The Rapid

Pays Big Dividends

RAPIDS—which are exclusively commercial motor cars for all purposes—pay big dividends on their first cost from the fact that they cost much less to operate and maintain than the necessary number of men, horses and wagons to do an equal amount of work. And they do the work so much more quickly and satisfactorily. Rapids are unquestionably the demonstrated success of modern, 20th Century methods of trucking—merchandise delivery—passenger car transportation and sight-seeing, as well as for police and hospital service. So, whether you are a manufacturer or merchant, interested in commercial motor cars, or wish to engage in a most profitable business with one or more sight-seeing Rapid Passenger Cars or are prepared to properly represent us as our agent, I ask you to write us and let me submit all facts which apply to your requirements. We are

Makers of Commercial Cars Exclusively

No other manufacturers in America even claim to be prepared to furnish commercial cars exclusively for every purpose. Our many years of experience—Our list of patrons—Our Rapid Cars themselves, as shown in every style and variation of style to suit every requirement, all constitute our claim for your consideration. We do not allow agents to represent us unless they are prepared to properly demonstrate Rapids to prospective purchasers who are constantly writing us. So I ask you to write to the factory—let us know your requirements and I will see to it that you are promptly furnished all facts—figures—prices—and comparative advice based upon our valuable records covering our own many years experience and the experience of representative users of Rapid Cars. Your inquiry, stating your requirements, will have my prompt attention.

The HOLSMAN Goes Anywhere

It is built especially for hard service, has splendid hill climbing power—and travels rough, rocky, rutty or muddy roads, and steep hills with ease and comfort. The original and most popular high wheeled automobile, it is built along the most approved carriage lines, and is light, graceful and dependable. Cheaper than a horse—costs but a cent a mile to operate, and

Repairs Less Than \$3 a Month

The Holman is not an experiment but has a record of over six years of solid success, and thousands of satisfied owners. 1907 sales were over \$500,000. Solid rubber tires (no punctures), simple air cooled motor.

Write for Book of Testimonials that tells what actual users of The Holman think of it, and our complete illustrated catalog that describes the different Holman Models. Prices \$550 to \$880.

HOLSMAN AUTOMOBILE CO.
Room 645 Monarch Bldg., Chicago, U.S.A.
(Oldest and Largest manufacturers of Carriage Automobiles in the world.)

COLD GALVANIZING

IMPORTANT PATENT DECISION

An important decision has just been rendered by Judge Cross of the Circuit Court of the United States, District of New Jersey, in favor of the Hanson & Van Winkle Co. of Newark, N. J., and Chicago, Ill., and against the United States Electro-Galvanizing Company, of Brooklyn, New York, for a new process of electro-galvanizing.

IN EQUITY ON FINAL HEARING

The Hanson & Van Winkle Co. took up this fight single handed some six years ago, and have conducted it at great expense, feeling confident of final success. This seems a particularly opportune time to call the attention of all those interested in galvanizing processes to the perfection to which the Hanson & Van Winkle Company has brought this art and to the fact that their salts and processes have been authoritatively declared to be free and clear of infringement on this patent, which had heretofore been asserted to be all-controlling. Whatever may be said of its validity as against others, as against the salts and processes of this company the patent is of no effect.

While the process of the Hanson & Van Winkle Company, as installed by their experts, is simple and inexpensive, their intention is to install at once in the larger cities, outfits in connection with their improved mechanical devices in order to show prospective users the advantage of their methods.
