## SMALLEY MARINE GAS ENGINES

**"It Beats the Devil"**

A customer writes us as follows: "It beats the devil what a man will sometimes do to save money. Two years ago I purchased an engine of —. The price was very low and I figured I would not be much out of pocket even if the engine was a failure, but I was wrong; I paid nearly twice the price of the engine trying to get satisfaction out of it. Neither could I get any satisfaction from the people who built the engine. I guess they figured they sold it so cheap they couldn't afford to pay postage answering my letters. Last year I was again attracted by another 'something for nothing' proposition and got sold again. I believe I now know the difference between a cheap motor and a good one. A number of your machines are used in boats here on the river and I know what they are. Send me your latest catalogue and I will place order within ten days for one of your 5 horse power double-cylinder engines."

The above letter is a fair sample of similar experiences that constantly come to our notice. Perhaps you are in the same boat. In any event, if you are interested in marine motors, send 10 cents in stamps and we will forward our 54 page handsomely illustrated 1905 catalogue. Address Dept. W.

# 6% Real Estate Gold Bonds

Conservative investors are offered an opportunity to purchase First Mortgage Bonds secured on income paying real estate in Chicago in amounts of \$100, \$500 and multiples that net Six per cent. to the purchaser. The illustrations show two of the buildings on which we have loans. We have had many years' experience making, and selling locally, these First Mortgage Bonds and take this method of offering them generally to the public. We have never yet had to foreclose any of the mortgages secured by these bonds, and none of our clients have ever lost a dollar, either in interest or principal, on account of these investments.

We cheerfully recommend them as being safe as to principal and sure and prompt as to interest. We collect the interest and otherwise look after the investment entirely free of charge to the purchaser, deriving our profit from the borrower. The Chicago Title and Trust Company, with a capital of \$5,000,000.00, guarantees the title to these properties and certifies to the fact that the Bonds are each and every one a first lien on the property described in the bond.

We invite correspondence of persons who want Safety and Six per cent.
