Chain or cord attaching device, J. B. Cler- mont	788,094
Chopper, See Cotton chopper	
Churn, A. N. Rowe	788,070
Cigar cutter, F. W. Parris	788,425
Cigar mold, A. S. Koch	788,478
Cigarette packing machine, M. Placer	788,494
Clamp, L. Marceau	788,161
Clothes pin, A. W. Krieger	787,987
Clothes pin, J. B. Fete	788,461
Coal breaker, A. M. Acklin	787,885
Cock safety attachment, gas, J. A. Olson	788,220
Coffee, etc., percolator, F. Acker	788,231
Collars, making horse, T. R. Massey	788,412
Column, R. Hegener	788,153
Column, shaft, etc., staved, H. S. Conrow	788,189
Combining machine, circular, E. Meunier	788,416

How To Increase Your Business

READ carefully, every week, the **Business and Personal Wants** column in the **Scientific American**. This week it will be found on page 369. Some week you will be likely to find an inquiry for something that you manufacture or deal in. A prompt reply may bring an order. Watch it carefully

Bristol

Used All Around the World for All Around Fishing

The substitution of steel for wood in the construction of Bristol Steel Rods made success instantaneous. The standard Bristol carried by most dealers is supplied enough for small fish, yet strong enough for the occasional "big one." Special Bristol Rods also furnished for special purposes as described in our Free Catalogue, "A Lucky Strike." Consult it for your 1905 outings. Ask your dealer for a Bristol.

Send to-day for my catalogue of pleasure boats, all cedar and canvas-covered canoes, oars, paddles, sails and fittings.

J. H. RUSHTON, 819 Water Street, Canton, N. Y.

Alkali and water will thicken a paint, but they decrease its paint value.

The watered paints would settle, like the adulterated semi-pastes, were it not for the thickening.

Paint Frauds Exposed

A good paint looks well and wears well. Most paints look well for a while, but only those made of the right ingredients—in the right proportions—wear well. Short-lived paints are the hand-mixed mixtures, and the adulterated, thick-looking watered paints. Of all paint deceptions, watered paints are the worst. Water has no paint value. It not only displaces oil, but, far worse, its presence in paint proves that an alkali has been used to make the water and oil mix. This union of oil and water forms a thick emulsion which holds in suspension cheap adulterating pigments that would otherwise become hard and settle in the bottom of the can. The alkali destroys the oil and when the oil is destroyed the paint is dead and chalks and is blown or shaken from the building. The water in many so-called pure paints makes them look thick and this deception sells them. Another class of paints to shun are the semi-paste paints that cannot be marketed in liquid form. They are composed largely of cheap adulterants and in liquid form would "settle and cake;" it requires a thick, semi-paste to keep these mixtures from separating. Patton's Sun-Proof Paints look right and wear well for five years and more. They are composed of Zinc, Lead and Silica, Linseed Oil and Turpentine driers in the right proportions. They are cheap because they are good. Our "Paint Queries" booklet tells more about paint frauds. Write for it.

STANDARD SPOKE AND NIPPLE CO. - Torrington, Conn.

SPECIAL ANNOUNCEMENT

To be published on July 1, 1905: A NEW PUBLICATION entitled

American Homes and Gardens

Successor to
SCIENTIFIC AMERICAN BUILDING MONTHLY

THIS new monthly magazine will be much broader in scope than its predecessor. It will have the word "HOME" for its keynote. The man to whom this word has no meaning will have no interest in this new publication. It is the intention of the Editor to take the reader with him to various parts of the country, and show him how the better class of people live, whether the house may have cost \$3,000 or \$300,000. Good taste is, perhaps, more necessary in the building and furnishing of a house of small cost than in a mansion of importance.

The Editor will not leave you on the outer doorstep, however, but will take you within, where you may see how the house is furnished and decorated, and how the owners live. Then you may have a walk through the garden, and then to the summer house, where, perhaps, the plan of the formal garden culminates.

There will be published articles on room decoration and furnishing, showing how the furniture may be arranged to produce the best effects, what pictures may be hung, and what bric-à-brac, inherited from some former mansion, may with advantage be discarded.

