

The Science of the LINDSAY LIGHT

Here it is, so plainly illustrated that any one can readily see why the Lindsay Light produces more light and better light from a less amount of gas than would be burned in the same time by an ordinary incandescent gas burner.

The Lindsay Light gives a forced pressure that sends the flame clear out to the end of the mantle, making it all incandescent—all light giving. It regulates the pressure of any gas system, allowing no waste from over pressure. The Lindsay Light mantle glows out a strong, white, brilliant light of 30 candle power.

ELECTRO MOTOR, SIMPLE, HOW TO MAKE.—By G. M. Hopkins. Description of a small electric motor devised and constructed with a view to assisting amateurs to make a motor which might be driven with advantage by a current derived from a battery, and which would have sufficient power to operate a foot lathe or any machine requiring not over one man power.
