Control Your Car and avoid accidents. The Watres Spent Gas Brake by a touch of the finger instantly controls any car, big or little. The engine does all the work of motoring and does it with greater strength and suddenness than is possible to human power. The device costs \$50, but it's worth \$500—in insurance. Also blows a powerful whistle and inflates tires. Is not disfiguring because it is under the car, out of sight.
