Machinery

For ripping, cross-cutting, mitering, grooving, bering, scroll-sawing edge moulding, mortising; for working wood in any manner. Send for catalogue A. The Seneca Fails M'f'g Co.. 695 Water St., Seneca Falls, N.Y.

Engine and Foot Lathes

MACHINE SHOP OUTFITS, TOOLS AND SUPPLIES. BEST MATERIALS. BEST WORKMANSHIP. CATALOGUE FREE SEBASTIAN LATHE CO., 120 Culvert St., Cincinnati. O.

THE (LIPPER CLIP 13" Its triangular shape prevents entangling and gives three times the capacity of any other Clip for attaching papers together. Best & Cheapest. All Stationers.

CLIPPER MFG. CO., 401 West 124th St., New York, U.S.A. For free samples and information write to us.

STEAM TURBINES.—THEIR CONstruction, Operation and Commercial Application. SCIENTIFIC AMERICAN SUPPLEMENTS 1306, 1307, 1308, 1422, 1400, 1447, 1370, 1372. The articles have all been prepared by experts in steam engineering. Price 10 cents each, by mail. Munn & Co., 361 Broadway, New York City, and all newsdealers.

KEYSTONE WELL WORKS Beaver Falls, Pa.

AUTOMOBILE The Best Dry Battery SPARKING

Becko Spark Cell

J. H. BUNNELL & CO. Electrical Manufacturers 20 Park Place, 1 20 Park Place, NEW YORK

Pan-Tog is a dressing chair for men; with it the trousers are creased fresh every morning. Note the panels in the back-500 lb, pressure on the panels. Improved hanger on back for coat and vest. Shoes and slipper; go out of sight under seat which is low, and easy when lacing shoes; Quartered golden oak or mahoganized birch. A handsome chair that will last a life-time and pay for itself in six months. We pay freight, \$12.50 CENTRAL MANTEL CO. 12120115. CENTRAL MANTEL CO., 12120live Str. St. Louis.

A Desirable Xmas Gift. DRAPER'S

Traces automatically a correct and continuous record in ink of the temperature on a graduated weekly chart. Made in two sizes, and standardized and fully guaranteed. Also other recording weather instruments. THE DRAPER MFG. Co.

152 Front St., New York

Simplest, safest, lightest running, most compact and durable engine built. Always ready to run; never out of order. The ideal engine for driving motor boats, dynamos, lathes, water and air pumps, and for every oractical purpose air pumps, and for every oractical purpose. Engine complete as aboven herewith sent. C. O. D. anywhere in the world for \$5.0. Or completeset of rough castings and detailled blue print with instructions how to build the engine yourself for \$12. Write to-day for descriptive pamphlet and full information.

JOHN W. GARDNER
1037 Goodfellow Avenue, St. Louis

GUNSMITHS, TOOL MAKERS, EXPERI-MENTAL & REPAIR WORK, ETC.

From9-in. to 13-in, swing. Arranged for Steam or Foot Power, Velocipede or Stand-up Treadle. Send for Lathe Catalog. W. F. & JNO. BARNES CO. Established 1872. 1999 Ruby St., ROCKFORD, 11.L.

Asbestos and Magnesia Products STEAM PIPE AND BOILER COVERINGS. ASBESTOS PACKING (For all purposes). ASBESTOS FIRE-RESISTING CEMENTS. ASBESTOS BUILDING MATERIALS. "J-M" ASBESTOS RODFING. ASBESTOS FABRICS. KEYSTONE HAIR INSULATOR ELECTRICAL SUPPLIES.

H. W. JOHNS-MANVILLE CO.

New York, Milwaukee, Chicago, Boston, Philadelphia, St. Louis, Pittsburg, Cleveland, New Orleans, Kansas City, Minneapolis, Dallas, San Francisco, Los Angeles, Seattle, London.

Kerosene Oil Engines

Marine, Stationary, Portable NO DANGER, Maximum Power, Lightest Weight, Simple. Reliable Economical. No Batteries, Self Ignition by Compresion. Fully guaranteed. Write for Catalogue S. A. De No charge for packing. INTERNATIONAL OIL ENGINE CO. 38 Murray St., New York, U.S.A.

THE OBER LATHES

For Turning Axe, Adze, Pick Sledge, Hatchet, Hammer, Auger, File, Knife and Chisel Handles, Whiffletnees, Yokes, Spokes, Porch Spindles, Stair Baiusters Table and Chair Legs and other irregular work.

Send for Circular A.

