IF IT'S TO BE MENDED
Dennison's
Glue, Paste or Mucilage
 will do it! The Patent Pin Tube makes it a pleasure to use Dennison's Adhesives. The "Pin Tube" makes this difference—contents always air-tight, cannot become too thick or sour—no cork, stopper or cap to get stuck fast, just a pin to pull out, and out it always comes, and leaves a clear passage for the contents. No brush that gets hard—apply the material direct from the little hole in the tube—just enough—no waste—none spilled—a clean operation.
 (Dennison's adhesives are not for sale at your dealer's, a Patent Pin Tube of Glue, Paste or Mucilage will be mailed on receipt of 10 cents.)

They are very largely subjects that have never before been reproduced. This set of ten beautiful pictures is done in our best method, the Carbon Mezzo Tone, A New and Secret Process of Art Producing, combining the softness and tonal effect of the Carbon with the brilliancy and strength of the original surpassing in beauty and quality any process reproductions of paintings ever before offered to the public, and can be hung as they are—unframed—a custom now much in vogue. This Society controls this process exclusively, and these reproductions cannot be had anywhere else at any price.
