HANG IT

upside down if you like, and it won't spill a drop. Of course it's the "GEECEE" Dry Storage Battery, which during the recent New York Show was used in all the demonstration cars of the following firms: O. & M. Works, Berkshire Automobile, York Automobile, etc.
 An ideal battery for all kinds of ignition work, small incandescent lights, dental engines, cauteries, wireless telegraph, small motors, etc. Write for its Catalog and trade prices, Royal Battery Co., 143 Chambers St., N. Y.

East St. Louis is on the Right Side of the River

If you are seeking a factory or warehouse location, Mr. Manufacturer, consider this fact carefully.

On the Fuel Side

Coal at 30c. per ton cheaper than elsewhere means to large users a sufficient saving in a few years to equip a modern plant.

On the Railroad Side

East St. Louis has 21 terminal lines—St. Louis has 7. East St. Louis has the finest freight facilities in the country to-day. Deliveries across present bridge (or future bridges) and over St. Louis terminals will ever be a source of appreciable expense and delay.

On the Great Market Side

East St. Louis is on the Atlantic Seaboard side and nearer (in facilities and freight rates) to the great markets of the country.

On the Factory and Warehouse Side

East St. Louis's factory and warehouse sites, obtainable at reasonable figures, are miles nearer the heart of St. Louis than sites on the West Side.

OUR ADVANTAGES ARE YOURS

We want you to locate here. The score or more concerns which have moved here in recent years were not persuaded to do so by temporary considerations. East St. Louis offers more and better facilities than any other point—permanent considerations. Mr. Manufacturer, which you want to investigate. If you locate NOW you get absolute exemption from city taxes and teaming license for a term of years. Write us for full particulars. Desk B.
