Mention Scientific American

### This Clerk Makes No Mistakes

**The STANDARD Adding Machine**

**\$185.00**

does away with the tiresome, time-consuming, mental drudgery of listing and adding. It can't make a mistake, and does the work quicker and cheaper than the cleverest accountant could do it.

How cheap? Your time is worth, say, \$2.00 an hour. An hour a day running over accounts would be \$2.00. Your accountants cost you together, say \$10.00 a day. And 25% of their time spent in adding and verifying would be \$2.50. That's \$4.50 a day.

Now, the Standard costs \$185.00—lasts at least 12 years. That's \$15.00 a year—5 cents a day—to do work now costing you \$4.50 a day. But just try a Standard in your own office at our risk and see how quickly it pays for itself, and how much it earns thereafter.

Compare The Standard with old-style Adding Machines that print. You will find:

- 1/4 the Keys All the efficiency
- 1/2 the Parts Much greater Speed
- 1/2 the Weight 10 times the Adding Capacity

At less than **Half the Price—\$185.00.**

The Simple Keyboard makes all this possible. Only 19 keys instead of the mistake-breeding row after row on old-time machines.

**The Standard Must Sell Itself**

Now just try the machine—that's all we ask, and there's not the slightest obligation to buy. If the machine will pay for itself and earn steady profits for you afterward, you'll take it, won't you? Well, just put the machine in operation in your own office and figure it out on its performance. Then say "I'll buy" or "Don't want it"—whichever economy dictates. This coupon for your convenience.

**The Standard Adding Machine Co.**  
402 Spring Ave., St. Louis, Mo.

International Specialty Co.  
360 Holden Ave., Detroit, Mich.

"I've figured it out and for many reasons determined to FOLLOW THE FLAG"

# "Follow the Flag"

There is nothing more assuring to the traveler than his knowledge of the fact that he is traveling on a firm road-bed upon which is laid the heaviest of steel rails, made true in all their curves, and that the train which carries him is of the highest standard of excellence known in railroads, and is being guided to its destination by experienced minds. These are the conditions which become apparent to the frequent traveler on the Wabash Line, and which have made that line justly famous. Through cars are operated between
