

The Edison Spark Coil
puts 83 per cent. of the battery's energy into the spark that ignites the charge in a gas or gasoline engine. This was shown by tests recently made at the University of Michigan. It contains more copper than other coils, but large output has enabled us to cut the price from \$3.25 to \$2.50. With the Edison Battery it is the cheapest ignition device. Ask for "Battery Sparks."

A printed copy of the specification and drawing of any patent in the foregoing list, or any patent in print issued since 1863, will be furnished from this office for 10 cents, provided the name and number of the patent desired and the date be given. Address Munn & Co., 361 Broadway, New York.
Canadian patents may now be obtained by the inventors for any of the inventions named in the foregoing list. For terms and further particulars address Munn & Co., 361 Broadway, New York.

WINCHESTER

Rifles Are Reliable

Reliability, strength and accuracy are the cardinal virtues in a hunting rifle. Success and safety often hinge upon them in big game shooting. Winchester rifles possess these virtues to the fullest extent, being reliable in action, strong in construction and accurate in shooting. Winchester rifles and Winchester make of cartridges are a combination that always gives satisfaction. They are made for one another.

Winchester Guns and Ammunition Are Sold Everywhere.

Magnificent Chance for Investment

The inventor of the Magic Sphere offers to allow the first to be erected and run free of all royalty until the cost of erecting shall have been paid, to be followed by a small royalty thereafter.

So much discussion has been caused by the wonderful effects of this sphere that it would prove a powerful amusement attraction. For a complete description, drawings, etc., see the following numbers of the SCIENTIFIC AMERICAN: June 16, July 7, and August 11. The Magic Sphere is the invention of Sir Hiram Maxim, whose name is sufficient to guarantee both success and patronage. Working drawings are now ready. Write at once to James C. Haynes, 50 Bromfield Street, Room 14, Boston, Mass.
