

Whitewash Your Buildings

At Lowest Cost

With a Progress Spraying and Whitewashing Machine, one man can apply whitewash or cold water paint to 10,000 square feet of surface in one day and do better work than with a brush. It is also adapted for spreading disinfectants, destroying insect pests and diseases on trees, vegetables and other plants, extinguishing fires, washing windows, wagons, etc., and other purposes. The machine is really a little water works system on wheels because the easy movement of the pump develops a pressure exceeding 50 pounds, and will raise the liquid more than 60 feet above its own level. The Progress, 12 gallon size, costs only \$21.00; the 20 gallon size, \$32.00. It will be a lifetime and pays for itself the first year. Other types of machines sold as low as \$9 and \$10. Write for detailed description.

Dayton Supply Co., Dept. R. Dayton, O

Ride a Curtiss—the only Mile a Minute Motorcycle

Holds the World's record of 10 miles in 8 min. 54 2-5 sec. Same Motor used on Capt. Baldwin's famous Airship. Send stamp for catalogue of Motorcycle or Motors.

G. H. CURTISS MFG. CO., Hammondsport, N. Y.

"Success" Automobile, \$250

Practical, durable, safe. Built on a buggy principle, a light, strong, speed-lined Automobile Runabout. Invented by an engineer with ten years' experience in automobile construction. A good hill climber, takes a 30 per cent. grade. Speed from 4 to 25 miles per hour. Write for descriptive literature. "Success" Automobile Mfg. Co., St. Louis, Mo.

BUILD YOUR OWN MOTORCYCLE

We can furnish you with all parts necessary to complete a motorcycle.

1 1/2 H. P. Engine castings with blueprints, \$8.00.
2 1/2 H. P. Engine castings with blueprints, \$12.00.
Send order for our complete catalogue, 100 pages, 200 illustrations, 100 h. p. single cylinder, 100 h. p. double cylinder, 100 h. p. triple cylinder, wheels, tires, ball bearings, spark plugs, etc. Second-Hand Motorcycles, \$10.00 up. Send for the No. 1 Catalogue.

HARRY R. GEER CO., 1015 Pine Street, St. Louis, Mo.

SENSITIVE LABORATORY BALANCE

By N. Monroe Hopkins. This "built-up" laboratory balance will weigh up to one pound and will turn with a quarter of a postage stamp. The balance can be made by any amateur skilled in the use of tools, and it will work as well as a \$125 balance. The article is accompanied by detailed working drawings showing various stages of the work. This article is contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 1184. Price 10 cents. For sale by MUNN & Co., 361 Broadway, New York City, or any bookseller or newsdealer.

The Adirondack Mountains

Are now about the most central of all the great resorts. They have through Pullman sleeping cars from New York, Philadelphia, Boston, Buffalo and Niagara Falls via the

A night's ride takes you from any of these places to the center of the mountains in time for breakfast next morning.

For a copy of "The Adirondack Mountains and How to Reach Them," which is No. 20 of the New York Central Lines' "Four-Track Series," containing a fine map of the Adirondack Mountains and adjacent territory, with useful information in regard to hotels, camps, lakes, rivers, etc., send a two-cent stamp to George H. Daniels, Manager General Advertising Department, Room 26, Grand Central Station, New York.

A printed copy of the specification and drawing of any patent in the foregoing list, or any patent in print issued since 1863, will be furnished from this office for 10 cents, provided the name and number of the patent desired and the date be given. Address Munn & Co., 361 Broadway, New York.

Canadian patents may now be obtained by the inventors for any of the inventions named in the foregoing list. For terms and further particulars address Munn & Co., 361 Broadway, New York.

A South Bend Watch Frozen in Solid Ice Keeps Perfect Time

Your jeweler has a costly chronometer which he expects to keep absolutely perfect time. He places this chronometer under glass in a perfectly

horizontal position and at an even temperature. He disturbs it just as little as possible because he knows, probably from experience, that it would be easily affected by change of conditions, and such a chronometer, carefully guarded and cared for, WILL keep time to the minutest fraction of a second, but it must be so guarded to do it.

Every adjusted South Bend Watch must, before it is sent out to your jeweler, keep perfect time second for second with one of these master timepieces—BUT—it must keep this chronometer time under the conditions of every-day life. Indeed, it must stand, before leaving the factory, without failure in the slightest degree, tests that are twice as wearing as any watch ever received in ordinary use.

It is baked in an oven heated to 100 degrees Fahrenheit

and kept for hours in a refrigerator at freezing point and must not vary even a second. You might freeze it in a block of ice without affecting its timekeeping qualities in the slightest degree.

Of course such care is expensive for us. It requires the most costly workmanship.

It pays because we know that our watches will be accurate to the second at all times.

Every South Bend Watch must also keep perfect time in every position and not be affected by the jars and jolts of railway trains, horse-back riding, automobile, etc. We guarantee them to be perfect timekeepers.

South Bend Watches are sold only by reliable jewelers. You can get them nowhere else. If your jeweler does not sell them send us his name and we will mail you an interesting book "How Good Watches are Made," and also a little device illustrating the manner in which our watches adjust themselves to every temperature.

SOUTH BEND WATCH CO., Dept. 16, SOUTH BEND, IND.
