Speed

For speed craft or family launch, here is a STRICTLY FINE engine—fine in every meaning of the word. From base up to spark plug, every inch of it has been constructed by skilled workmen with painstaking care and along the latest scientific lines; every nut and bolt even, has been made perfect. Our materials are the finest the market affords. In a word, there is only one word, and that is—QUALITY. The market is flooded with "cheap" marine engines. We believe the public is tired of these toys and make-shifts, hence we offer a strictly fine engine at a price that will astonish you by its reasonableness.

The Scripps Motor is a 4-cycle engine; crank cases made of aluminum (much lighter than iron and equally as strong); positive automatic system of lubrication that maintains same level of oil in each splash compartment at all times; two roony hand hole plates in crank case; Parson's Manganese bronze connecting rods; Schebler float feed carburetor. Engine makes a beautiful appearance with its highly finished castings and all trimmings polished brass.
