

### BUILD YOUR OWN BOAT

**By the Brooks System**

If you can drive a nail and cut out a piece of material from a full-sized pattern you can build a canoe, row boat, sail boat or launch in your leisure time at home and build it will be a source of profit and pleasure.

All you need is the patterns, costing from \$25.00 up, and materials from \$100.00 up. The tools are common in every household. Patterns of over forty styles and sizes—all lengths from 12 to 55 feet.

The Brooks System consists of exact size printed paper patterns of every part of the boat, with detailed instructions and working illustrations showing each step of the work, an itemized bill of material required and how to secure it.

Over six thousand amateurs successfully built boats by the Brooks System last year. Fifty per cent. of them have built their second boat. Many have established themselves in the boat manufacturing business.

Catalogue and particulars free. For 25 cents 100-page catalogue containing valuable information for the amateur yachtsman, showing several working illustrations of each boat, and a full set for one boat. Full line in knock-down and completed boats. When so ordered, patterns are expressed, charges prepaid C. O. D. to allow examination.
