COLD GALVANIZING

IMPORTANT PATENT DECISION

for a new process of electro-galvanizing.

IN EQUITY ON FINAL HEARING

The Hanson & Van Winkle Co. took up this fight single handed some six years ago, and have conducted it at great expense, feeling confident of final success.

This seems a particularly opportune time to call the attention of all those interested in galvanizing processes to the perfection to which the Hanson & Van Winkle Company has brought this art and to the fact that their salts and processes have now been authoritatively declared to be free and clear of infringement on this patent, which had heretofore been asserted to be all-controlling. Whatever may be said of its validity as against others, as against the salts and processes of this company the patent is of no effect.

While the process of the Hanson & Van Winkle Company, as installed by their experts, is simple and inexpensive, their intention is to install at once in the larger cities, outfits in connection with their improved mechanical devices in order to show prospective users the advantage of their methods.

Projection in NATURAL COLORS

The Reflecting Lantern for showing on the screen illustrations, engravings, post cards and natural specimens, brilliantly illuminated in natural colors. Made in two styles:

The College Projector, a large powerful instrument. In use at Harvard, Cornell, Univ. of Pa., Leland-Stanford and U. S. Government. The Post Card Projector, on the same order but inexpensive, for showing post cards and other illustrations. Send for list of Projectors, Stereopticons, Moving Picture Machines and Films.

The Rapid

Pays Big Dividends

RAPIDS—which are exclusively commercial motor cars for all purposes—pay big dividends on their first cost from the fact that they cost much less to operate and maintain than the necessary number of men, horses and wagons to do an equal amount of work. And they do the work so much more quickly and satisfactorily. Rapids are unquestionably the demonstrated success of modern, 20th Century methods of trucking—merchandise delivery—passenger car transportation and sight-seeing, as well as for police and hospital service. So, whether you are a manufacturer or merchant, interested in commercial motor cars, or wish to engage in a most profitable business with one or more sight-seeing Rapid Passenger Cars or are prepared to properly represent us as our agent, I ask you to write us and let me submit all facts which apply to your requirements. We are

Makers of Commercial Cars Exclusively

No other manufacturers in America even claim to be prepared to furnish commercial cars exclusively for every purpose. Our many years of experience—Our list of patrons—Our Rapid Cars themselves, as shown in every style and variation of style to suit every requirement, all constitute our claim for your consideration. We do not allow agents to represent us unless they are prepared to properly demonstrate Rapids to prospective purchasers who are constantly writing us. So I ask you to write to the factory—let us know your requirements and I will see to it that you are promptly furnished all facts—figures—prices—and comparative advice based upon our valuable records covering our own many years experience and the experience of representative users of Rapid Cars. Your inquiry, stating your requirements, will have my prompt attention.

The Howard Watch

A Howard watch handed down to the third generation is like family portraits. Only the well-to-do could afford a Howard in the early days. The Howard has been carried by more distinguished Americans than any other watch. Now that its price makes it more accessible it is still the watch of fashion, the watch of our best people, of our workers and men of achievement. The man who imports his cigars does not import his time. Snobbishness is always laughable because it is a form of ignorance. Tell the man or the jeweler

who boasts a foreign trade-mark on his watch that foreign watches are made today with American tools, and that the tools were invented by Edward Howard, at Roxbury, Mass., in 1842. A Howard watch is always worth what you pay for it. The price of each watch—from the 17-jewel in a fine gold-filled case (guaranteed for 25 years) at \$35; to the 23-jewel in a 14K solid gold case at \$150—is fixed at the factory, and a printed ticket attached. Find the Howard dealer in your locality and talk to him. He's a man worth knowing.

Elbert Hubbard visited the home of the HOWARD Watch and wrote a book about it. If you'd like to read this little journey drop us a postal card—Dept. P—we'll be glad to send it to you. Also a little catalogue and price list, with illustrations actual size—of great value to the watch buyer.

E. HOWARD WATCH COMPANY, Boston, Mass.

AUTOLOG SENT FREE!

Every one interested in Motor Cars or Motor Boats, whether owner, dealer or chauffeur, will find this book very valuable. It is not technical, but in a matter-of-fact way, tells you everything that you want to know regarding Motors and Motoring. It saves time—money—worry. It contains 200 pages and many illustrations.
