

The ELGIN for All

The name ELGIN embraces many grades of watch movements—all of superior time-keeping qualities.

The grades differ in price according to the cost of construction—each grade being the best watch value for the money.

The man who wants an accurate watch, at a popular price, should buy the G. M. WHEELER Grade ELGIN-

> "The Watch that's made for the Majority."

17 jewels; adjusted to temperature; micrometric regulator.

This ELGIN Watch can be had in the desirable models and sizes suitable for men and boys.

ELGIN Watches of equal grade for ladies, at moderate prices.

A FIRE-PROOF Building Brings Greater Returns

to Produce from Buildings of Ordinary Construction

This statement is equally true of buildings for INVESTMENT, to be rented

One of Chicago's most famous Department Stores. Fire-proofed throughout by the National Fire Proofing Company.

the superiority, safety and true economy of

our methods and materials.

The National Fire Proofing Company has fire-proofed almost ninety per cent. of the celebrated fire-proof buildings in the country, from the famous sky-scrapers of New York, Chicago and other leading cities to hundreds of substantial stores wareto hundreds of substantial stores, houses, etc., throughout the country.

You cannot afford to build without an investigation as to what we can do for you. Write our Chicago office for literature or any specific information you may desire, or call at any of our offices.

to others, and of buildings to be used directly for the business of the owner or

Individuals or companies contemplating the erection of a building, whether it be a Store Building, Warehouse, Hotel, Factory, Office Building, Hospital, Apartment Building, Bank, Club, Library, Public Building or School, either immediately or in the future, will find it profitable to secure our literature or talk with one of our representatives.

The average man has an idea that fire-proof construction can be considered only in connection with very expensive or elaborate buildings.

We will demonstrate that fire-proof construction is as great an economy and as thoroughly essential for the \$50,000 building as for the \$1,000,000 building. We will demonstrate that it "does not pay to build to burn."

We will demonstrate unquestionably

Interior view, same building during construc-tion, showing one floor partially completed-Steel columns still to be fire-proofed.
