The BUSINESS MAN'S ENCYCLOPEDIA

At a cost of thousands of dollars, with the aid of twenty-seven business experts, we have clipped, extracted, preserved business data from thousands of different sources—from magazines, newspapers, books, correspondence courses, from actual business experience. And all this data we have boiled down, classified, arranged and indexed into one complete business Britannica.

There are dozens of books on accounting, advertising, salesmanship, business letter-writing and other branches of business, but the Business Man's Encyclopedia is a condensation of them all. It deals not merely with one department of business, but with all departments—from the purchase of raw materials to the sale of the finished product—from advertising and selling to credits and collections.

One man under ordinary conditions could not gather in a lifetime one-tenth of the business information these twenty-seven experts have seen a hundred. And the best of what they learned they condensed in these **THE MAGAZINE OF BUSINESS** books. Em- contain. Where the average business man sees one article, reads one book, meets one business man these ployer or employee, you need these books in your office, on your desk, or in your library.

System, the magazine, is essential to business success. It tells every month all that is new in business to save time—all that is good in business to make money. 226 or more pages of indispensable information for business men. Through SYSTEM you can learn all that anyone can possibly tell you about system and business methods. It will give you each month dozens of clever advertising, selling and manufacturing plans that have built some of the greatest retail, wholesale and manufacturing concerns in America. The price of SYSTEM is two dollars a year. It is worth a great deal more than that to any alert man with his eyes on the main chance.

W. P. CHASE & Co.: "We would not have SYSTEM discontinued now though the price were raised to \$10 a year."

W. P. JOHNSON: "Secured one idea from SYSTEM that solved the hardest problem in my department."

Send \$2.00 to-day for a full year's subscription to SYSTEM. At once we will send you free a full cloth bound set of the Business Man's Encyclopedia—in two volumes—all transportation charges prepaid. Write your name on the margin of this advertisement—tear out—mail to us to-day with a two-dollar bill. Better still, include \$1.00 extra (\$3.00 in all), and we will bind the books for you in the finest flexible Morocco and gold the edges.

Hammer the Hammer

Accidental Discharge Impossible

Drop it, kick it, or if you can think of a more severe test of safety, please make it—we accept any challenge. Our exclusive patent safety lever is the reason why accidental discharge is impossible, and it lifts the

IVER JOHNSON Safety Revolver

out of the "went-off-by-accident" class. This lever must be in place before the revolver hammer can touch the firing pin and can only be raised when you purposely pull the trigger.

Our Booklet "Shots" Mailed Free It's full of firearm lore; gives important facts that every owner of firearms should know, and goes into the details and illustrates by sectional views the peculiar construction of the Iver Johnson.

Iver Johnson Safety Hammer Revolver 3-inch barrel, nickel-plated finish, 22 rim fire cartridge, \$5

Iver Johnson Safety Hammerless Revolver 3-inch barrel, nickel-plated finish, 32-38 center fire cartridge, \$6
