THIS BOOK of over 200 pages (5 1/2 x 8) contains complete working plans of more practical systems than were ever before condensed into the same space. The simple time-saving confusion-preventing ideas, which hundreds of successful business and professional men have found practical by actual test, are here clearly described and illustrated in every detail. For the thousands of experts of "The Business Man's Magazine" have been gathering the information contained in this book. They have inspected the systems of the most progressive manufacturers, wholesalers, mail order houses, professional men, and public service corporations; they have clipped the best system articles in business periodicals. From this vast store of brains they have selected those systems proved best by test; these they have boiled down that you may have, ready for instant use, the simple systems that will make your every effort more productive—that will economize your time.

We will give you a copy of the book with your subscription to

The Business Man's Magazine

AND

The Book-Keeper

The magazine that contains more practical business ideas than any other magazine in the world. Every issue is filled with money-making—money-saving—ideas for every business man. Its contributors are successful business men who tell you of the methods that have helped to make them successful. For more than seventeen years it has helped to create a higher standard in business methods, more economical ways of doing your every-day work.

Regular departments in "The Business Man's Magazine"—each one edited by a specialist—in addition to the special articles which describe the systems used by the leaders in every line—are departments devoted to Advertising—Salesmanship—Accounting—Business Systems—Short-hand—Business Law—Factory Organization. The entire field of business is covered—not a department is neglected—there is not a man in business who cannot gain many ideas of value in his own business from a year's issues.

Take this ad. to your newsdealer, or send us \$1.00 for a year's subscription to "The Business Man's Magazine," mention this paper, and we will give you a copy of the book "Tabloid Systems."

"FOLLOW THE FLAG"

There is nothing more assuring to the traveler than his knowledge of the fact that he is traveling on a firm roadbed upon which is laid the heaviest of steel rails, made true in all their curves, and that the train which carries him is of the highest standard of excellence known to railroads and is being guided to its destination by experienced minds. These are the conditions which become apparent to the frequent traveler on the Wabash Line and which have made that line justly famous.