The Ober Mfg. Co., 10 Bell St., Chagrin Falls, O., U.S.A

AMERICAN HOMES AND GARDENS

Bound Volumes

In response to many requests we have caused a beautiful design to be prepared and expensive registered dies cut so as to produce a most artistic cover. The handsome green cloth is most substantial and the book is sewn by hand to give the necessary strength for so heavy a volume. The decoration of the cover is unique. There are five colors of imported composition leaf and inks, artistically blended. The top edge of the book is gilded. The volume contains all of the 1906 numbers. The price prepaid to any address in the United States or Canada is \$5.00. Those who desire to have their own copies bound may purchase cases which are identical with those of the bound volumes. Any bookbinder can sew and case-in the book for a moderate price. We send this case securely packed for \$1.50. curely packed for \$1.50.

MUNN & COMPANY, Publishers Scientific American Offices

301 Broadway, New York

SPARK COILS

Their Construction Simply Explained

Scientific American Supplement O describes the making of a 1½-inch spark

160 describes the making of a 144-inch spark coil and condenser.

Scientific American Supplement 1514 tells you how to make a coil for gasengine ignition.

Scientific American Supplement 1522 explains fully the construction of a jump-spark coil and condenser for gas-engine ignition.

Scientific American Supplement

Scientific American Supplement 1124 describes the construction of a 6-inch

spark coil.
Scientific American Supplement
1087 gives a full account of the making of
an alternating current coil giving a 5-inch

spark.
Scientific Am'erican Supplement
1527 describes a 4-inch spark coil and con-

denser.
Scientific American Supplement
1402 gives data for the construction of coils
of a definite length of spark. The above-mentioned set of seven papers

will be supplied for 70 cents. Any single copy will be mailed for 10 cts.

MUNN @ COMPANY, Publishers 361 Broadway New York

WE SAVE YOU 35% TO 60% ON TYPEWRITERS

All Standard Makes Guaranteed equal to new in appearance and quality of work. Thoroughly rebuilt, Why pay \$106 for a TYPEWRITER we sell for \$40 to \$65? Discountson orders

McL ughlin Typewriter Exchange, 618 Olive St., St. Louis, Mo. Second-hand typewriters \$15 to \$25 Agents wanted. Send for particulars

A MONEY MAKER Hollow Concrete Building Blocks Best, Fastest. Simplest, Cheapest Machine. Fully guaranteed. THE PETTYJOHN CO.

A Home=Made 100=Mile Wireless Telegraph Set

Read SCIENTIFIC AMERICAN SUPPLEMENT 1605 for a thorough, clear description, by A. Frederick Collins, of the construction of a 100-mile wheless telegraph outfit. Numerous, adequate diagrams accompany the text. Price 0 cents by mail. Order from your newsdeal or, or from

SPRINGFIELD ABRASIVE POLISHING
WHEELS AND BLOCKS.
Used for polishing machinery cutlery and edged tools of all kinds and for removing rust spots from highly polished metal. Makes a very smooth surface without marring. Containing rubber which gives it the resilient effect. Made with either Emery or Carborundum in different grades. Write for price list and special trade discounts.

The Springfield Tire and Rubber Co. Springfield Tire and Rubber Read SCIENTIFIC AMERICAN SUPPLEMENT 1605 for a borough clear description, by A. Frederick Collins, of the construction of a 100-mile wheless telegraph outlit. Heating apparatus, steam, L. M. La Barr. 837,746 tumerous, adequate diagrams accompany the text. Hinge setting tool, R. M. Connely... 836,737 Hinge setting tool, R. M. Connely... 836,737 Hinge setting tool, R. M. Connely... 836,739 Hitching device, Hazlewood & Robinson. 836,971 Hitching device, Hazlewood & Robinson. 836,739 Hoisting machine, J. Campbell 837,190

PUBLISHERS

PUBLISHERS' American NOTICE NOTICE omes and Gardens

\$3.00 a year; or, with the SCIENTIFIC AMERICAN, \$5.00 a year. Measures 10½ x 14 inches. 72 Pages. Colored Cover

This is a thoroughly practical magazine, dealing with the home and its surroundings. An ideal journal dealing not only with buildings but with country life as well. The aim of the magazine has been to stimulate among its readers a wider interest in the beautifying of the home. The articles deal with not only the house exterior but the interior plans and arrangements and the subject of decoration as well. The garden, as an adjunct or frame of the mansion, receives its full share of attention, and each issue contains examples of artistically planned gardens, large and small, old and new. There will be published in each issue some large estate, and the reader will be taken over the buildings and grounds as a visitor. There will also be published articles dealing with all phases of practical country life.