Each issue will contain an article on some important mansion, showing, if possible, various views of the exterior, the interior, and the garden. Plans are published with most of the residences shown.

The new publication will be issued monthly, and will be somewhat smaller in page size than the "Building Monthly," viz.: 10½ x 14. It will have a handsome colored cover. It will have about 50 pages each issue. Price, 25 cents each issue; \$3.00 a year.

SPECIAL OFFER TO READERS OF THE "SCIENTIFIC AMERICAN"

To any one subscribing before June 1, 1905, the subscription price will be \$2.50 for "American Homes and Gardens" for one year from July 1, 1905, to July 1, 1906, and the subscriber will receive free of charge the "Scientific American Building Monthly" for May and June.

To any one subscribing after June 1, 1905, the subscription price, without exception, will be \$3.00 a year.

Subscribe at once and obtain the most favorable terms.

MUNN & COMPANY, Publishers, 361 Broadway, NEW YORK

ARNICA TOOTH SOAP

One-third of a Century
Standard of the World

A delicious beautifier, preserver and cleanser of the teeth; makes the breath sweet and the gums less tender. The Metal Box is a handy package for the toilet table and traveling; no powder to litter; no liquid to spill or stain.

ON WHICH SIDE OF THE DESK ARE YOU?

The man before the desk works with his hands and is paid for his labor.
The man behind the desk works with his head and is paid for his knowledge. It is merely a question of KNOWING HOW.
The first step in "knowing how" is simply a matter of cutting out, filling in and mailing us the Coupon shown below.
In return we show you how to improve your position or to secure a more congenial occupation and better salary, without loss of time, without neglecting your present work or obligating yourself to pay more than you can comfortably afford.
No text books to buy—no requirements beyond the ability to read and write, and the ambition to succeed.
Thousands of men, and women too, in nearly every trade and profession date the beginning of their success to the day they filled in this coupon. Why not you?
IT COSTS NOTHING TO FIND OUT.
Cut This Out and receive free—"1001 Stories of Success" and "The Story of McHale."

INTERNATIONAL CORRESPONDENCE SCHOOLS, Box 942, SCRANTON, PA.
Please explain, without further obligation on my part, how I can qualify for a larger salary in the position before which I have marked X

WIRELESS TELEGRAPHY.—ITS PROGRESS and Present Condition are well discussed in SCIENTIFIC AMERICAN SUPPLEMENTS 1425, 1426, 1427, 1386, 1388, 1389, 1393, 1351, 1327, 1328, 1329, 1431. Price 10 cents each, by mail. Munn & Co., 361 Broadway, New York City, and all newsdealers.

WELL DRILLING Machines

Over 70 sizes and styles, for drilling either deep or shallow wells in any kind of soil or rock. Mounted on wheels or on skids. With engines or horse powers. Strong, simple and durable. Any mechanic can operate them easily. Send for catalog.

WILLIAMS BROS., Ithaca, N. Y.

CADILLAC

Control

Driving an ordinary car with a mammoth 30 horse-power automobile, by repeatedly approaching and gently touching the head, is the latest achievement illustrating the unusual sensitiveness of the motor connections and brake device of the wonderful Cadillac.

This perfect control results from mechanism so simple, so durable, so manifestly common-sense, as to make the Cadillac almost *trouble proof*. Because of this excellence of construction, a Cadillac may be maintained at but a fraction of the expense required by other cars—a feature which, combined with never-failing serviceableness, makes it the most satisfactory automobile in America.

Model D—Four-Cylinder, 30 h. p. Touring Car, \$2,800.
Model F—Side-Entrance Touring Car, \$950.
Model B—Touring Car, detachable tonneau, \$900.
Model E—Light, stylish, powerful Runabout, \$750.

All prices f. o. b. Detroit.

FISHING SEASON OPENED.

Sportsmen Already on the Scene. Some Large Catches Reported.

