A Watch of Unusual Accuracy

Celebrated as the
Standard of
Accuracy
since 1842

Howard accuracy
begins with the selection of
the materials; it is carried through
the cutting of the jewels, through the assem-
bling of the parts, through the timing of the
completed movement. When all has been declared
perfect, the movement is put in its own case by the
makers and tested again—any variations caused by changed
conditions being corrected by a complete readjustment—thus
making the "Howard" a watch of unusual accuracy. Every

HOWARD WATCH

is enclosed in a velvet-lined mahogany cabinet, with
Certificates of Guarantee giving movement and case
numbers and the fixed price at which the watch is sold
everywhere.

HOWARD Watches are made in men's sizes only. Prices
range from \$35 to \$150, the difference being not in grade
of materials or workmanship, but in quality of case,
number of jewels, and adjustments.

"WATCH WISDOM" is an unusual book
about an unusual watch, written by an
unusual man—Elbert Hubbard.
