The Latest Word In Sanitation

The name Sy-Clo on a closet means health insurance for your home or any building in which the closet is placed; it means freedom from all those diseases which are usually traceable to noxious odors and poisonous gases arising from ordinary closets.

Sy-Clo stands for more than mere flushing; it stands for a wonderful syphonic action of great power—an action which literally pulls the contents of the bowl into the drain, cleansing the non-reachable parts, instantly sealing the outlet channel with a water trap to an unusual depth, and absolutely preventing all danger of gas.

The Sy-Clo Closet stands for an interior cleanliness and purity impossible in an iron closet, and unknown in any closet but one made of china—like the Sy-Clo. Hand-moulded of china all into one solid piece like a vase, the Sy-Clo is without crack, joint or rough surface to collect dirt or disease germs. It is as clean inside and out as a china pitcher, being made exactly the same way and of the same material.

The surface of the Sy-Clo Closet cannot chip off, is not affected by acid, water or wear, and hence cannot rust or discolor as an iron closet does. The Sy-Clo is strong, simple, durable; it cannot get out of order and will last, with ordinary care, as long as the house in which it is placed.

It costs but little more than the common closet, and when health and comfort are considered, it really costs less; in fact, *your doctor pays the bill.* Your plumber will tell you that Sy-Clo is absolutely the latest word in perfect sanitation.
