WHITEWASH YOUR BUILDINGS

At Lowest Cost

with a **Progress Universal Spraying Machine**. One man can apply whitewash, calcimine, or cold water paint to 10,000 square feet of surface in ten hours, and do better work than with a whitewash brush. It is also adapted for spreading disinfectants, destroying insect pests and diseases on trees, vegetables, and other plants, extinguishing fires, washing windows, wagons, etc., and other purposes. This machine is really a portable water works system, as it develops a pressure of over eighty pounds, and lifts the liquid more than eighty feet higher than itself. The Progress costs only \$21.00 and lasts a lifetime. It pays for itself the first year. Write for detailed description.