\$3.00 A YEAR

DURING 1907 ARTICLES WILL BE PUBLISHED ON THESE SUBJECTS:

> The Home Roof—A Neglected Opportunity; How a Woman Made a Worn-out Farm Pay; The Iris Garden;

The Kitchens of Our Forefathers; Cement and Concrete in the Formal Garden; Flowers for House and Table Decoration.

A MINIATURE ENGRAVING

DURING 1907 ARTICLES WILL BE PUBLISHED ON THESE SUBJECTS:

Well designed Appliqué for the Home; A Naturalistic Garden designed by its owner; Something Concerning Driveways; Life on an Olive Ranch; Longfellow's Home;

Curtains and Draperies.

The magazine is beautifully printed on heavy coated paper, and is elaborately illustrated by handsome engravings made from photographs taken especially for this publication. The colored covers change monthly (see reduced black and white specimens above). AMERICAN HOMES AND GARDENS should have been a place in every home. Send \$3.00 to-day and receive the beautiful November and December issues without charge. Three sample copies, 25c.

MUNN & COMPANY, Publishers, Scientific American Office, 361 Broadway, New York

MANY A RESPECTABLE **GAS ENGINE**

has lost its reputation because of incompetent batteries. Edison Pri-mary Batteries will make any gas or

gasoline engine keep its promise. They deliver a steady, continuous current, use up no energy when not in use, have long life, are easy to set up, simple to renew and cheaper in the long run than any other form of buttery energy.

Write for literature telling all about Edison Ratteries and showing just what you

Batteries and showing just what you need for your purpose.

The Oliver Writes Right Because It's Built Right

THE OLIVER TYPEWRITER is a perfect piece of mechanism.

It is scientific in principle, flawless in construction, splendidly efficient in operation.

We build the Oliver to accomplish

results in the quickest, simplest, easiest

It is a visible writer. The type It is a visible writ strikes the paper in plain sight. No lifting of carriage. Space indicator shows the printing point.

It is a vertect It is a perfect aligner. The type bars are U-shaped -with type in exact

It is a marvel of simplicity. Has less than one-third the number of parts of other standard machines. This saves time, temper and repair bills.

It has the universal keyboard—simplified. Prints 84 characters with 28 keys. It has an Automatic Paper Register-

a continuous feed, like a printing press.

The carriage is instantly removable—extra long carriage for way-billing, insurance policies, etc., can be used inter-changeably with regular carriage.

The direct downward stroke of keys makes it easy to manifold from one to twenty copies simultaneously.

Each part of the Oliver is made from an individual piece of tool steel. The escapement pinion of other machines is composed of from five to eighteen pieces. The Oliver escapement pinion is one complete part, made from a solid piece of tool steel.

Not a single pieceof wood or tin is used in the entire machine. In durability, in speed capacity, in versatility and perfect printing qualities, the Oliver Typewriter has no competitor has no competitor.

As one of the most eminent engineers in the country expressed it, the Oliver Typewriter is "a Symphony in Steel."

is 100% perfect. Write for the Oliver Book, which tells more about this wonderful writing

The Oliver Typewriter Company 119 Wabash Ave., Chicago, Ill.

To Book **Buyers**

We have just issued a new 112-page catalogue of recently published Scientific and Mechanical Books, which we will mail free to any address on application.

Industrial Alcohol

Its Manufacture and Uses

A Practical Treatise

BASED ON

DR. MAX MAERCKER'S "Introduction to Distillation" AS REVISED BY

DRS. DELBRÜCK AND LANGE

COMPRISING

Raw Materials, Malting, Mashing and Yeast Preparation, Fermentation, Distillation, Rectification and Purification of Alcohol, Alcoholometry, The Value and Significance of a Tax-Free Alcohol, Methods of Denaturing, Its Utilization for Light, Heat and Power Production, A Statistical Review, and The United States Law

BY

JOHN K. BRACHVOGEL, M. E.

450 Pages. 105 Engravings. Price, \$3.00.

The latest and most authoritative book on the subject based on the researches of eminent German specialists. Denatured alcohol is one of the most promising of the coming industries and its literature is extremely limited.