Ho for the woods! And why not? What sportsman has ever tasted of the fascinating sport of New England fishing, when the trout are running well in the streams and brooks; when the salmon are swarming in the land-locked lakes and the hundreds of ponds and rivers of Northern New England are teeming with an endless variety of finny inhabitants, eagerly awaiting a nibble at the fisherman's delicate but dangerous morsel. Delays departure, once sunny spring lifts the lid from his favorite lake or stream, and invites "Sir Walton" to revel and "real" in the "wise man's sport." The season is on; of course everybody knows that the ban was raised April 1st, but perhaps the ice isn't out. Well, it depends upon your resort. Maine has not yet shaken all her icy shackles—some of the large lakes are making desperate effort though, and every day the welcome news, "She's clear" is expected. New Hampshire, however, is practically all free, and Winnepesaukee is giving forth her usual notation of black bass, cusk, pickerel, perch, trout, etc. Newfound Lake has a reputation for its stock of land-locked salmon, lake trout, pickerel, blue bass and perch. Sunapee is being fished for trout, bass, land-locked salmon and large white trout, and the Connecticut Lakes are sending some likely samples of speckled trout—some whooppers from this lake have already been seen (and told).

In Vermont, Memphremagog is furnishing the finest varieties of lake trout, black bass, pickerel, horn pout, white fish and perch. Lake Champlain contains bass, muscalonge, perch and pickerel, and Willoughby carries the large sizes of muscalonge and trout.

In Maine, Sebago is the first to present a salmon offering; but the Rangeley, Moosehead, Grand Lake and Maine's other sixteen hundred ponds and lakes shortly follow, and as the ice leaves, an army of anglers enter. Just send a two-cent stamp to the General Passenger Department, Boston & Maine Railroad, Boston, for the booklet "Fishing & Hunting" accompanied by a booklet giving the Fish and Game Laws of Northern New England and Canada; then you will know just what to do, where to go and how to get there.

Final Opportunity to Secure \$1,200 a Year for Life

BY SMALL MONTHLY PAYMENTS

We offer you, now, the last chance you will ever have to join this remarkable investment, which has been so popular with the readers of this magazine that all the shares have been now taken except the final allotment.

Remember, there are only 6,000 shares all together in this Mutual Rubber Production Company, and only a few hundred of them remain. When these are gone the sale must be permanently closed. Series A, B, C, D, E, F and G have been closed, and Series H, the **Last and Final One**, which we are now offering, will at the present rate of sale be quickly taken.

Every series of these shares have been over subscribed, and the number of shares in the final series is so limited that many people will necessarily be disappointed. We reserve the right to pro-rate or to reject applications when over-subscribed.

If you have been procrastinating—if you have been putting it off "until tomorrow," "until next week," it behooves you now to

Secure Your Shares at Once

This investment opens the door for you, not to immediate wealth, but to what is far better, a competency for future years, when, perhaps, you will not be able to earn it. Crude rubber is to-day worth twice as much as it was a few years ago, the price is continually advancing.

The Mutual Rubber Production Company is divided into only 6,000 shares, each one representing an undivided interest equivalent to an acre in our great commercial rubber orchard. These 6,000 acres are in Southern Mexico—the finest rubber land in all the world. In this orchard we are changing the production of crude rubber from the uncertain method heretofore employed—that of reckless and destructive tapping by improvident natives—to the most solid and permanent basis known to modern scientific forestry, and under Anglo-Saxon supervision. No industry ever underwent so radical a development as we are now engaged in, without making immensely wealthy all those interested in the change. The enormous fortunes made in the past, by gathering crude rubber from virgin trees scattered here and there in the tropical jungle are as nothing compared to the sure and permanent incomes to be derived from this new industry.

No large cash down payment is required to secure these shares, as they are paid for in small monthly installments, as the work of development progresses. For \$20, as the first monthly payment, you can secure five shares. Then you pay \$20 a month for 23 more months, then \$10 a month for a limited period, until you have paid \$1,500, the full price for five shares (\$300 each in the present series). But, meantime, you will have received dividends amounting to \$1,050, or \$210 per share, so that the actual net cost of the five shares in this remarkably safe and profitable investment will be only \$450 of your own money, or \$90 per share. Then, from the maturity period onward, your five shares, or acres, will yield you or your heirs \$1,200 a year for more years than you can possibly live.

Early dividends are provided by "tapping to death" 400 of the 600 trees we originally plant to each acre, and the 200 trees remaining for permanent yield will produce every year at least two pounds of rubber each, at a net profit of 60 cents a pound. These statistics are vouched for by the Government reports of the United States and Great Britain—the most reliable sources of information in the world.

