Manufacturers Save Money

By Locating in East St. Louis

In natural advantages, in facilities of every kind, East St. Louis, Ill., is one of the finest industrial locations in the country.

Located on the Illinois side of the Mississippi River (opposite the city of St. Louis, Mo.) and midway between Pittsburgh and Denver, East St. Louis is splendidly situated as a manufacturing and distributing point. The vast Illinois coal fields right at our doors assure cheap fuel for all time; the territory contiguous contributes an abundance of food stuffs and raw materials of every description.

East St. Louis' shipping facilities are better than at any other point. Besides an outlet over \$,000 miles of navigable river, 28 terminal trunk lines extend in every direction. Two belt lines encircle the entire city, connecting all railroads and industries.

Factory sites in East St. Louis are very reasonable. We have any number on belt lines, with suitable acreage, at very low prices. Fuel is cheap -60 to 90 cents per ton delivered; water very nominal, leaving no scales in pipes or boilers.

NOW IS THE TIME TO LOCATE

If you are interested, Mr. Manufacturer, we'll assist you in locating here. If you locate now you can get absolute exemption from city taxes and teaming license for a term of years. Write for particulars now.