MUNN & COMPANY, Publishers 361 Broadway, New York

Factory Clerks and Superintendents

We can help you to increase your earning power from 25 to 50% by means of our Course of Instruction in COST ACCOUNTING. We can teach you not only to devise and instal a system for the place you now fill, but to build factory systems for others. In fact we can teach you to become a COST EXPERT. Hundreds of our students are to-day filling the best positions. Do you want to be helped as we have helped them? Let us show you how we do it. It costs nothing to investigate. The cost is small and we give you all the time you want in which to pay it. A few of your spare half hours for the next few months will put you to produce far better results. There is no way to advance except through knowledge. Let us teach you. Drop us a postal card and ask for our plan for teaching you how

ROTARY PUMPS AND ENGINES. Their Origin and Dev elopment.—An important series of papers giving a historical resume of the rotary pump and engine from 188 and illustrated with clear drawings showing the construction of various forms of pumps and engines. 33 illustrations. Contained in Supplements 1109, 1110, 1111. Price 10 cents each. For sale by Munn & Co. and all newsdealers.

Concrete, Reinforced Concrete Concrete Building Blocks

Scientific American Supplement 1543 centains an article on Concrete, by Brysson Cunningham. The article clearly describes the proper composition and mixture of concrete and gives results of claborate tests.

Scientific American Supplement 1538 gives the preperition of gravel and sand to be used in concrete.

Scientific American Supplements 1567, 1568, 1569, 1570, and 1571 centain an elaborate discussion by Lieut. Henry J. Jones of the various systems of reinforcing concrete, concrete construction, and their applications. These articles constitute a splendid text book on the subject of reinforced concrete. Nothing better has been published.

Scientific American Supplement 997 centains an article by Spencer Newberry in which practical netes on the proper preparation of concrete are given.

Scientific American Supplements 1568 and 1569 present a helpful account of the making of concrete blocks by Spencer Newberry.

Scientific American Supplement 1534 gives a critical review of the engineering value of reinforced concrete.

Scientific American Supplements 1547 and 1548 give a resume in which the various systems of reinforced concrete construction are discussed and illustrated. Scientific American Supplement 1564 contains are article by Lewis A. Hicks, in which the merits and defects of reinforced concrete are

analyzed. Scientific American Supplement 1551 centains

some practical illustrations by Walter Loring Webb.

Scientific American Supplement 1573 contains an article by Louis H. Gibson on the prin-ciples of success in concrete block manufac-ture, illustrated.

Scientific American Supplement 1574 discusses steel for reinforced concrete.

Scientific American Supplements 1575, 1576, and 1577 centain a paper by Philip L. Wermley, Jr., en cement mertar and cencrete, their preparation and use for farm purposes. The paper exhaustively discusses the making of metar and concrete, depositing of concrete, facing concrete, wood forms, concrete sidewalks, details of construction of reinforced concrete posts.

Each number of the Supplement costs 10

A set of papers containing all the articles above mentioned will be mailed for \$1.80.

SHAVING GLASS

Every man should have one.

It makes shaving safe and comfortable. It may be applied to any window, or elsewhere to ob-

tain a strong light, and instantly adjusted to any angle. It may be carried safely in a satchel.

Furnished express paid.

Chipped Edge, \$2.00; Beveled Edge, \$2.00

Send for circular.

CALDWELL MANUFACTURING CO., 3 Jones Street, Rochester, N. Y.

WOULD you like a copy of the new catalogue of the Collier artist proofs, containing 132 reproductions, in half-tone and line engraving, of the works of Gibson, Remington, Frost, Parrish, Pen-

field, and many other leading American artists?

The engravings in this catalogue are made from the originals, which were drawn exclusively for Collier's. They are exact reproductions in black and white, and show the entire collection of proofs, with sizes, prices, and descriptions. You can get an idea of the beauty and value of this catalogue

when you realize that it contains 48 Gibson Reproductions, 29 Remingtons, and 55 others—132 in all.

We can not afford to send it free, but if you will send us five two-cent stamps to cover charges we will mail you a copy postpaid. Write your name and address plainly on the order form, and send it with the five stamps to

Proof Dept., P. F. Collier & Son, 420 West Thirteenth St., New York

Reference Book

12mo. 516 Pages. Illustrated. 6 Colored

The result of the queries of three generations of readers and correspondents is crystalized in this book, which has been in course of preparation for months. It is indispensable to every family and business man. It deals with matters of interest to everybody. The book contains 50,000 facts and is much more complete and more exhaustive than anything of the kind which has ever been attempted. The "Scientific American Reference Book" has been complied after gauging the known wants of thousands. It has been revised by eminent statisticians. Information has been drawn from over one ton of Government reports alone. It is a book of everyday reference—more usful than an encyclopedia, because you will find what you want in an instant in a more condensed form. Sixty years of exheriting the Scientific American to the Durchasers of this book a remarkable aggregation of information.