This means, on your five-share investment, a permanent and certain income of \$1,200 a year, or \$2,400 a year on 10 shares. Or, better still, 25 shares will yield you \$6,000 a year. A single share can be secured on the same advantageous basis.

No such opportunity as this to secure a permanent annual income has ever before been offered to people of moderate means.

Our Final Offer—Your Last Opportunity

If you do not promptly take advantage of this remarkable final offer, you will be too late to share the profits enjoyed by the hundreds of fortunate shareholders scattered throughout the country. Probably some one of them is your good friend or acquaintance.

Every possible safeguard surrounds this investment. The State Street Trust Co. of Boston holds the title to our property in Mexico as trustee. We agree to deposit with them the money paid in for shares, and we file with them sworn statements as to the development of the property. This company also acts as registrar of our stock. You are fully protected from loss in case of death or in case of lapse of payment, and we grant you a suspension of payments for 90 days any time you may wish. Furthermore, we agree to loan you money on your shares.

We can prove to you that the five shares in this investment, paid for in small monthly installments, will bring you an average return of twenty-five per cent. on your money during the period of payment, and will then bring you \$100 a month for more than a lifetime. This opens the door for yourself, not to wealth, but to what is better, a competency for future years, when perhaps you will not be able to earn it. Payments of \$4.00 per month the first two years and smaller payments thereafter will secure you one share.

Our literature explains our plan fully and concisely, and proves every statement. We will hurry it to you immediately on request, thus assuring you a possibility of securing shares before it is too late. This is absolutely the last call. The large demand for Mutual Rubber shares has made this final announcement necessary.

Important Announcement

READERS OF THE SCIENTIFIC AMERICAN will be gratified to learn that the great work upon which we have been so long engaged is at last completed. After years of patient labor and research and with the co-operation of America's foremost scholars and experts

THE NEW AMERICANA

stands as an achievement which has already met with the enthusiastic approval of the American people. The AMERICANA is the work which the condition of affairs in the Encyclopedia world made necessary. Before ever a line was written for this great work the ideal was set: *A National Work—Universal in its information—American in its production.* The AMERICANA is distinctly a National Work. It is made by Americans. Every section of America has been called upon to contribute, and for the first time in encyclopedia making North, South, East and West, Canada and South America have had full and true representation. The AMERICANA is NEW FROM COVER TO COVER—new and beautiful type, new maps, new engravings and plates in color, new text illustrations, and, best of all, NEW AND ORIGINAL TREATMENT THROUGHOUT by more than

One Thousand American Scholars and Special Writers

The AMERICANA is the only encyclopedia made in this country by a thoroughly organized body of skilled experts and litterateurs each selected for his special fitness and intimate acquaintance with the subject assigned to him. These trained and progressive workers have struck out into new paths; they have proceeded upon an entirely new plan and that plan embodies the idea which has made our country the wonder of the nations—the idea of reaching the core of things by the shortest method. This is the American Plan. You'll catch the spirit of it as you turn the pages of the work and note its conciseness yet comprehensiveness, while the names of the eminent writers of the signed articles are an ample assurance of accuracy and authoritativeness. The AMERICANA has commanded the services of so many American educators, scholars and experts as to fully justify its title of the one great

National Reference Library

"I am truly delighted with the tone and arrangement of this strictly American publication."
—B. J. CIGRAND, Director Chicago Public Library.

"I consider it in every respect the best encyclopedia published."
—P. N. JOHNSTON, Reference Librarian, New York Public Library.

FREE

No mere advertisement can convey an adequate idea of the vast interest and immense utility of the AMERICANA, or of its exceptional value and sumptuous appearance. We have therefore prepared for distribution among those really interested, a handsome 140 page book containing specimen pages, maps, full-page plates, two tones, color plates, and text illustrations, with 42 portraits of celebrities, full-page photographic plates, showing the fastest train in the world, the largest steamship ever built in America, the famous Flat-iron Building, New York, the stage mechanism for the Opera of Parsifal, etc., etc.

We send you this beautiful and expensive book FREE on return of INFORMATION BLANK here printed.
