"This series of views forms the most important record of the war which has yet been published."—*The Sphere, London.*

The choice of all the remarkable photographs taken during the war, including many for which no room could be found in Collier's at the time they arrived, is here gathered into one splendid volume of permanent value.

"These photographs were made by men who took their lives in their hands to get them. Never before has a war been so realized in pictures."

"The manner in which the Russo-Japanese war has been handled by Collier's is without equal in the history of journalism."

A Photographic Record of the Russo - Japanese War

Now ready in one large quarto volume (11 x 15 1/2 inches), 256 pages, 570 photographs, carefully printed on special paper.

This record presents in consecutive form and comprehensively the story of the greatest military duel of modern times. The pictures and text tell the story from the time that preparations were made in Russia and Japan down to and including the great naval battle between Togo and Rojestvensky.

The history is not only the best of its kind, it is the only one of its kind. To turn its pages is to bring the whole campaign before one with startling vividness.

No publication in the world had such resources for gathering material for such a record as had Collier's. Its correspondents and photographers included Richard Harding Davis, Frederick Palmer, J. H. Hare, J. F. J. Archibald, R. L. Dunn, Victor K. Bulla, H. J. Whigham, Horace Ashton, and four others.

Captain Mahan, the world's greatest authority on naval warfare, writes on the naval battles between Japan and Russia.

Sent by express, prepaid, on receipt of \$4, in stamps, draft, money order, or registered letter. *A prospectus will be sent upon request.*
